POWERBOARD NX BY BESTOP

- Electrically powered running board hides stealthily underneath your truck when doors are closed and extends down to meet your foot when door opens.
- **SMARTER:** The result of relentless, continuous improvement and ongoing testing, PowerBoard NX is refined: stronger, and with our new wireless connections, just plain smarter.
 - **EASIER:** Installation just got quicker, and far easier: no more removing door panels, or even touching the interior of the truck.
 - **SIMPLER:** Wireless door transmitters mean less wiring, no connecting to vehicle's complicated wiring harness. Self-contained system makes it all so much simpler.

HERD AERO LT

Aero LT Bumper

- Herd's proprietary 9-step polish process is without a doubt the shining star in the industry. The end result is a mirror-like finish you can be proud to put in front of your truck
- The Aero LT's tubing is made from high-quality, high strength 6061 aluminum with industry leading 3" oversized tubes
- Oval tubing is used to provide a flat mounting surface for aftermarket lights
- Herd's high quality, steel drop forged eyebolts offer a strong and secure method for towing
- On some vehicles, the OEM lights can be integrated into cutouts in Herd's bumper guard

extang

tonneau covers

72000 Series

SOLID FOLD 2.0

Re-engineered to withstand the harshest of weather conditions and simplify everyday use. Now made with TPO dent proof panels, it's cooler to touch on hot days, and integrated snap on seals make it the most water resistant folding cover on the market.

83000 Series

e·MAX

TONNO

Maximum Access When You Need It

eMAX is the only soft-folding cover that folds up at the front of the truck bed to offer access to 100% of the bed interior.

Effortless Installation

eMAX installs in minutes, and whether it's open to full capacity or closed, remains hassle free and good looking.

Reliable Security

eMAX uses our patented Secure Shut latching system to keep the cover steady and cargo protected.

Extang Engineered

eMAX is based on the number one selling Trifecta platform, featuring the same superior components: Speed & Safety Klamps, MaxHinges and WeatherTuff Seals.

ENCORE

TONNO

Low Profile Folding Hard Lid Tonneau

- The first 3-panel hard folding cover that provides both front panel opening and rear fold-up. The wider panel openings are more convenient for storing and unloading cargo
- Ultra-tough 1" thick panels made of FRP (fiberglass reinforced plastic), provides superior dent and fade resistance, with the strongest aluminum frame available

NOW FEATURING!
BOLT
BREAKTHROUGH ENERGY LOCK TECHNOLOGY

62000 Series

TONNO TONIC

- UV protectant formulated for Extang's tonneau covers
- Can be used to clean any vinyl, rubber, fiberglass or leather

Part No. 1181

e·LIGHT 500

EXTANG.COM

The first battery rechargeable truck bed utility light that's blindingly bright! Over 500 Lumens in a single light bar that mounts anywhere and recharges your truck.

Part No. 415 - Single Unit

More Applications Available

MAXSEAL

TAILGATE SEAL

- Creates a tight seal along sides and bottom of your tailgate
- Just cut, peel and stick
- Universal length fits all makes and models

Part No. 1140

TRUXEDO

TONNEAU COVERS

Rolling Slats: aluminum slats are linked together and bonded to a UV resistant, industrial quality leather-grain fabric creating a unique cover of superior strength and Truxedo's signature low profile look.

Low Profile Design: Mounted inside the rail, the Titanium sits lower than 3/4" above the truck bed.

Easy Installation and Operation: It's simple to operate, utilizing a single quick latch to release. When closed, the Titanium offers superior durability and protection.

TITANIUM

HARD ROLLING COVER

9XXXXX Series

**Best Selling
Tonneau Cover in North America**

Low-Profile design

Great looks and premium features makes the Lo Pro QT the best selling cover on the market.

Easy installation and use

Installs in minutes with pre-assembled, quick attach cover system. Bows conveniently roll up within cover for easy storage.

Automatic tension control

Patented spring tensioner self-adjusts to keep the cover tight in fluctuating temperatures. Great looks in any climate!

Free-floating hook and loop system

Industrial strength hook slides within the rail and works with the tension control system to maintain a perfect fit at all times.

Great combination: Only cover with front of bed entry, plus rolls completely open from the rear to haul large items.

Front release latch: Front hinged section allows for easy access to TonneauMate and cargo at the front of the bed.

