TERAFLEX SPORT S/T3

SUSPENSION SYSTEM

TeraFlex 3" Sport S/T3 Suspension System has been designed as a complete all-inclusive system and will deliver capability, performance and dependability. This kit combines the performance enhancements of the 3" lift kit, the maintenance free benefit of the Sport Flexarm, and proven progressive SpeedBump bumpstops for a complete suspension system. Install on Friday, wheel on Saturday, drive to church Sunday! The 3" Sport S/T3 Suspension System includes a 3" lift, SpeedBump bumpstops, front trackbar, and 6 sport flexarms. Pair this kit with TeraFlex tuned Fox 2.0 reservoir shocks for maximum performance.

TERAFLEX SPORT S/T4

LONG ARM SUSPENSION SYSTEM

The 4" Sport long arm suspension system continues where the 3" Sport Kit left off. It delivers long arm performance in the same maintenance free design. The 4" Sport long arm suspension system includes a 4" lift kit, front trackbar, rear trackbar, and all 8 sport long flexarms, limit straps and all required hardware. Pair this kit with TeraFlex tuned Fox 2.0 reservoir shocks for maximum performance.

07-15 Jeep® JK Wrangler 2/4 Door* 2.5" Performance Budget Boost

The budget boost is designed for JK owners who wish to lift their vehicle without any additional modifications. Will increase ground clearance and create room for larger tires. Our exclusive spring retention spacers that do not allow the spring to drop out during extreme articulation. Allows up to a 35" tire (aftermarket wheels with 4.5" backspacing or less are required).

- Part No. 1255200 - 2dr - JK 2.5" Budget Boost with 9550 Shocks
- Part No. 1355210 - JK 2.5" Budget Boost with Shock Extension - No Shocks
- Part No. 1355200 - JK 2.5" Budget Boost - No Shocks

07-15 Jeep® JK Wrangler 2/4 Door* 2.5" Suspension System

An ultra simple performance oriented lift kit, and includes a heavy duty axle mounted trackbar bracket. The basic lift includes all of the essential items needed (some form of shock modification will be required- either adapters or new longer shocks). Allows up to a 35" tire (aftermarket wheels with 4.5" backspacing or less are required).

Part No.	Application
1251002	2dr Kit with 9550 Shocks
1352002	2dr Kit with Shock Extensions - No Shocks
1351002	2dr Kit with No Shocks

1351000	4dr Kit with No Shocks

07-15 Jeep® JK Wrangler 2/4 Door** JK 1.5" Spring Leveling Kit

Linear coil springs maintain highway handling characteristics and allow for increased off-road handling and articulation. Kit includes a 2" lift front spring, and a 1" lift rear spring with longer front swaybar links.

- Part No. 1351502 - JK 2dr 1.5" Spring
- Part No. 1351500 - JK 4dr 1.5" Spring

JK Front Forged Adjustable Trackbar Kit

This massive heavy duty forged front adjustable trackbar is designed as the ultimate in front end strength to eliminate any front end shimmy or handling issues. This Monster trackbar is 230% stronger than the factory trackbar. A complete bolt on component. Fits all vehicles stock to 6+" of lift.
Part No. 1753418

07-15 Jeep® JK Wrangler 2/4 Door** JK 1.5" Leveling Kit

Kit includes a 2" front spacer, and a 1" rear spacer with longer front swaybar links. Fits all JK Wranglers including Rubicon and Unlimited.
Part No. 1155200 - JK 1.5" Leveling Kit

* Note: Driveline modifications are required on all JK Wranglers and Unlimiteds with this suspension system. 2012+ JKs require exhaust spacers (Part No. 2610000) or other exhaust modification for proper driveline clearance. **This kit does not include extended bumpstops. If larger tires are used some rubbing will occur during suspension compression.

Max-Flex 4.0" - 4.5" Off-Road Suspension System 07-16 Jeep® JK Wrangler 2/4 Door

The heart of the system is the development of beefy 1-3/4" - 5/16" DOM tube steel front and rear control arms which have been teamed with the absolute best and strongest flex joints on the market - the Currie Original Johnny Joint®. No other joint on the market can compare when it comes to getting Maximum Articulation. The 4.5" of front lift and 3.5" of rear lift is achieved with ReadyLIFT® progressive wound Off Road coil springs. This lift includes heavy duty extended length front and rear sway bar end links that do not compromise on road handling nor maximum flexing qualities. Includes new heavy duty front track bar with Johnny Joints®.

- Bolt on installation - no modifications required
- Tough silver and black powdercoated finish
- Includes Original Currie Johnny Joints® - fully servicable with a tough zinc plated finish
- 4 Door - 4.0" Front lift - 3.0" Rear lift - progressive wound coil springs
- 2 Door - 4.5" Front lift - 3.5" Rear lift - progressive wound coil springs
- Provides maximum articulation - no binding or limitations even in the most extreme flexing situations
- 1-3/4"-5/16" Heavy duty dom tube steel control arms
- Includes 3/16" plate steel rear track bar bracket to correct roll center and bushing alignment.
- Fits 2dr and 4dr Wranglers including Unlimited and Rubicon
- Allows for up to 38" tires with 4.5" Backspacing wheels or less when using flat fenders

Recommend ReadyLIFT® 776002 / 776003 Heavy Duty Off Road Track Bars - Includes Johnny Joints® (bars sold separately)

- Part No. 496407** - 4dr - 4.0" JK MAXFLEX, 8-Arm Kit, Without Shocks
- Part No. 496411** - 4dr - 4.0" JK MAXFLEX, With HD Track Bar, 8-Arm Kit

- Part No. 496406** - 2dr - 4.5" JK MAXFLEX, 8-Arm Kit, Without Shocks
- Part No. 496410** - 2dr - 4.5" JK MAXFLEX, With HD Track Bar, 8-Arm Kit
- Part No. 496432** - 2dr - 4.5" JK MAXFLEX, With HD Track Bar, 8-Arm Kit, SST3000 Shocks

Super Flex 4.0" - 4.5" 8-Arm Off-Road Suspension System 07-16 Jeep® JK Wrangler 2/4 Door

- Includes new heavy duty front track bar with Johnny Joints®
- Bolt on installation - no modifications required
- Includes original Currie Johnny Joints® - fully servicable with a tough zinc plated finish
- Includes new patent pending TCT - Terrain Control Technology Flex Joints
- Provides maximum articulation - no binding or limitations even in the most extreme flexing situations
- Allows for up to 38" Tires with 4.5" backspacing wheels or less when using flat fenders.

- Part No. 496611** - 4dr - 4.0" JK Super Flex, With HD Track Bar, 8-Arm Kit
- Part No. 496633** - 4dr - 4.0" JK Super Flex, With HD Track Bar, 8-Arm Kit - SST3000 Shocks
- Part No. 496610** - 2dr - 4.5" JK Super Flex, With HD Track Bar, 8-Arm Kit
- Part No. 496632** - 2dr - 4.5" JK Super Flex, With HD Track Bar, 8-Arm Kit - SST3000 Shocks

Advanced Jeep® JK Track Bar Kits

Our standard front and rear track bars are a substantial improvement over the OEM track bars and provide the much needed adjustability to work with lift kits. Our Heavy-Duty line of track bars are a beefed up version of our stock track bars. The 776002/776003 HD track bars feature 1.375" DOM tube steel construction, welded thread bungs and our Original Currie Johnny Joints® to provide maximum durability and off road performance even under the most extreme conditions. All of the ReadyLIFT® Track Bars are fully adjustable.

Part No. 676438

- Part No. 776000** - 07-16 Jeep® JK Wrangler - budget rear track bar
- Part No. 776001** - 07-16 Jeep® JK Wrangler - budget front track bar
- Part No. 776002** - 07-16 Jeep® JK Wrangler - heavy duty front track bar
- Part No. 776003** - 07-16 Jeep® JK Wrangler - heavy duty rear track bar
- Part No. 676438** - 07-16 Jeep® JK Wrangler - rear track bar bracket

Front High Steer Kit 07-15 Jeep® JK Wrangler

Brings your lifted Jeep® JK steering geometry back into factory alignment while improving steering precision and handling. This system corrects the roll center height of the front suspension. Reduces body roll, bump steer and roll steer. For use on 3.0" - 4.0" of lift

Part No. 776800

4.0" SST® Lift Kit System 07-16 Jeep® JK Wrangler

The ReadyLIFT® 696400 offers (4) Progressive Wound Coils to ensure unsurpassed On-Road mannersisms as well as increased Off-Road capability. This Kit includes (4) Replacement front and rear sway bar end links, rear track bar relocation bracket, new bump stops and bump stop pads to ensure the correct articulation of your suspension. The ReadyLIFT® 696400 kit includes shock extensions front and rear to accommodate your factory shocks and ensure the factory ride of the vehicle as the factory designed.

3.0" SST® Lift Kit System 07-16 Jeep® JK Wrangler

The ReadyLIFT 696000 SST Lift Kit will raise the 07-15 Jeep® JK Wrangler 3.0" in front and 2.0" in the rear. This kit retains the OEM springs and shocks while providing our popular coil spring spacer technology into this comprehensive package that will allow for up to 35" tall off road tires. The 696000 kit also includes a track bar relocation bracket, shock extensions, bump stop extensions, alignment cam bolts and all necessary hardware.