Sleek, Low profile appearance: Sits lower than 3/4" above truck bed. Improves the appearance of any truck.

Automatic tension control: Built into hinge and self-adjusts to keep the cover tight in fluctuating temperatures.

B-light BATTERY POWERED TRUCK BED LIGHTING SYSTEM

- Uses LED technology
- Illuminates entire bed with just one switch
- Works with all trucks
- Fast and easy installation

Part No. 1704998

BAKFlip

ALUMINUM HARD FOLDING COVER

America's #1 Hard Folding Tonneau Cover

The G2 features a solid high density EPS core that increases strength while decreasing overall weight. Like all BAKFlips, the G2 provides 100% bed access, sports a no-profile design, and the all-new integrated buckle system allows you to drive with the cover folded, flipped up, or closed.

The HD includes all G2 features PLUS:

- Heavy-duty aluminum panels
- Premium density foam core
- Injection molded latch housing for long-term use
- Increased weight rating of 400 lbs of evenly distributed weight
- Extended 2-year warranty

8' Long Bed And Specialty Applications Also Available

Also works with BAKBox2 - folds flush out of the way

More Applications Available

ACCESS® Original Roll-Up Cover

The ACCESS® Original Roll-Up Cover put ACCESS® on the map and is still our most sought after cover. The ACCESS® Cover rolls open in seconds and stores neatly behind the cab without view obstruction. Make sure it's the original roll-up cover with our exclusive SLANTBACK REAR DESIGN.

- Premium XT-DIAL™ Tension Adjuster
- Patented AUTOLATCH™ II Dual Locking System
- Premium nylon straps feature a cab guard design
- TIGHT BITE™ Clamps maintain a superior grip

ACCESS® LORADO® Roll-Up Cover

If you prefer a more streamlined, lower-profile look for your truck, but don't want to sacrifice performance, the LORADO® Roll-Up Cover is a perfect option. The LORADO® Cover features all of the same components as our original ACCESS® Cover, but with a sleek, low-profile design that sits one inch above the truck bed.

- Premium XT-DIAL™ Tension Adjuster
- Patented AUTOLATCH™ II Dual Locking System
- Premium nylon straps feature a cab guard design
- TIGHT BITE™ Clamps maintain a superior grip

ACCESS® Accessories

The ACCESS® TRAILSEAL® Tailgate Gasket (PN 30946) protects cargo by preventing dust, rain and snow from entering the truck bed. The ACCESS® Total Bed Seal Kit (PN 60090) is designed to seal manufacturer gaps and holes in 2007-ON Chevy/GMC truck beds.

ACCESS® AA Battery and Motion LED Lights are peel-and-stick solutions for any dark place without the need for wiring. The ACCESS® AA Battery LED Light (PN 80312) is button operated, while the ACCESS® Motion LED Light (PN 90392) automatically turns on when the sensor detects motion in the dark.

Tested. Trusted. Guaranteed.

Strong As An Ox™

Gooseneck Hitch with the Quick Flip Ball

- Fool-proof hitch
- Collar: twist the collar and pull out the hitch ball
- No release handle or pin to pull
- Limited lifetime warranty

It's a fool-proof hitch. The difference between Blue Ox and other brands is the collar: twist the collar and pull out the hitch ball. No release handle or pin to pull. To stow the ball, just drop it into the collar. The ease of use, functionality and overall friendliness of the hitch make this a hitch worth having.

WeatherTech®

Extreme Duty Floor Protection FloorLiner™

- Accurately and completely lines the interior carpet, giving "absolute interior protection™"
- Advanced surfacing creates channels that carry fluids and debris to a lower reservoir with further channeling to help minimize fluid movement while driving
- Once fluids become trapped in the reservoir, away from shoes and clothing, they are easily removed
- Part numbers listed are black; for tan change the second digit to 5 and for gray change the second digit to 6

NEW

Extreme Country™

The new Extreme Country mud-terrain tire has been designed with a proven tread compound for excellent traction, responsive handling, even wear, longer life and a quieter ride. Delivers stability and responsive grip on irregular surfaces. Heavy-duty carcass enhances sidewall strength, and wide outer tread voids and angled shoulder scallops provide better traction in mud and loose soil.

Mud Country™

The Mud Country features the latest in radial tire technology including segmented molds for uniformity, 3-ply sidewalls for puncture resistant off-road driving and excellent towing capabilities.