Part No. 696000 – 07-15 Jeep® JK Wrangler - SST Lift Kit

The ReadyLIFT® 4.0" SST® Lift Kit lifts your Jeep® JK Wrangler 4.0" in front and 3.0" in the rear for a lifted and level stance suitable for installation of 35" tall off road tires. With the use of "flat fenders" you can install 37" tall tires. This kit allows you to confidently take your Jeep® anywhere you want, on or off road, without sacrificing a quality ride or handling characteristics. The increased ground clearance provides many more off road opportunities than with a stock suspension along with the ability to install larger wheels and tires for the truly great lifted off road appearance!

Recommend using ReadyLIFT 776000 and 776000 front and rear track bars.

Part No. 696400 - 07-15 Jeep® JK Wrangler - SST Lift Kit

Max-Flex Short Arm Suspension System 07-16 Jeep® JK Wrangler 2/4 Door

- Tough silver and black powder coated finish
- Provides maximum articulation - no binding or limitations even in the most extreme flexing situations
- Fits 2 door and 4 door wranglers including Unlimited and Rubicon
- Includes original Currie Johnny Joints® - fully serviceable with a tough zinc plated finish
- Bolt on installation - no modifications required

09-16 Jeep® JK 3" Trail System

- Front and rear coil springs for superior ride and damping
- Four adjustable lower link arms for dialing in caster and driveline angle
- Links are built of 1/4" thick wall steel for maximum dent resistance with rotational joints for suspension flexibility
- Front replacement trac bar bracket eliminates the weak factory unit and recenters axle under vehicle
- Dropped pitman arm reduces bump steer with new the trac bar angle
- Front and rear bump stop spacers utilizes the factory closed cell bump stops for a cushioned impact
- Rear trac bar bracket keeps rear axle in line with front for better on road driving
- Front and rear extended sway bar links for new ride height
- Four fabtech performance shocks designed for maximum travel
- Allows use of 35" tall tires on 5" backspace wheels

Part No. KAOJKLIFT4 - 09-14 JK 4 door

12-16 Jeep® JK 5" Crawler System with Performance Shocks

For JK owners that require the ultimate in off-road performance Fabtech offers a 5" Crawler system that will allow use of 37" tall tires for aggressive offroad use. The front system features a conversion from the factory 4 link arms to our proven Radius Arm design. The adjustable Radius Arm links are constructed of 5/16" thick steel for maximum dent resistance with rotational urethane joints at each end for unrestricted articulation. These new Radius Arms mount to a 1/4" thick steel crossmember that bolts to the frame under the transmission. The front steering geometry is relocated via a dropped pitman arm. A Trac Bar relocation bracket keeps the arc of travel between the Trac Bar and Drag Link proper to reduce bump steer throughout the suspension travel. Lift is accomplished with replacement coil springs or a Coilover Conversion system with Dirt Logic 2.5 Coilovers for maximum performance both on and offroad. The rear system retains the factory 5 Link design but with extended length lower tubular arms that bolt to new side frame brackets. Installation of these frame brackets does not require the removal of the gas tank or welding. The upper links are replaced as well with a tubular style in the factory mounts. Both upper and lower links feature 5/16" thick wall links with adjustable rotational urethane ends. The rear Trac Bar is properly relocated to keep the rear axle tracking with the front axle for superior road handling at high speed.

Exhaust modification required on 2012 and newer models, or order FTS94060 Loop Delete Pipe.

Use 37/12.50R17 tires with 17x8.5 wheels
with 5" BS with minor trimming

07-16 Jeep® JK 5" Short Arm System with Performance Shocks

Utilizing the factory link arm mounts Fabtech offers a 5" Short Arm system that features heavy wall 5/16" thick links with rotational urethane ends for unrestricted movement. These heavy-duty links feature adjustable ends to dial in caster and pinion angles. Lift is accomplished with replacement coil springs that have a slightly higher spring rate over factory while retaining flexibility for off-road use. Fabtech offers heavy duty replacement driveshafts to be used with this system for maximum driveline reliability. Extended length bump stop brackets, sway bar links and brake line brackets finish off this excellent performing system.

Exhaust modification required on 2012 and newer models, or order FTS94060 Loop Delete Pipe.

07-16 Jeep® JK 3" Budget Systems

Includes four american made coil springs that have been designed to clear 35" tall tires. The coil springs are specific to 2 or 4 door models and undergo a "preset" manufacturing process to insure a consistent ride height. System also includes front and rear shocks, front sway bar links, front bump stops, rear bump stop extensions, rear trac bar bracket, rear brake hose extension bracket, emergency brake cable brackets all in one box. This system will increase offroad capabilities and provide a good highway ride.

97-06 Jeep® Wrangler TJ

6" Long Arm with Front and Rear Coil Springs and Performance Shocks

Our TJ Long Arm systems redefines what a heavy-duty articulating Jeep® system should be. We have eliminated using the stock link pockets all together so that the upper and lower link can function on the same equal plane. Combine this equal plane geometry with extended length link arms and our rotational urethane pivot joints and you have a TJ system that will climb, crawl and walk over just about anything you put in front of it.

Use 35/12.50R15 tires with 15x8 wheels with 3-3/4" BS with minor trimming

Technically Superior Jeep® Suspension Systems

- Fully bolt-on
- Baja race proven
- Innovative designs
- True hardcore performance
- Improved ride quality and articulation

Kits that are equipped with our Silent Ride System run absolutely NOISE FREE. They use velvet smooth torsion natural rubber that NEVER require any kind of lubrication. SRS equipped kits also feature Hi-End cromoly/kevlar lined Heim Joints that allow massive amounts of articulation movement that also never require any kind of lubrication service. What you get is the only system that is truly and completely maintenance free.

SKYJACKER® SUSPENSIONS

07-16 Jeep® Wrangler JK 2 Door 2"- 2.5" Softride Coil Spring Lift

Softride® coils are engineered to provide the feel of the original ride quality. These Softride® off-road able coils are the ideal choice where OEM ride quality and long lasting comfort is your peak concern. All Made in the USA Skyjacker coils are constructed using hot wound 5160 material and shot peened for tensile strength, then preset solid to allow full coil bind eliminating sagging. Kit includes: front and rear Softride coil springs, rear track bar bracket, front bump stop spacers, rear bump stop brackets, front and rear shocks.

- Part No. JK350BPHSR - With Hydro 7000 Shocks
- Part No. JK350BPMSR - With M95 Monotube Shocks
- Part No. JK350BPNSR - With Nitro 8000 Shocks

07-16 Jeep Wrangler JK 4 Door 2"- 2.5" Softride Coil Spring Lift

Kit includes front and rear Softride coil springs, rear track bar bracket, rear track bar brace, front bump stop spacers, rear bump stop brackets, front and rear shocks.

- Part No. JK25BPHSR - With Hydro 7000 Shocks
- Part No. JK2500BPMSR - With M95 Monotube Shocks
- Part No. JK25BPNSR - With Nitro 8000 Shocks

Also Available in Rock Ready®

Rock Ready® coils are designed to handle the demanding needs of off-road performance while still providing comfort during daily driving. Rock Ready® coils make a great choice when additional weight of trail gear and accessories put your rig to the test.

07-16 Jeep Wrangler JK 2 Door 3.5" Softride Coil Spring Lift

Kit includes front and rear Softride coil springs, front and rear track bar bracket, front and rear track bar brace, front and rear cam bolts, front bump stop spacers, rear bump stop brackets, rear sway bar end links, rear brakeline brackets, front and rear shocks.

- Part No. JK350BPHSR - With Hydro 7000 Shocks
- Part No. JK350BPMSR - With M95 Monotube Shocks
- Part No. JK350BPNSR - With Nitro 8000 Shocks

07-16 Jeep Wrangler JK 4 Door 4" Softride Coil Spring Lift

Kit includes front and rear Softride coil springs, front and rear track bar bracket, front and rear track bar brace, front and rear cam bolts, front bump stop spacers, rear bump stop brackets, rear sway bar end links, rear brakeline brackets, front and rear shocks.

- Part No. JK40BPHSR - With Hydro 7000 Shocks
- Part No. JK400BPMSR - With M95 Monotube Shocks
- Part No. JK40BPNSR - With Nitro 8000 Shocks

4" Lift

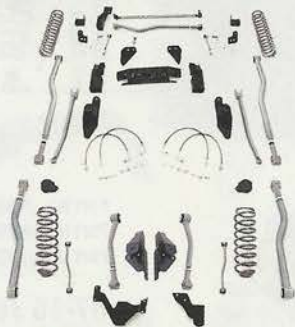

Features:

- Adjustable control arms with serviceable Super-Flex spherical ball joints
- No welding
- Designed for on- and off-road performance
- Includes tuned lift springs, stainless steel brakelines and MUCH more
- Front and rear CV drive shafts available
- 4.5" and 5.5" systems include chromoly draglink flip with 1-ton tie rods

**07-16 JK Wrangler
Extreme-Duty 4-Link Long Arm Suspension**

Features adjustable chromoly lower control arms that will stand up to anything you can drive over. With PT-MEG Super-Ride bushings and Super-Flex joints they are sure to provide superior handling while not limiting articulation. The kit's FULL WIDTH heavy-duty transmission crossmember allows for more durability and frame rigidity than the competition. This also allows for installation that is much easier than competitor's kits eliminating the need for welding. An optional robust belly pan, and CNC machine steering knuckle provide outstanding upgrades. Driveline modifications will be required. 12-14 vehicles with 3.6L V6 will require exhaust modification RE4531.