Deegan 38

The new DEEGAN 38 tire from Mickey Thompson, designed in cooperation with racing icon Brian Deegan, is the ultimate all purpose mud terrain tire with aggressive style, performance and great street manners, too. The Deegan 38 is the perfect choice for truck or Jeep® owners who want the ultimate combination of style, value and performance for extreme sports adventures.

NEW

Baja MTZ P3™

The Baja MTZ P3 is an incredible mud terrain tire that's been specially designed with a unique silica-reinforced tread compound for longer wear, enhanced wet weather capability, and superior cut and chip resistance. The tread also features siped tread lugs for better traction and stone ejection, and angled shoulder scallops with mud pocket scoops for better traction in mud and loose soil.

Baja STZ™

The Baja STZ offers excellent steering response, superior grip, and great all-weather traction making it the perfect choice for work, play, or sportsman applications.

Baja ATZ P3™

The Baja ATZ P3 has a unique "hybrid" design between an all-terrain and mud terrain to give you the grip you need for your weekend adventures and the smooth ride to get you down the road in comfort.

A/T Sport

The all new A/T Sport can take you wherever you want to go. Rugged dependability is balanced with quiet on-road manners.

ATTURO

TOYO TIRES®

driven to perform®

TRAIL BLADE M/T

The Atturo Trail Blade M/T is a performance mud terrain tire. The Trail Blade M/T was designed to provide a strong core with excellent traction all wrapped in aggressive style.

NEW

TRAIL BLADE X/T

The innovative, new Atturo Trail Blade X/T offers rugged performance and amazing style in a new kind of all-terrain tire for owners of lifted vehicles and modified SUVs. Atturo now offers the aggressive sidewall style of our popular Trail Blade M/T combined with a tread designed for performance on the trail as well as on the road.

OPEN COUNTRY R/T

Off-road performance meets on-road comfort with the all-new Open Country R/T. Built rugged for any terrain, this tire offers excellent off-road traction, durable construction and aggressive styling.

OPEN COUNTRY A/T

Pavement is optional with these versatile all-terrain tires. They offer over 40% more treadlife than the leading competitors, a blatantly aggressive tread design, and a quiet ride.

OPEN COUNTRY M/T

The Open Country M/T is designed for full-size pickups driven by enthusiasts who require extra ground clearance, load-carrying capacity and off-road capability with great on-road performance.

MONROE

Reflex

- Engineered for light trucks, SUVs and other vehicles with a high center of gravity
- Tuned to deliver optimum safety and control
- Provides a reduction of up to 12% in vehicle roll rate
- The Reflex Impact Sensor™ valve has the ability to sense acceleration thus improving handling, safety, and overall ride characteristics

911000 Series

Gas-Magnum

- Designed specifically for hard-working mid to full size pick-ups and vans
- The largest shock in the industry provides greater oil capacity, allowing superior heat dissipation
- Provide firm control without a harsh ride

34000 Series

Sensa-Trac

- Fluon banded piston, part of the Safe Tech™ system works with the patented groove tube technology to provide superior responsiveness to changing road conditions
- Application engineered with fully displaced valving for optimum light truck ride tuning
- Nitrogen gas charge helps to maintain tire to road contact by reducing aeration, improving ride and handling

37000 Series

NEW

SST Lift Kit
14-UP Chevy Silverado 1500 SST Lift Kit, 4WD and Z71, 4.0" F/1.75" R

- Designed exclusively for the 2014-UP GM 1500 4WD and Z71 trucks
- Includes new evolution bushings and backing spacers
- Keeps your factory ride - guaranteed
- Toughest finish - guaranteed
- Includes new heavy duty ball joints
- Allows for up to 33" tires on aftermarket wheels (33x11.50 max)
- Limited lifetime warranty
- Reduced installation time - save an hour or more on installation compared to other similar kits
- 100% Bolt-on - makes for easy installation

Part No. 693414

Big Lift Kits
14-16 Silverado/Sierra 1500 4WD - 6.5" Lift Kit

The Premium complete 6.5" front/ 4.0" rear kit is specifically designed to give you a quality lift and rugged off road strength while maintaining the factory ride on the street. The complete kit includes SST3000 Rear Shocks and features precision designed laser cut and CNC formed subframe assemblies that directly bolt in. Includes patent pending rack and pinion steering drop correction system (U.S. Pat. App. No. 14/531,073) and an integrated differential drop bracket system to insure correct CV axle angles and maximum performance in 4WD mode. Patent Pending fabricated steel strut extensions (U.S. Pat. App. No. 14/532,783) provide the Maximum 6.5" of front lift while 5.0 tall OEM-style rear blocks provide a quality 4.0" rear lift that doesn't sacrifice the ride. Total rear lift equals 4.0" of lift when installed. This kit even includes a Patent Pending steering extension to keep your steering performance like factory. Made In U.S.A.

- Part No. 443359 - With Rear Shocks
- Part No. 443355 - Without Shocks

Race Performance Guaranteed Factory Fit For Stock or Lifted Trucks and SUVs

FOX Performance Series direct replacement shocks deliver race-winning performance in a simple direct replacement bolt on shock. Each application has been rigorously tested by our engineers to maximize suspension travel and performance on and off the road. Direct replacement shocks are available in hundreds of applications from stock to lifted, as well as aftermarket kit replacements.

5160 Series Stock Location Remote Reservoir Shocks

- Designed to easily install in the stock shock mounting location on pickups and SUVs – no cutting or welding required
- BILSTEIN's industry leading monotube design provides superior heat dissipation
- Unique digressive valving system instantly produces full damping capability
- Remote reservoir dramatically increases shock oil capacity for even greater heat dissipation and damping sensitivity
- Reservoir mounting configuration designed specifically for each vehicle application – no welding required

5100 Series Ride-Height Adjustable Shocks

- Designed and manufactured specifically for lifted pickups and SUVs
- Monotube design dissipates heat more effectively than a twin tube shock for cooler, more efficient operation and longer life
- Largest available piston diameter provides superior handling and performance

6112 Series Ultimate Suspension Solution

- Large diameter bore for increased oil capacity and durability
- BILSTEIN's industry leading monotube gas pressure design
- Lighter spring rate paired with heavier 60mm damping provides an extremely compliant ride
- Features high performance springs
- Bolt-in kit features adjustable ride height and includes spring mounting hardware

5100 Series Front Height Adjustable Leveling Shocks

- Levels out the front end of pickups and SUVs with O.E. coilover suspensions
- Multiple snap-ring grooves on the shock body allow different spring seat positions providing 0" to 2.75" of front end lift, depending on application
- Utilizes the vehicle's stock front coil springs

11-15 Chevy HD 6" RTS Performance System

Utilizes a patent pending bracket system that keep the torsion bars raised up in the stock location. This feature provides superior ground clearance at the frame as there are no torsion bars hanging down to become high centered on or damaged when off-roading. Designed with unitized bracketry to retain the four front compression stops of the vehicle as GM intended. This distributes impact loads across a wide section of the frame rather than at a single point.

Level Lift Kit for 15-16 Colorado/Canyon

Pro Comp's Level Lift system is an affordable way to achieve the additional clearance needed to fit larger wheel and tire combinations on the new mid-sized GM pickups without negatively affecting the factory suspension or steering geometry. The precision engineered leveling system installs on top of the factory strut to maintain OE ride and handling characteristics. Like all Pro Comp products, this Level Lift system is backed by the Pro Comp Promise Lifetime Warranty.

Part No.	Application
63162	Strut Extension With Spacer
63162K	Strut Spacer W/ Rear Block

Part No. 63162K

Performance Accessories (PA) offers the most comprehensive line of affordable vehicle-specific lift kits on the market for 2WD and 4WD vehicles.

PA's kits include only high-quality, durable components made in our Chino Valley, Arizona facility. Every application is designed in house by our R&D team and then fitted to an actual vehicle.

Performance Accessories **Premium Lift Systems (PLS)** provide a cost-effective solution for truck and SUV owners who want to run larger tires while maintaining the smooth factory ride and preserving the factory warranty. Our PLS kits also maintain suspension geometry, turning radius, driveline angles and are compatible with electronic stability controls.

PLS kits include a vehicle-specific body lift kit, leveling kit and urethane gap guards.