Part No. RE7125T - JK 2DR 3.5" with Twin Tube Shock

NEW

Hydraulic Bump Stops

Hydraulic "air bumps" provide a huge increase in off-road performance by providing a smooth transition at full compression when compared to a harsh factory rubber bump stop. The problem is that air bumps require custom fabrication for installation... until now. Rubicon Express has designed a bolt-on kit to add their 2.0-inch hydraulic bump stops to two door JK and four door JK Unlimited Jeep Wranglers.

Part No. RE1382 Front

Part No. RE1384 Rear

Brake Lines

Our brake lines are as good as it gets and we build them to last. Features a strong woven stainless steel outer shell that protects the rubber and Kevlar housing that encases the Teflon inner hose. Built to DOT specifications.

JK Wrangler High Steer Kit

This kit brings your steering angles back into factory specs on 3.5"-5.5" lifted JK Wranglers. Included is a HD drag link made from solid bar for maximum strength and utilizes an OE tie rod end for simple replacement should the end become worn out. The axle mounted track bar bracket accepts and allows for adjustment with the OE track bar while also relocating steering stabilizer above the drag link.

Part No. RE2621 - 3.5" or more lift

Features:

- Chromoly Long Arms
- NEW PT-MEG Super-Ride bushings
- Designed for on and off-road performance
- Adjustable control arms with serviceable Super-Flex spherical ball joints
- Includes tuned lift springs, stainless steel brake lines, three-piece belly pan
- SYE and rear CV drive shafts available
- Specifically valved Mono-tube shocks should be used with this kit for maximum performance
- Rear Tri-Link option available

07-15 Jeep® JK Wrangler 2/4 Door

4" Crawler Long Arm Suspension System

Part No. RS66105/B

- Front and rear coil springs
- Extended length front and rear sway bar end link
- Upgraded front and rear bump stop spacers
- Front and rear extended length brake lines
- High-articulation front and rear long arm design
- Heavy-duty tubular-style front radius arm design
- Will not affect the Electronic Stability Control System
- Compatible with both 2WD and 4WD

**No exhaust modifications required for 07-11
Brackets are high-strength, low-alloy steel*

4" Sport Suspension System Part No. RS66102B

- Front and rear coil springs
- 100-percent bolt-on system
- Front adjustable track bar included
- Brackets are high-strength, low-alloy steel
- Compatible with both 2WD and 4WD

*Available in black finish only.
Cross over exhaust pipe RS720003 required for 2014-12 JK.*

4" Trail Suspension System Part No. RS66103/B

- Front and rear coil springs
- 100-percent bolt-on system
- High-articulation front & rear lower short arm design
- Brackets are high-strength, low-alloy steel
- Compatible with both 2WD and 4WD

*Available in black or red finish
Cross over exhaust pipe RS720003 required for 2014-12 JK.*

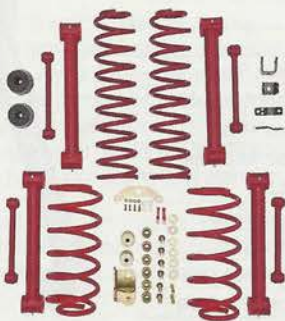

97-06 Jeep® TJ/LJ

3.5" Short Arm Suspension System Part No. RS6504

- New forged pitman arm
- High-articulation 2" O.D. x 3/16" I.D. control arms designed for increased approach angles with a patented bushing system
- Front adjustable track bar
- Rear track bar relocation bracket
- Front and rear heavy duty springs
- No exhaust modifications required
- Industry leading front sway bar disconnect design
- Transfer case shifter relocation bracket and drop down spacers to allow use of factory drive shafts
- New brake lines for increased articulation

Available in red finish only. This suspension system was developed using a 33x12.5xR15 tire on a 15x9" wheel with 3.8" B.S.

3.5" Sport Suspension System Part No. RS6501

- No exhaust modifications required
- Track bar relocation bracket rear
- New lower links
- Front and rear heavy duty springs
- Transfer case shifter relocation brackets and drop down spacers to allow use of factory driveshafts

Available in red finish only. This suspension system was developed using a 33x12.5xR15 tire on a 15x9" wheel with 3.8" B.S.

See Rancho's line of RockGEAR
body protection on page 50

3-3.5" Progressive Sport Suspension System

Part No. RS66110B

- Front and rear progressive rate coil springs
- 100-percent bolt-on system
- Front adjustable track bar included
- Brackets are high-strength, low-alloy steel
- Compatible with both 2WD and 4WD
- Limited Lifetime Warranty

*Available in black finish only.
Cross over exhaust pipe RS720003 required for 12-15 JK.*

3" Trail Suspension System Part No. RS66107/B

- Front and rear coil springs
- 100-percent bolt-on system
- Adjustable front and rear upper short arm design
- Brackets are high-strength, low-alloy steel
- Compatible with both 2WD and 4WD

*Available in black or red finish
Cross over exhaust pipe RS720003 required for 12-15 JK.*

4" Crawler Short Arm Suspension System Part No. RS66104/B

- High-articulation front and rear lower short arm design
- Adjustable front and rear upper short arm design
- Front and rear coil springs
- Brackets are high-strength, low-alloy steel
- Compatible with both 2WD and 4WD

*Available in black or red finish.
Cross over exhaust pipe RS720003 required for 12-15 JK.*

3" Sport Suspension System Part No. RS66106B

- Front and rear coil springs
- 100-percent bolt-on system
- Front adjustable track bar included
- Brackets are high-strength, low-alloy steel
- Compatible with both 2WD and 4WD

*Available in black finish only.
Cross over exhaust pipe RS720003 required for 12-15 JK.*

Cross Over Exhaust Pipe Kit Part No. RS720003

- Clearance is optimized for 2014-12 Jeep® Wranglers with 2 - 5" lift height
- Mandrel-bent 409 stainless steel tubing

*Trimming or modification may be required to provide proper tire clearance.
Shocks sold separately (RS9000XL™, RS7000MT™ or RS5000™)*

Tech^{Tip}

After installing a lift kit on your Jeep®, it is a good idea to upgrade your factory steering stabilizer to something a little more heavy duty. Even though it is not necessary, it will help dampen the harshness of the road while running larger tires.

2.5" Short Arm Suspension System Part No. RS6503 (not shown)

- No exhaust modifications required
- Rear track bar relocation bracket
- New lower links
- Front and rear coil springs
- Transfer case shifter relocation brackets and drop down spacers to allow use of factory drive-shafts

Available in red finish only. This suspension system was developed using a 33x12.5xR15 tire on a 15x9" wheel with 3.8" B.S.

JSPEC™ Suspension Systems

JSPEC™ Suspension by JKS products deliver American Ingenuity and Workmanship to consumers without compromising performance or dependability. JSPEC™ Suspension by JKS are comprised of JKS Manufacturing components, the best and most trusted Jeep® accessories in the industry.

B1 Body Lift 1.25" Lift

An economical solution to tire clearance problems, without affecting center of gravity, spring rate or steering geometry like suspension modifications. Are specifically designed to work in conjunction with the OE body mounts. Provide 1.25" of additional tire clearance, without exceeding the safe working parameters for severe off-road use. No modifications are required to the fuel tank, air conditioning, radiator, or brakes. Premium Dura-Thane™ poly material with a hardness of 94 durometer.

Quicker Disconnects™

Temporarily disconnect your front swaybar for 30% more axle articulation. Adjustable design enables you to fine-tune the length to accommodate variations in lift height or unlevelled vehicles. Convenient grease zerk fittings make lubrication easy. Satin black powder coat finish.

Part No.	Application
2030	07-15 Wrangler JK, 0-2.0" Lift
2034	07-15 Wrangler JK, 2.5-6.0" Lift
2000	97-06 Wrangler TJ, 0-2.0" Lift
2001	97-06 Wrangler TJ, 2.5-6.0" Lift
4100	76-95 CJ and Wrangler YJ, Any Lift (Welding Required)

Adjustable Track Bars

Variable length design allows you to precisely center the axle housing beneath the vehicle – a necessary adjustment whenever ride height is changed. Made from ultra-strong DOM steel tubing and shaped for correct geometry and clearance. Satin black powder coat and zinc plated.

Part No.	Application
0GS121	07-15 Wrangler JK, Front, 1.0-6.0" Lift
0GS159	07-15 Wrangler JK, Rear, 0-6.0" Lift
0GS125	97-06 Wrangler TJ, Front, 4.0" Lift or Greater
0GS126	97-06 Wrangler TJ, Front, 1.0-3.5" Lift
0GS128	97-06 Wrangler TJ, Front HD, 2.5" Lift or Greater
0GS151	97-06 Wrangler TJ, Rear, 0-6.0" Lift
0GS151B	97-06 Wrangler TJ, Rear, 3.0" Lift or Greater (Requires CV Driveshaft)

Sector Shaft Reinforcement Kit

Prevent steering box failures on your JK Wrangler by stabilizing and supporting the output shaft with this multi-function reinforcement kit. At the same time you will be strengthening the front track bar bracket and connecting the left and right chassis rails for increased load capacity and a dramatic improvement in steering responsiveness.

Part No. **0GS166** - 07-15 Wrangler JK, front (welding required)

Part No.	Application
108K	3.5" J Kontrol Suspension System, 07-15, Wrangler JK 4DR

9903	87-95 Wrangler YJ
9902	76-86 CJ5 and CJ7
9901	78-82 CJ8

*Compatible with TJ Rubicon and Unlimited models.

Adjustable Control Arms

Heaviest duty on the market today! Over 3" of adjustment allows you to control pinion angles and position the axle housing for proper tire clearance. OE bushings reduce noise and vibration for a quiet, comfortable ride. Satin black powder coat and zinc plated. Sold in pairs.

Part No.	Application
6155	07-15 Wrangler JK, Rear Lower Arms
7150	07-15 Wrangler JK, Front Upper Arms
6100	97-06 Wrangler TJ, Front or Rear Lower Arms
7100	97-06 Wrangler TJ, Front Upper Arms
7101	97-06 Wrangler TJ, Rear Upper Arms

Track Bar Brackets and Bracing

Heavy duty axle braces transform the weak factory track bar mounts on JK models into fully reinforced mounting points that will withstand any amount of punishment. If your rear factory axle bracket has already failed, the OE replacement bracket will provide a much stronger mounting point. Choose a bolt-on relocation bracket to correct rear track bar geometry on CV driveshaft applications.

Part No.	Application
0GS161	07-15 Wrangler JK, Front Axle Brace (Weld-On)
0GS169	07-15 Wrangler JK, Rear Axle Brace (Weld-On)
0GS168	07-15 Wrangler JK, Rear OE Replace. Bracket (Weld-On)
0GS170	07-15 Wrangler JK, Rear Relocation Bracket
0GS160	97-06 Wrangler TJ, Rear Relocation Bracket

Adjustable Coil Spacers

Add adjustable ride height to your lift! The ACOS™ system enables you to fine-tune your suspension to compensate for the added weight of bumpers and winches, sagging springs, tire size changes, or to level your Jeep® from side-to-side or front-to-back. ACOS Pro™ includes built-in hydraulic bump shock to absorb heavy suspension impacts off-road. Instantly increases ride height a minimum of 1.0" upon installation. Sold in pairs.

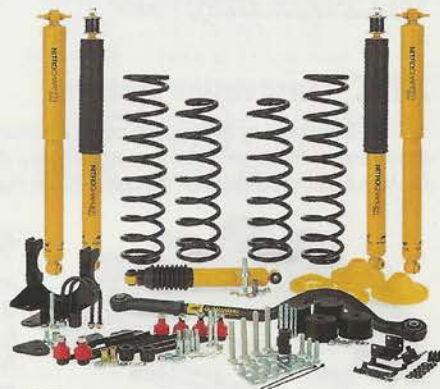

Part No.	Application
2210	07-15 Wrangler JK, Front
2570	07-15 Wrangler JK, Rear
2710	07-15 Wrangler JK, Front, Incl. Bump Shock

Combining performance accessories' body lift, leveling kit, and gap guards, premium lift systems are the most economical way to raise your vehicle between 3-4". Premium Lift Systems deliver the most lift for the money of any lift solution available today.

Jeep® Premium Lift Systems 11-15 Jeep® Wrangler Body Lift and Leveling All-In-One!

- Levels vehicle stance
- Body lift components include reinforced nylon body blocks
- Polyurethane intermediate spring spacers provide optimum spring preload
- Aluminum upper mounting spacers insure proper fit and function
- Includes all required mounting hardware and detailed installation instructions

Part No.	Lift	Application
PLS993	3"	12-16 Jeep® Wrangler/Unlimited 2/4Dr
PLS994	4"	12-16 Jeep® Wrangler Auto Only 2 and 4WD
PLS990	4"	07-11 Jeep® Wrangler JK, 2/4Dr, Auto Transmission
PLS992	3"	07-11 Jeep® Wrangler/Unlimited Body Lift 2 and 4WD

Tech Tip

By using a Premium Lift System, you get a Body Lift and a Leveling Kit all in one box. You can fit the tires you want while keeping the smoothness of your factory ride without changing your shocks and springs.

Jeep® Body Lifts

- Highest quality materials available
- Reinforced nylon blocks have a compression rate of more than 50,000 PSI
- All hardware is zinc plated for corrosion resistance

² Does not fit models equipped with automatic transmission
¹⁴ Will not fit vehicle equipped with diesel engine
¹⁹ Installation on vehicles with air conditioning will require modification to the radiator mounting flange
²⁴ Gap guards available and sold separately for this application
²⁶ No bumper brackets are included in this kit
²⁹ Or-Fab Jeep® products also available

Jeep® Gap Guards

Hides the visible gap between the body and frame once a Body-Lift has been installed

- Install easily
- Made in the U.S.A.
- Provides a finished, OE appearance to the vehicle once it's been lifted.
- Prevents excessive mud, moisture and dirt from entering into the engine compartment
- Made from high-quality molds individually designed for each vehicle application

Tech Tip

When installing your body lift kit, remember to order a set of custom-fit urethane Gap Guards to hide the gap between frame and body and keep the engine compartment clean.

Comfort Ride Lift

Daystar's Comfort Ride suspension systems are truly driven by design. Kits are custom designed to work with stock suspension components to keep cost down and quality high. High-density progressive polyurethane strut and spring spacers act as an isolator to combine moderate amounts of lift without losing the comfortable ride you have come to expect. Almost all the lifts and leveling kits used on strut applications feature easy-install design, and no disassembly of the strut is required.

- Top-mount easy-install design
- No metal-on-metal contact
- Maintains factory ride quality
- Long-lasting finish
- Limited lifetime warranty

Lifted Height

1.5" Comfort Ride Lift Kit for 15-16 Jeep® Renegade

The Comfort Ride kit is 100% bolt on, easy to install, and FMVSS 126 Compliant. Daystar's top load strut stud extender mounts and coil spring spacers allow you to install the leveling kit without having to disassemble the strut assembly. The kit fits all Renegade models including 2WD and 4WD Sport, Latitude, Limited and Trailhawk models.

- Fit up to two sizes of larger tires mounted on stock wheels
- Lifetime Go Everywhere Warranty

Part No. KJ09168BK

Budget Boost, Body Lifts and Leveling Kits

Daystar kits offer an improved ride, more ground clearance, and the ability to run larger tires and wheels, while reducing noise, vibration, and harmonics (NVH).

- Made in the USA
- Go Everywhere Warranty
- Easy install Design
- No metal on metal contact
- No welding required

TUFF COUNTRY

EZ-RIDE SUSPENSION

4" Lift System

07-15 Jeep® Wrangler

Tuff Country's Jeep® Wrangler JK 4" lift kits are available in 3 different configuration depending on the vehicle owner's needs. The most extreme being the "EZ-Flex Performance" JK lift kit. Designed for the serious off-roader. This high performance off road suspension system includes upper and lower EZ-Flex control arms in the front and rear of vehicle along with an adjustable front track bar.

- EZ-Ride Coil Springs for a great ride
- Simple bolt-on installation
- Front and Rear EZ-Flex lower control arms (Performance kit includes upper and lower)
- Limited lifetime warranty

3" Lift Kit

07-15 Jeep® Wrangler

This affordable and easy to install suspension lift kit is a great option for those that do occasional off-roading and want some additional height to clear larger tires. Included are front and rear EZ-Rid coil springs, a rear track bar bracket and front sway bar end links.

- Rear track bar
- EZ-Ride Coil Springs for a great ride
- Simple bolt-on installation
- Limited lifetime warranty

3.5" Lift Kits

87-01 Cherokee XJ (with rear blocks)

Tuff Country EZ-Ride Suspension's 3.5" lift kits for the Jeep® Cherokee XJ allow for use of up to 31" tires and gives additional fender clearance. This kit is offered with standard extended lower control arms or with EZ-Flex control arms which allow for better articulation when off-roading. Both lift kits also include EZ-Ride front coil springs, a track bar relocating bracket, transfer case drop kit and rear lift blocks and extended bolts.

2" Lift Kits

07-15 Jeep® Wrangler

Tuff Country EZ-Ride Suspension's 2" Jeep® Wrangler JK lift kits allow for slightly larger tires and give additional fender clearance. These easy to install kits are constructed of durable polyurethane and mount above the factory coil springs.

- Constructed of durable polyurethane
- Maintains a factory or near factory ride
- Simple bolt-on installation
- Limited lifetime warranty

4" Lift Kits

97-02 Jeep® TJ (EZ-Ride)

Tuff Country EZ-Ride Suspension's 4" EZ-Ride lift kits for the Jeep® Wrangler TJ allow for use of up to 33" tires and gives additional fender clearance. This lift kit includes EZ-Ride front and rear coil springs for a great ride. Also included are front and rear lower control arms (with poly bushings), front and rear track bar relocation brackets, transfer case drop kit and all required hardware.

(6) Recommended to replace the front and rear stock drive shafts with extended drive shafts. Front Part No. 40800, Rear Part No. 40801.