Benefits:

- Installs in less than a day
- Increases ground clearance
- Preserves OEM factory warranty
- Improves on and off-road performance
- Costs a fraction of a full-suspension system
- Results in a lower center of gravity as compared to a full suspension kit with the same amount of lift

BOV Controller

BOV controller is an electronic device which controls the pressure signal to the BOV. It works by detecting a negative voltage change in throttle position. It then energises a solenoid to vent all of the air out of the BOV cap, causing a pressure differential between the piston of the BOV and the cap which will vent pressure from the intake system.

High Performance Waterless Engine Coolant

- Boiling point: above 375° Fahrenheit
- Antifreeze properties: protects below -40° Fahrenheit
- Reduces system pressure, prevents overheating, maximizes brake horsepower
- Protects for life

Part No. EC53001

Cylinder Head Studs

- Premium-grade 8740 alloy is rated far superior to "aircraft" quality
- Precisely heat treated to 200,000 psi
- Thread rolled after heat-treat, which gives much better fatigue strength

- Part No. 1304062 - Chevy/GMC 6.2L M12, Hex head
- Part No. 2504202 - 01-Up Chevy/GMC Duramax 6.6L (LB7/LLY/LBZ/LMM), 12 pt. head

NEW

High Flow E85 and Gasoline Fuel Pumps

- AEM's high flow in-tank and inline fuel pumps are designed for high performance naturally aspirated and forced induction EFI vehicles
- In-tank high flow fuel pumps flow up to 320 lph (84 gph) at 43 PSI and are capable of supporting over 1,000 HP at 43 PSI

Part No.	Description
501000	320 lph High Flow In-Tank Fuel Pump (Offset Inlet, Inline)
501200	320 lph E-85 Compatible In-Tank Fuel Pump (Offset Inlet, Inline)
501205	320 lph E-85 Compatible In-Tank Fuel Pump (Center Inlet)
501210	310 lph E-85 Compatible In-Tank Fuel Pump (Short Offset Inlet, Inline)
501215	320 lph E-85 Compatible In-Tank Fuel Pump (65mm Short Offset Inlet with Hooks, Inline)
501220	320 lph E-85 Compatible In-Tank Fuel Pump (65mm Short Offset Inlet without Hooks, Inline)

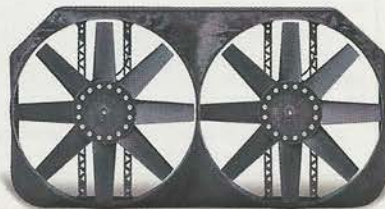

NEW

Fittings

Vibrant Performance offers a vast line of aluminum and steel fluid transfer fittings. Whether it's an oil, water, coolant or fuel application, we have one of the most comprehensive offerings of precision manufactured adapter and reusable AN fittings to address all of your project needs.

20000 Series

Primary Electric Fans Black Magic Big Truck Fan

- Gain 12 HP, 16 ft. lb. torque
- One-piece lightweight fiberglass shroud with full contact rubber seal

Part No.	Application
284	01-05 Chevy/GMC Duramax
292	00-04 Chevy/GMC with 27-1/2" radiators
282	00-04 Chevy/GMC with 34" radiators
280	92-99 Chevy /GMC with 34" radiators

Transmission Coolers

- Extends transmission and fluid life
- Improves performance and economy
- Turbulator fins maximize heat transfer
- Durable black powder-coat finish
- Plastic fin edge guards included

Part No.	Application	Size	GVW
13103	Colorado/Canyon	7.5" x 17" x .75"	18500
13104	Full Size 1500	10" x 17" x .75"	20500
13105	Full Size 2500	12.5" x 17" x .75"	22500

PARTS FOR CHEVROLET

**GUARANTEED INCREASE
IN HORSEPOWER**

HIGH-FLOW INTAKE SYSTEMS

- Huge power gains and better engine sound
- Easy to install with no cutting or drilling
- Washable and reusable air filter
- Won't void factory warranty
- 10-Year/Million Mile Limited Warranty®

SOME INTAKE SYSTEMS ARE NOT LEGAL FOR SALE OR USE ON ANY POLLUTION CONTROLLED MOTOR VEHICLE IN CALIFORNIA OR STATES ADOPTING CALIFORNIA EMISSION PROCEDURES.

See knfilters.com for CARB status on each part for a specific vehicle

1) Street Legal in 50 States 2) Not legal for sale or use on any pollution controlled motor vehicle in California or states adopting California emission procedures
*Estimated horsepower gains based on specific or similar vehicle dynamometer tests. Results will vary. For more information look up vehicle and/or testing protocols at knfilters.com.