(8) Will fit Rubicon models

(5) Requires new rims with 4.5" backspacing or less

Due to variations in stock rear block height 1.5" add-a-leafs are recommended for vehicles with 2" rear stock blocks, 2.5" and 3" leveling kit are recommended for vehicles with 3.5" rear stock blocks

Pitman Arm

Part No. 70401 - Jeep® YJ and TJ Wrangler 1987-2006

Off-Road Lift Stabilizer Bars

- Unique style of mounting allows for maximum droop and compression
- Provides optimum ride quality and control without sacrificing suspension travel
- Adjustable front and rear sway bars offers fine-tuning to the driver's needs
- Improved ground clearance
- Adjustable quick disconnect end links included in front kits

SumoSprings

07-15 Jeep® Wrangler

- Compress up to 80% of their original height with full memory rebound
- Provide progressive load control, easier initial compress allowing softer engagement, greater resistance with heavier load, restrict body roll and enhance overall driver control
- More than just a bump stop, this variable rate spring eliminates the unforgiving, banging effect produced by similar frame-mounted products
- Manufactured from proprietary closed microcellular urethane
- Airless, never leak and cause a loss of performance and rupture proof
- 100% maintenance free

Part No.	Application

SSF40154	Front Heavy Duty Loading
SSF40254*	Front; Unlifted
SSF40354*	Front; With 2" Lift
SSF40454*	Front; With 4" Lift

**For Off-Road and Race Use Only*

Suspension Enhancement System

07-15 JK and 97-06 TJ

- Eliminate suspension sag and cushion road shock
- Reduce sway and improve roll stability
- Professional installation required
- Improves roll control
- Trouble and maintenance free
- Satisfaction guarantee and lifetime warranty

Part No. JFTJ - Front Axle for JK and TJ
Part No. JRJK - Rear Axle for JK only

5" Suspension System

07-15 Jeep® Wrangler JK

- Kit includes: coil springs, shocks, lower front links, lower rear links, rear bump stop brackets, rear bump stop spacers, front track bar bracket, front double disconnect end links
- Includes rear extended sway bar end links, rear track bar brace, and hardware kit

Part No. BM1841561

Leveling Kit

07-15 Jeep® JK Wrangler ALL

- Maintain your factory ride
- Increases tire clearance while offering a refreshing commanding view of the road or trail
- No cutting or welding required

Part No. J15LL1 - 1.5" Front Lift

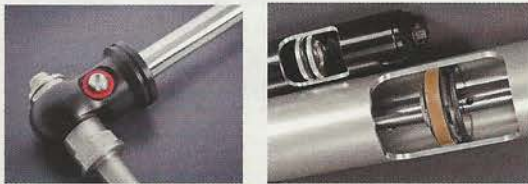

Unique "Through the Shaft" Design

2.0 Performance Series Stabilizer ATS Steering Stabilizer

Off-Road Tough!

The FOX Performance Series Adjustable Through Shaft (ATS) steering stabilizer offers unrivaled steering control and a striking high tech appearance. The technologically advanced design cancels unwanted steering forces in both directions, taking the place of two conventional opposing stabilizers. It will also respond to your input with 24 clicks of external adjustment to fine tune the feel. The integrated reservoir allows for additional fluid capacity and improves cooling during extreme use. Also included is FOX's relocating hardware that moves the steering stabilizer up and out of the way utilizing a new track bar relocation bolt and 1-3/8" tie-rod mounting clamp. An optional 1-5/8" mounting clamp is available for larger aftermarket tie-rods. The ATS represents a revolutionary breakthrough in stabilizer design.

98302088	07-15 Jeep® Wrangler JK 2WD/4WD, for Aftermarket 1-5/8" Diameter Size Tie Rod

2.0 Evolution Series IFP Smooth Body Shock and Stabilizers

The 2.0 Evolution Series IFP smooth body shocks give you increased ride quality and the control you need when heading into the unknown. They use our proven damping technology to provide a comfortable on-road ride and predictable off-road handling in a variety of conditions. The large 5/8" alloy steel shock shaft adds increased strength and rigidity. The shafts are NitroSteel® hard-coated to resist pitting and scratches that can damage shaft seals. Our Internal Floating Piston (IFP) separates the shock oil from the high-pressure, nitrogen charged gas chamber. The IFP eliminates oil aeration allowing maximum performance from the factory-tuned precision valving.

Our bolt on, 2.0 Evolution Series IFP shocks provide increased damping in any terrain. Experience for yourself the added performance and precision control Evolution Series smooth body shocks deliver.

PERFORMANCE SERIES

Race Performance Guaranteed Factory Fit For Stock or Lifted Jeep® Vehicles

2.0 Smooth Body IFP

Aluminum body is incredibly strong and lightweight. Metal impact extruded aluminum provides superior cooling and will never rust. Race-style design allows factory servicing. Components that wear can be replaced by factory technicians, restoring the shock to peak performance. Large 5/8" diameter shaft is chromed and induction case hardened to more than 55 Rockwell to defy pitting and Internal Floating Piston (IFP) isolates the shock fluid from the high-pressure nitrogen charge assuring maximum damping and sustained fade-free performance.

2.0 Smooth Body Reservoir

EXTERNAL RESERVOIR allows additional oil and nitrogen capacity and further enhances cooling. INCLUDED BILLET ALUMINUM CLAMP looks clean and positively secures the reservoir.

Hydro Shocks

These shocks are recommended for multiple shock applications and mild to moderate off-road use.

- Hydraulic action
- Multi-stage velocity sensitive valving
- Twin tube construction
- Bonded iron piston
- Chromed piston rod with micro pores
- Includes red boot

7000 Series

Nitro Shocks

- 150 PSI pressurized nitrogen gas
- Multi-stage velocity sensitive valving
- Twin tube construction
- Bonded iron piston
- Chromed piston rod with micro pores
- Red polyurethane bushings
- Includes red boot

N8000 Series

Monotube Shocks

- High-pressure nitrogen gas charged
- Custom tuned for each vehicle
- 180° directional mounting
- Large 46mm bore
- No fade or lag for consistent performance
- Monotube design
- Fastest responding shock ever
- Dirt seal protection for oil seal and rod bearing

M9500 Series

PERFORMANCE SUSPENSION & SHOCKS

RS5000™X Shock Absorbers

- Progressive engagement valving
- Tuned compression control valve
- Enlarged 2-1/4" twin tube body
- Gas pressurization of shock
- 16mm Nitro-carburized rod
- Full-displaced 35mm bore
- 1-3/8" diameter sintered iron piston
- Protective boot included

RS7000MT™ Shock Absorbers

- Monotube design with high pressure nitrogen gas charge
- 1.97" (50mm) body diameter
- Brushed and Zinc plated with a clear coated finish
- Ten-stage velocity sensitive valving
- 14mm Chrome rod
- Protective boot included
- 90-day free ride offer

RS7000 Series

RS9000XL Shocks

- 2.75" body diameter
- 9-position tuning
- Nitrogen gas filled
- Liquid metallic finish
- Protective boot included
- 90-day free ride offer

MX-6 Adjustable Monotube Shocks

- 6-way external ride control adjustability
- Nitrogen gas charged
- Velocity-sensitive valving
- Gun-drilled 14" hardened chrome shaft

MX6000 Series

Pro Runner Performance Monotube Shocks

- Height adjustable 0"-2.75"
- Brushed and zinc plated
- Nitro charged monotube design
- VSRT™ - vehicle specific ride tuning
- 6061-T6 billet collar

ZX2000 Series

BILSTEIN®

See In-Store for 5160, 6112, 8125 and 9100 Series Custom Sizes

8125 Series
Designed For The Serious Off-Road Enthusiast

- Available in 46mm and 60mm monotubes
- Threaded body with dual rate coilover hardware
- Monotube design for fade-free performance
- Remote reservoir for greater resistance to heat
- High temperature seal extends life of shock
- 22mm case hardened piston rod provides brute tensile strength while resisting sand blasting and rock chipping
- Zinc plated for resistance to off-road elements
- High temperature, size - 8 hose
- Owner rebuildable
- Industry standard 5/8" bearing
- All components are billet machined. No cast parts used
- Made in the USA

5160 Series
Stock Location Remote Reservoir Shocks

- Unique digressive valving system instantly produces full damping capability
- Remote reservoir dramatically increases shock oil capacity for even greater heat dissipation and damping sensitivity
- Reservoir mounting configuration designed specifically for each vehicle application – no welding required
- For increased wheel travel and more shaft movement, the “floating” dividing piston is located in the reservoir

6112 Series
Ultimate Suspension Solution

- Large diameter bore for increased oil capacity and durability
- BILSTEIN's industry leading monotube gas pressure design
- Lighter spring rate paired with heavier 60mm damping provides an extremely compliant ride
- Features high performance springs
- Bolt-in kit features adjustable ride height and includes spring mounting hardware

9100 Series Coilover
Available in 46mm and 60mm Models

Developed for the professional off-road racer, the BILSTEIN 9100 Series is truly state-of-the-art. The Coilover offers the same damping features as the standard body shock with the ability to mount an external coil spring for load carrying capability.

- Monotube gas pressure construction
- Designed to combine the function of damper and spring
- 2.65 or 2" (OD) Body
- Coil Spring Hardware: 3" or 3-5/8" (ID)
- Hose length and Fittings Options: Straight, 90 degree, 45 degree
- Valving can be adjusted internally for rebound and compression
- Completely owner rebuildable

5100 Series Shocks
Monotube Gas Pressure Shocks for Lifted Vehicles

- Monotube design for cooler, more efficient operation and longer life
- 46mm piston diameter provides superior handling and performance
- Patented digressive valving instantly reacts to changing surface conditions for maximum comfort and control on or off-road
- Split compression and rebound valving tuned for each specific application
- Jeep® applications available for stock height to 6" lifted

2) Compression bump stop on chassis may need to be modified to prevent damage to the shock absorber
 13) Must use wheel spacers or offset aftermarket wheels.
 17) Zinc plated blue boot 5100 series

NEW

High quality monotube construction in a full black out package. Stealth has the edge when it comes to superior ride quality for your vehicle at an affordable price. Welcome to the dark side.

- Black shock body
- Black nitrocarb piston rod
- Excellent ride quality

FTS6000 Series

Dirt Logic 2.5 Shocks

- 2.50" OD steel body
- 2.25" OD billet aluminum piston
- 7/8" induction hardened chrome piston rod
- Adjustable coilover construction
- 5/8" spherical ball or urethane mounting ends
- Optional 2.25" OD reservoir with 8 stainless steel o-ring hose
- Black anodized finish

FTS810000 Series

Sensa-Trac Shock Absorbers

- Fluon banded piston, part of the Safe Tech™ system, works with the patented groove tube technology to provide superior responsiveness to changing road conditions
- Application engineered with fully displaced valving for optimum light truck ride tuning
- Nitrogen gas charge helps to maintain tire to road contact by reducing aeration, improving ride and handling

37000 Series

Gas-Magnum Shock Absorbers

- Designed specifically for hard-working mid to full-size pick-ups and vans
- The largest shock in the industry provides greater oil capacity, allowing superior heat dissipation
- Provide firm control without a harsh ride

34000 Series

ENERGY SUSPENSION
Performance POLYURETHANE Components

HYPER-FLEX

Proven on and off-road, under the most demanding conditions! Whether old or new, all vehicles will achieve that level of performance that has made ENERGY SUSPENSION the most asked-for name in performance polyurethane suspension components. DURABLE HYPER-FLEX™ components do not rot or deteriorate from exposure to oils and undercar chemicals or atmospheric conditions like smog and ozone. Unlike O.E.M. rubber, HYPER-FLEX components will not break down and deteriorate, causing mushy handling and poor steering response.

Jeep® TJ Wrangler 97-06

Part No.	Description
23107G	Rear end control arm bushing set
25110G	Complete sway bar bushing set
26101G	Front coil spring isolator (OE height)
26102G	Coil lift isolator set (front or rear 1.75")
26103G	Coil lift isolator set (front or rear .75" lift)
25111G	Rear sway bar bushing set
27102G	Front track bar bushing set
27103G	Rear track bar track bar bushing set
21103G	Transmission mount

Note: Parts shown are Black. For Red, replace "G" with "R" in part number.

Hyper-Flex® Systems

Front and rear control arm bushings (2), front and rear greaseable sway bar and end link bushings, front and rear track bar set, front and rear coil spring isolators, front and rear bump stops, body mounts.

Part No. 218107G - 97-06 Jeep® TJ
Part No. 218108G - 07-16 Wrangler JK 4 door

Front and rear spring and shackle bushings, front sway bar and end link bushings, front and rear track rod bushings, body mounts, transmission mount, tie-rod end boots.

Part No. 218101G - 87-95 Jeep® YJ Wrangler

93-98 Jeep® Grand Cherokee XZ

Part No.	Description
23103G	Front end control arm bushings
25108G	Front sway bar bushing set
25109G	Rear sway bar bushing set
27102G	Front track arm bushing set
27103G	Rear track arm bushing set
26103G	Coil lift isolator set .75"
26102G	Coil lift isolator set 1.75"
21104G	Motor mounts (2 per set)

Jeep® YJ Wrangler 87-95

Part No.	Description
22107G	Front and rear leaf spring bushing set
24105G	Body mount set
913101G	Tie rod boots
24101G	Front or rear track arm bushing set
21104G	Motor mount (2 per set) 6 cyl.
31107G	Transmission mount
22110G	Front or rear frame shackle bushing

Pitman Arm

With the drop pitman arm, the drag link attachment point is moved down to reduce the angle. Aftermarket pitman arms are designed specifically for off-road terrain, with more durability than a stock arm.

- Part No. JA770 - 07-15 Jeep® JK Wrangler 4-7"
- Part No. JA500 - 97-06 Jeep® TJ Wrangler with power steering 8"
- Part No. JA750 - 97-06 Jeep® TJ Wrangler with power steering 4-6"
- Part No. JA850 - 87-96 Jeep® YJ Wrangler with manual steering 4-6"
- Part No. JA750 - 87-96 Jeep® YJ Wrangler with power steering 4-6"

- Part No. YJ400 - 87-06 Jeep® YJ and TJ Wrangler 4"

Shock Relocation Brackets

- Part No. TJRSB10 - 97-06 Jeep® TJ

Sway Bar Replacements

A sway bar provides two main functions. The first main function is the reduction of body roll. The second function is to tune the handling balance of a vehicle.

- Part No. RSBA410 - 97-06 Jeep® TJ Wrangler Front
- Part No. JFSBA10 - 97-06 Jeep® TJ Wrangler Rear

Stabilizer Bar

RockLock selectable sway bar for the Jeep TJ is totally adjustable for on and off-road use.

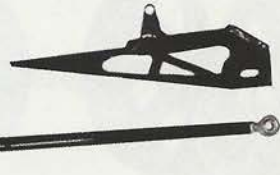

- Part No. JFSBA10 - 97-06 Jeep® JK Wrangler

Adjustable Track Bar

It provides the hold of the axle, controls the lateral force, and keeps what is kept centered.

- Part No. FTBA45 - 07-15 Jeep® JK Wrangler Front 4-6"
- Part No. RTBA45 - 07-15 Jeep® JK Wrangler Rear 4-6"
- Part No. TBA10 - 97-06 Jeep® TJ Wrangler Front 4"
- Part No. TBA60 - 97-06 Jeep® TJ Wrangler Front 6"
- Part No. TJRTB - 97-06 Jeep® TJ Wrangler Rear 2-4"
- Part No. YJ5LK - 87-95 Jeep® YJ Wrangler 6"

- Part No. JTB402 - 07-15 Jeep® JK Wrangler Front 2-6"
- Part No. JTB400 - 97-06 Jeep® TJ Wrangler Front 2-5" Dana 30
- Part No. JTB403 - 97-06 Jeep® TJ Wrangler Front 2-5" Dana 44
- Part No. JTB401 - 97-06 Jeep® TJ Wrangler Rear 2-5"

Transfer Case Lowering Kits

Kits are simple to install and eliminate vibration and drivetrain angle problems.

- Part No. TCL103 - 03-06 Wrangler TJ + Rubicon 4WD; 2-2.5" Lift
- Part No. TCL153 - 03-06 Wrangler TJ + Rubicon 4WD; 3.5-4" Lift
- Part No. TCL101 - 97-02 Wrangler TJ 4WD; 2-2.5"
- Part No. TCL151 - 97-02 Wrangler TJ 4WD; 3.5-4"
- Part No. TCL25 - 87-96 Wrangler YJ 4WD; 2-4" Lift

Transfer Case Slip Yoke Eliminator Kit

- Allows for 4-1/4" to 6-1/2" drive shaft length increase

- Part No. RR231 - 97-06 Jeep® JK Wrangler

- Part No. 1867660 - 97-06 Jeep® JK Wrangler

- Part No. RE1807 - 97-06 Jeep® JK Wrangler

- Part No. 4007 - 97-06 Jeep® JK Wrangler

- Part No. 4444401 - 97-06 Jeep® JK Wrangler

Steering Stabilizers

A steering stabilizer is a dampening shock for the steering system. Basically, what it does is dampens the harshness of the highway, of the "shimmy" from running the additional weight of larger tires and wheels, and therefore places control back into the driver's hands. These can come in a single or dual set up.

- Part No. 7003 - 07-15 Jeep® JK Wrangler OEM
- Part No. 7203 - 07-15 Jeep® JK Dual
- Part No. 7119 - 97-06 Jeep® TJ Wrangler Single
- Part No. 7219 - 97-06 Jeep® TJ Wrangler Dual
- Part No. 7009 - 87-96 Jeep® TJ/YJ Wrangler OEM

- Part No. RS5407 - 87-06 Jeep® TJ and YJ Wrangler Single

- Part No. 220500 - 07-15 Jeep® JK Wrangler Single
- Part No. 219505 - 97-06 Jeep® TJ Wrangler Single
- Part No. 222586 - Jeep® JK Wrangler

- Part No. FTS8024 - JK/TJ/YJ/XJ, Single Performance Stabilizer
- Part No. FTS240911 - JK, Single Dirt Logic Stabilizer
- Part No. FTS7004 - Single Performance Twin Tube
- Part No. FTS850002 - Dirt Logic SS, Dual

Sway Bar Disconnects

- Part No. 55506 - 97-06 Jeep® TJ Wrangler 3-5"

Driveshafts

- Part No. TJRS - 03-06 Jeep® TJ Wrangler - Auto with 6 cyl Dana 35 rear
- Part No. TJRS - 97-03- Jeep® TJ Wrangler - 5 spd with 6 cyl Dana 35 rear

- Part No. 4042 - 97-06 Jeep® TJ Wrangler

Baja MTZ^{P3}

The new Mickey Thompson Baja MTZ^{P3} is an incredible mud terrain tire that's been specially designed with a unique silica-reinforced tread compound for longer wear, enhanced wet weather capability, and superior cut and chip resistance. The Baja MTZ^{P3} tread also features siped tread lugs with variable draft angles for better traction and stone ejection, and angled shoulder scallops with mud pocket scoops for better traction in mud and loose soil.

Baja Claw^{*}

The Baja Claw is designed for extreme driving conditions including rock crawling, mud, snow, sand, dirt, and gravel. Extra large SideBiter[®] and a cut resistant sidewall make this the toughest tire for any modified truck.