HIGH-FLOW AIR FILTERS™

An Air Filter That Never Needs Replacing!

- Designed to increase horsepower
- Never needs to be replaced
- Easy 5 minute installation
- Up to 50,000 miles between cleanings
(Under normal highway driving conditions)
- 10-Year/Million Mile Limited Warranty®

RECHARGER® KITS

Helps Your Filter Perform Virtually Like New!

A four-step system designed to restore airflow and filtration efficiency so your K&N® air filter is ready for re-use.

NEW

Momentum GT Cold Air Intake System

- The perfect blend of power and protection
- Smooth one-piece sealed housing with auxiliary air scoop is used to eliminate the use of multiple-piece housings
- Premium stainless steel T-bolt clamps are used to securely mount the high flow air filter to the one-piece airbox
- Intake system outflowed the factory intake by 35 percent and produced 12 additional horsepower
- Designed with fewer parts for a quick and simple installation

Part No.	Application
	14-16 GM Silverado/Sierra 1500 V8-5.3L/6.2L

Throttle Bodies

- Designed to increase airflow and improve horsepower from between 7-12 HP depending on vehicle and application
- CNC-machined from high-quality 356 aluminum castings to ensure perfect OEM-quality and fit every time
- OEM die-stamped throttle linkages, double-sealed bearings, O-ring throttle shafts

Part No. 17090 - 99-02 85mm Throttle Body - GM 4.8L, 5.3L, 6.0L
Part No. 1757 - 03-06 80mm Throttle Body - GM 4.8L, 5.3L, 6.0L, and H2

More Applications Available

Performer Series Carburetors

- Bolt on and run right out of the box
- Dependable street performance delivers smooth throttle response throughout the power band
- Float levels are factory set
- Includes installation and tuning DVD
- Change jets, adjust floats and replace needles/seats without draining fuel or removing carb
- No gaskets below the fuel level for leak-free operation

Superchips

Flashpaq

NEW

Introducing the all-new Flashpaq F5 performance tuner from Superchips. With its new, easy-to-use graphic interface, high-resolution color screen, scan features, and tuning levels, the Flashpaq F5 offers more power per dollar than any other tuner on the market.

- Upgraded user interface with all new graphics
- High speed processor, vastly improving user experience
- Hardware improvements for updating and programming time
- More memory for future updates and expanded coverage
- Upgraded monitoring capabilities. Improved update software
- Equipped with Superchips industry leading performance, economy and tow tuning

Part No. 2845 - GM Diesel/Gas (Diesel 01-15 and Gas 99-15)

Part No. 4845 - GM California Edition (Gas 99-15 and Diesel 01-10)

Tech Tip

Programmers allow you access to your vehicle's computer system and to modify various settings including: Gear settings, increase tire size, fuel settings, Rev limiter, and so on. Programmers also increase horsepower, torque, and fuel economy.

EDGE PRODUCTS

NEW

EVO HT2

This next-generation product was designed with the truck performance enthusiast in mind. We've designed a variety of premium features:

- New 2.8" high-resolution, color screen
- Redesigned form factor
- Redesigned user interface with all new graphics
- High speed processor, vastly improving user experience
- Hardware upgrades to improve updating time and faster programming
- More memory for future updates and expanded coverage and much more

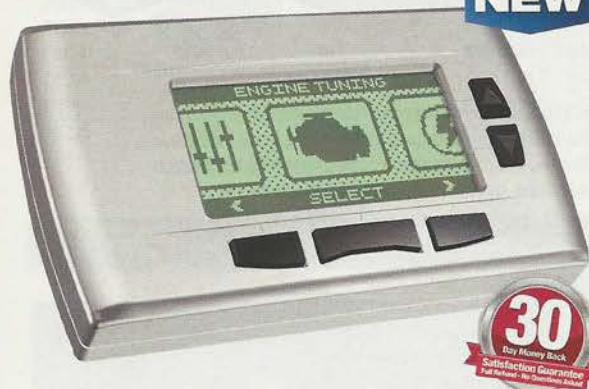

Part No. 26040 - GM Diesel 01-15 and Gas 99-15

Part No. 86040 - GM California Gas 99-15 and Diesel 01-10

HYPERTECH

The World Leader In High-Performance Engine Tuning Products

NEW

MAX ENERGY 2.0

POWER PROGRAMMER

- More power to save fuel-Hypertech users report 1-3 MPG gains
- Larger backlit LCD screen for quick/easy setup and user-friendly navigation for simple installation, tuning, and feature options
- Reprogram TPMS pressure warning for larger tires
- Top-speed limiter
- Rev limiter
- Speedometer calibrator
- 1-4 skip shift
- Automatic transmission adjustments
- Cooling fan "on/off" temperatures
- V8/V4 mode adjustments
- 0-60 MPH electronic throttle restriction