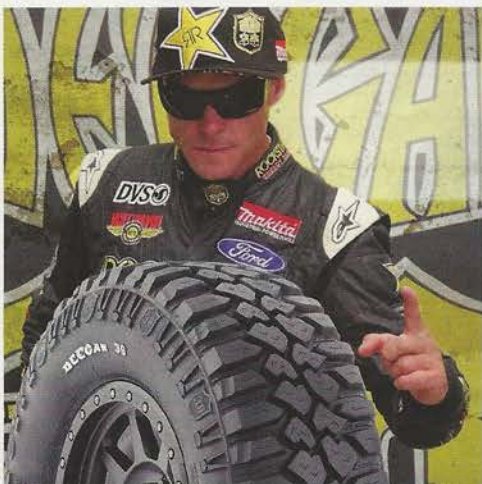

Baja ATZ^{P3}

The Baja ATZ^{P3} has a unique "hybrid" design between an all-terrain and mud terrain to give you the grip you need for your weekend adventures and the smooth ride to get you down the road in comfort. Features an extra wide footprint and beefy tread blocks for great all around traction.

Baja Claw[®] TTC RADIAL

The Baja Claw TTC Radial is the ultimate extreme traction tire. Get rugged off-road performance with the Claw's 23-degree tread pattern, large directional SideBiter[®], and tough puncture resistant sidewalls. Go where you want with the confidence that the Baja Claw TTC will pull you through!

DEEGAN 38[™] TIRES

The new Deegan 38 tire from Mickey Thompson, designed in cooperation with racing icon Brian Deegan, is the ultimate all purpose mud terrain tire with aggressive style and performance and great street manners, too.

NEW

EXTREME COUNTRY™

Dick CEPEK™
TIRES & WHEELS

The NEW EXTREME COUNTRY™ mud terrain tire is designed with off-road enthusiasts in mind. The proven tread compound is excellent for maximum traction and even wear during extreme adventures.

Offered in 21 popular sizes.

*ALL MAX LOAD DATA IS FOR SINGLE REAR TIRE APPLICATIONS.

The TRAIL COUNTRY™ is a true all-terrain, M+S rated tire for light trucks and SUVs. This tire is engineered to be tough and reliable in a variety of conditions from street to off-road environments.

Offered in 26 popular sizes.

PRO COMP

NEW

A/T Sport

The all new Pro Comp A/T Sport can take you wherever you want to go. Rugged dependability is balanced with quiet on-road manners – and it's all backed with a 60-day trial and 60,000 mile warranty. The only limitation is your imagination.

Xterrain

For a set of rock crawling beasts that also drive comfortably on paved roads, Pro Comp Xterrain off-road truck tires provide all the aggressive traction that you need, and just might surprise you with their freakishly quiet ride on the street. They also feature an extra thick side wall construction for maximum durability and puncture resistance.

Xtreme MT/2

The Pro Comp Radial Xtreme M/T2 is one of the most advanced tires on and off the road--period. Each size features Tri-Ply construction for greater puncture resistance in the sidewall; while two steel belts and a spiral-wound nylon overwrap provides superior stability and load carrying ability at highway speeds. This ultra-modern mud tire features a unique tread compound that is coupled with silica, which enhances its ability to navigate anything from wet roads to slick rock to deep mud. The Pro Comp Xtreme M/T2 continues to set the performance standard required for modern 4x4s.

ATTURO

TRAIL BLADE M/T

The Atturo Trail Blade M/T is a performance mud terrain tire. The Trail Blade M/T was designed to provide a strong core with excellent traction all wrapped in an aggressive style.

TRAIL BLADE X/T

The innovative, new Atturo Trail Blade X/T offers rugged performance and amazing style in a new kind of all-terrain tire for owners of lifted vehicles and modified SUVs. Atturo now offers the aggressive sidewall style of our popular Trail Blade M/T combined with a tread designed for performance on the trail as well as on the road.

TRAIL BLADE A/T

The Trail Blade A/T provides a durable tread compound formulated for long life with deep sipes for all weather performance. It is constructed for truck owners who demand a strong tire with versatile traction capabilities, but at an affordable price level. The A/T offers true off-road capability with natural highway convenience.

Wheel Spacers

Spidertrax has been providing the off-road market with quality wheel spacers since 1999. With our vehicle specific designs, aluminum anodizing for critical corrosion resistance, and our unmatched competition tested no risk money back guarantee, it's easy to see why Spidertrax Wheel Spacers are the #1 choice among four-wheelers. All Spidertrax Wheel Spacer Kits come complete with two 6061T6 anodized aluminum wheel spacers, pre-installed wheel studs, lugnuts, and Loctite. Proudly manufactured in the United States of America.

Jeep® 1.5" Thick Wheel Spacers

These 1.5" thick, 5 on 4.5", 6061T6 aluminum spacers are an easy way of spacing out front and rear Jeep® XJ, YJ, TJ, ZJ, KJ and KK axles.
Part No. WHS020

Jeep® 1.75" Thick Wheel Spacers

These 1-3/4" thick, 5 on 5" bolt circle, 6061T6 aluminum spacers are an easy way of spacing out front and rear 2007-Present Jeep® Wrangler JK, 2006-Present Commander XK, and 05-10 Jeep® Grand Cherokee WK axles.
Part No. WHS021

07-Up JK to Wrangler Adapters

These 1-3/8" thick, 5 on 5" to 5 on 4-1/2", 6061T6 aluminum adapters make it possible to change your wheel bolt pattern. Simply install on a 2007 Jeep® Wrangler JK, 2006-Present Commander, or 2005-Present Jeep® Grand Cherokee WK axle and this adapter will convert your bolt pattern to the 86-06 Jeep® Wrangler YJ and TJ bolt circle.
Part No. WHS011

07-Up JK Wrangler Spacers

These 1-1/2" thick, 5 on 5" bolt circle, 6061T6 aluminum spacers are an easy way of spacing out front and rear 2007-Present Jeep® Wrangler JK, 2006-Present Commander, and 2005-Present Jeep® Grand Cherokee WK axles.
Part No. WHS010
Part No. WHS010K - Black

87-06 Jeep® Wrangler Spacers

These 1.25" thick, 5 on 5", 6061T6 aluminum spacers are an easy way of spacing out front and rear Jeep® XJ, YJ, TJ, ZJ, KJ and KK axles.
Part No. WHS002

Jeep® JK Conversion Adapters

We have heard your feedback and are happy to announce the Spidertrax 87-06 Wrangler to 2007-Up JK Wrangler Adapter Kit. With this adapter kit, you can now install new 5 on 5" Jeep® JK wheels onto your Jeep® XJ, YJ, TJ, ZJ, & Liberty. Each adapter is 1-1/4" thick.
Part No. WHS013

45-86 Jeep® CJ Spacers

These 1.25" 5 on 5.5" 6061T6 aluminum spacers are an easy way of spacing out front and rear Jeep® CJ axles.
Part No. WHS003

87-06 Wrangler to CJ Adapters

These 1.25" thick, 5 on 4.5" to 5 on 5.5", 6061T6 aluminum adapters now make it possible to change your wheel bolt circle! Simply install on an axle with a 4.5" bolt circle and this adapter will convert the axle to a 5.5" bolt circle.
Part No. WHS004

Jeep® WJ Wheel Spacers

These 1.25" thick, 5 on 5" 6061T6 aluminum spacers are an easy way of spacing out front and rear Jeep® WJ axles.
Part No. WHS006

Jeep® CJ Conversion Adapters

These 1-3/8" thick, 5 on 5" to 5 on 5-1/2", 6061T6 aluminum adapters make it possible to change your wheel bolt pattern. Simply install on a 2007-Present Jeep® Wrangler JK, 2006-Present Commander, 2005-Present Jeep® Grand Cherokee WK, or 19-04 Grand Cherokee axle and this adapter will convert your bolt pattern to the Jeep® CJ bolt circle.
Part No. WHS012

Jeep® WK2

These 1-3/4" thick, 5 on 5" bolt circle, 6061T6 aluminum spacers are an easy way of spacing out front and rear 2011-Up Jeep® Grand Cherokee WK2 axles.
Part No. WHS024

Front Bumper Designed for Life Off-Road

Whether you're planning an overland expedition or just out exploring, these bumpers are designed for life off road. Features include a low, recessed winch mount for the ultimate winch protection, and a wrap-around design that offers strength and style. There are recessed ports and mounts for auxiliary lights, and a welded-on CNC-formed grille tube for increased protection (optional). There are recessed jack points for increased recovery options, and eyelets for D-shackles. Mounting fasteners are hidden inside the bumper for a clean finish and reduced corrosion. This is the ultimate bumper for those who are looking for versatility, capability, and protection.