Gas and E85 vehicles get optimized power tuning for regular and premium octane with gains up to +48 Hp/+61 Tq Gas/E85 Vehicles (Depending on application).

Part No. 2000
2006-Up GM Diesel Truck
2007-Up GM Gas Truck/SUV
2006-Up GM Gas Car

Part No. 2100
Max Energy 2.0 (Emissions Certified)

DIABLOSPORT

GASOLINE AND DIESEL TUNING SYSTEMS

- All new "Easy Tune" mode for simple tune installation
- Add horsepower and torque while increasing fuel mileage
- OBD-II data logging and clear DTCs
- Adjustable vehicle parameters like tire size, speed limiters and more
- Easy updates via Wi-Fi, PC, or Mac OS X
- Massive performance boost
- Faster processor
- Upgraded touch screen display
- Allows for custom tunes that calibrate for additional bolt-on mods

Part No. I2030

INTUNE

NEW

More Applications Available

Triple Dog Gauge Tuner

The Triple Dog GT is an all-in-one downloader, monitor and tuning device. The GT Gas and GT Diesel both feature multiple power settings with the ability to adjust drivetrain and user settings. In addition, the GT line features all of the same gauge/monitoring functions as well as the advanced Driving Coach software aiding drivers in maximizing their fuel economy.

- Part No. 40410 - 50 State GT Gas
- Part No. 40417 - GT Platinum Gas¹
- Part No. 40420 - GT Platinum Diesel¹

¹ Not legal for sale or use in CA

Dash Control

Auto Meter's DashControl system is the ultimate plug and play gauge solution. This ingenious device plugs into your vehicles OBDII port and repurposes existing OEM screens to display performance information. It works right out of the box, but is totally customizable using the Dash Control configuration software. Configurable warnings can use the vehicles screens and even the door chime. Two available analog inputs allow you to monitor additional parameters not found on the vehicle's computer system.

Street Fire™ CDI Ignition

- Capacitive discharge technology for high voltage and spark energy
- Multiple sparks improve starting and idle
- Full power output at high RPM
- Easily connects to points, amplifiers and magnetic pickup distributors
- Adjustable rev limiter for over-rev protection

Part No. 5520

Street Fire™ Coil

These new coils mount directly in place of the factory coils and accept the factory connectors. Spark energy is increased thanks to improved materials and windings that were spec'd by MSD engineering.

Part No. 5526 - GM Dual Connector

Spiralcell Technology Batteries

- Delivers more power on demand
- High purity plates and large intercell connectors give Optima the lowest internal resistance of any 12-volt lead acid battery
- Provides up to 2x the life and more than 15x the vibration tolerance

- Part No. D3478 - 750 CCA-120 min (YellowTop)
- Part No. 3478 - 800 CCA-110 min (RedTop)

This just might be the last battery you ever have to buy!

Chassis Wiring Harnesses

The Painless way to wire just about any vehicle. All of our kits come ready to install. The 12 circuit kits will cover the most basic chassis wiring needs. If your vehicle will have additional electrical accessories such as power windows or door locks, you will want an 18 circuit harness. Simply mount the preterminated fuse block, route the preprinted, color coded wires. All kits come with more than enough wire and terminals to do the job.

Part No.	Description
10104	12-Circuit Universal Truck Harness/Key in dash
10204	18-Circuit Universal Truck Harness/Key in dash
10205	18-Circuit GM 2x4 and 4x4 Truck Wiring System (73-87)
10206	18-Circuit GM 2x4 and 4x4 Truck Wiring System (67-72)

Digital Power Manager

This new digital power manager protects the main battery from being discharged under heavy or sustained loads. On startup, the device will direct all charging to the main battery until it reaches full charge. It will then automatically begin charging the auxiliary battery.