- Recessed winch mount accepts all WARN mid-frame winches 12,000 lbs. capacity and under (excluding M8274-50)
- Recessed light ports and mounts for auxiliary lights (lights sold separately)
- Laser cut and CNC-formed steel construction
- Available with and without welded-on, CNC-formed grille tube
- Recessed jack points for more stable jack positioning
- Sand blasted prior to powder-coat for increased coating durability
- Mounting fasteners hidden inside for clean finish and reduced fastener corrosion

Part No. 87750 – 07-16 Wrangler JK With Grille Guard Tube

Part No. 87775 – 07-16 Wrangler JK Without Grille Guard Tube

Rock Crawler Stubby Bumper for the Jeep® JK & TJ Wrangler

- Narrower version of the popular Rock Crawler Bumper —designed for serious rock crawling
- Includes a winch mount that accepts all WARN mid-frame winches 12,000 lbs. capacity and under (excluding M8274-50 winch)
- Laser-cut and CNC- formed for durability, these bumpers have eyelets for D-shackles and recessed mounting hardware for a clean finish and reduced fastener corrosion
- Black powder-coated finish
- Recessed jack points for increased recovery options
- Recessed ports and mounts for auxiliary lights — including factory lights
- JK bumper also available with welded-on CNC-formed grille tube provides increased front-end protection

Oil Pan Skid Plate for the Jeep® TJ Wrangler

Part No. 65020 – Jeep® '97-03 TJ
(6-cylinder. Excludes Rubicon and Unlimited models)

Grille Guard Tube for the Rock Crawler Bumper

This tube wraps your WARN winch with rugged, tubular steel tilted at an optimum 20-degree angle. The black powder-coated finish combines durability with aggressive good looks. Designed to bolt on to the WARN Rock Crawler bumper or winch mounting plate, depending on application.

Part No.	Application
89440	07-15 JK
61855	97-06 Wrangler TJ (Includes Rubicon & Unlimited)
61858	86-95 Wrangler YJ
61861	86 & Prior CJ, Scrambler

WARN Rock Crawler Front Bumper for the Jeep® Wrangler JK, TJ, YJ, and CJ

The WARN Rock Crawler Bumper incorporates our off-road experience to deliver a tough, durable well thought-out product. Ends are tapered for increased approach angles. The bumpers have welded eyelets to mount D-shackles and pre-drilled holes to mount lights. Available for Jeep® brand CJs, YJs, and TJs, the WARN bumpers are laser cut from heavy 3/16" steel, then CNC formed and robotic-welded for precise fit and powder-coated for durability. (Not rated for tow bar use.)

- Part No. 61853 – 97-06 Wrangler TJ (Includes Rubicon and Unlimited)
- Part No. 89430 – 07-16 JK
- Part No. 61856 – 86-96 Wrangler, YJ
- Part No. 61859 – 76-86 CJ

WARN Rock Crawler Rear Bumper for the Jeep® Wrangler JK, TJ, YJ, and CJ

This tough, durable bumper gives maximum off-road performance. Tapered ends allow for increased departure angles. An integrated 2" receiver allows mounting of your portable winch or shackle bracket to increase your recovery options. (Not rated for towing.)

For carrying the oversize tires that serious off-roaders require, the rear bumper is available in a version that is designed to accept the WARN tire carrier.

Accepts Tire Carrier	Will Not Accept Tire Carrier

Winch Mounting Plates for the Rock Crawler Bumper

- Part No. 37170 – 98-06 Wrangler TJ
- Part No. 21390 – 86-95 Wrangler YJ and '91-91 Renegade
- Part No. 13910 – 86 & Prior CJ, Scrambler

WARN Rock Sliders for the Jeep® Wrangler

How many body shots can your Jeep® absorb? A heckuva lot more with WARN Rock Sliders. The thick steel plate construction and black powder-coat finish ensure durability. The plate bolts right to the Jeep® body, reinforcing its weakest spot. Mounting hardware is included. Some drilling required.

- Part No. 63002 – 97-02 TJ
- Part No. 63003 – 87-95 YJ
- Part No. 63004 – 76-86 CJ7
- Part No. 74580 – 07-14 JK, two door
- Part No. 74575 – 07-14 JK, four door
- Part No. 69875 – 05-06 TJ Unlimited

Tire Carrier

For carrying the oversize tires that serious off-roaders require, the rear bumper is available in a version that is designed to accept the WARN Tire Carrier. Built to carry heavier tires (up to 37"), the tire carrier pivots on a beefy 1-1/2" solid steel shaft pin, which comes up from within the bumper into the frame of the tire carrier. The shaft itself is welded, not bolted. Structural T-joint welds (vs. corner welds) mean the bumper holds up in the long run. Period. A polyurethane pad reduces rattling. Includes frame reinforcing brackets. Bumper sold separately.

- Part No. 63253 – For use with Part No. 62947
- Part No. 64337 – For use with Part No. 65508/65509
- Part No. 74299 – For use with Part No. 74300

SRC Bumpers

Just like the front, each rear bumper has a 3/16" solid plate center section which is designed to contour around an oversized tire to give you the maximum tire clearance when opening and closing your tailgate. Each rear bumper features a class III, 2" receiver hitch that is incorporated into the bumper and bolts directly up to your O.E. Points. Includes two D-Ring mounts for those sticky situations.

SRC GEN2 Bumpers and Rear Tire Carrier

The new Smittybilt SRC front bumper has been completely redesigned with more aggressive styling and heavy duty features. The new bumper features an integrated over-rider bar and corners that extend to match the factory fender line for greater protection. The redesigned solid D-ring mounts feature an integrated recovery point for easy access. The winch plate has been placed lower for greater airflow to the radiator.

Bumpers and Accessories

Our front bumper allows for extreme approach and departure angles, and can be used as a high lift jacking point as required. It won't block your oversized tires, but still protects the front fenders. Front bumpers will accommodate up to four off-road lamps and most aftermarket winches. Our rear bumper is a close, body-wrapping fit that protects the lower rear quarters and accepts a 2" clevis hook. Bumpers are constructed of extra heavy-duty 0.140-wall steel with a gloss black powder-coat finish.

 3B. Winch install kit Part No. 3540050 required when fitting winch

Rock Sliders

Bring on the rocks! These ARB rock sliders are manufactured from tough, tubular steel making them ideal for steep, rocky terrain. Will help reduce this damage, while at the same time improve access to your truck. The manufacturing process utilizes steel tube formed into shape using an internal mandrel bender, ensuring consistency and even wall thickness across all sections.

Part No.	Application
4450200	07-15 Wrangler JK, 2 DR
4450210	07-15 Wrangler JK, 4 DR
4450010 ¹	97-06 Wrangler TJ, TJ Unlimited

¹ Fits short wheel base model only

Rear Protection Bumpers

Designed for maximum functionality including a recessed bumper section, dual hi-lift jacking points and a heavy duty towing system. Recess in bumper to allow fitment of most oversized tires.

- Dual Hi-Lift jacking points
- Low slip tread plate-easy access to cargo
- Area through center recess
- Durable black powdercoat finish
- Compatible with factory tow package
- Integrated tow points

1. Non Swing Out, Tire Mounts in Factory Position
 2. Accommodates Up to a 35" Tire
 3. Utilizes Factory Tow Package
 4. Optional spare tire carrier Part No. 5750300 will only work in combination with bumper Part No. 5650350
 5. Will work with up to a 37" tire. Modification to 3rd brake light may be required to fit 37" spare tire.
 1A. Rear bar and wheel carrier must be purchased together for proper installation
 2A. Rear bar has built in tow hitch, but does not come with ball and mount for towing. Uses standard 2" receiver and ball available at most auto parts stores

Off-The-Door Tire Carrier

- First ever "5-Point" Off-The-Door Tire Carrier
 - Heavy duty custom machined and plated pivot shaft in double shear fabricated mount
 - Double turnbuckle at the top and bottom to eliminate any rotational vibration
 - Will handle up to a 40" tire. Max tire height when adding the optional third brake light for Off-The-Door Tire Carrier is 38"
- Part No. JK07Y12511** - Jeep® JK Rear Base Bumper (No Tire Carrier)
Part No. PY1261T1 - JK Off-The-Door Tire Carrier (Needs Base Bumper)
Part No. M20501 - JK 3rd Brake Light (Needs **Part No. JPY1261T1**)
Part No. M21501 - JK Hi-Lift Mount (Needs **Part No. JPY1261T1**)

Vengeance Series

- Overall design and fit is "high and tight" to the contours of the vehicle
- Sensor compatible and lightweight
- Allows for an integrated 20" LED light bar in the center
- Lower cut-out to provide airflow to intercoolers

Part No.	Year	Application
JK07D18511	07-16	JK - No Guard
JK07D18521	07-16	JK - Pre-Runner Guard
JK07D18531	07-16	JK - Stinger

Full Metal Jacket Bumper

07-15 Jeep® Wrangler JK

- (Fits other winches as well)
- Bumper and Winch Modifier accepts 2x2 Rigid Industries "Dually" lights (Bumper fits Factory Fogs).
- Bumper Does not include 2x2 Rigid Industries lights or Fab Fours lights
- Styling features enhance the new Warn "Zeon" Winches

- Part No. JK07B18551** - JK FMJ Stubby Winch Bumper
Part No. JK07B18561 - JK FMJ Stubby Winch Bumper with Grill Guard
Part No. JK07B18591 - JK FMJ Winch Bumper Modifier
Part No. JPWP1 - Jeep® JK Winch Plate
Part No. JK07B18571 - JK Full Width With No Guard
Part No. JK07B18581 - JK Full Width With Guard
(Required if using a winch without FMJ Modifier)

"Stubby" Winch Bumper

- Hi-Lift Jack points
- 3/4" D-ring mounts
- "Stubby" Design for maximum tire clearance
- 3/16" Steel Construction
- Winch mount for a 10,000 lb winch or smaller, including the WARN PowerPlant
- Light cutouts for factory fog lights
- Optional - 90mm Fab Fours fog light kit (**Part No. JKSTLA**)

- Part No. JK07B18531** - 07-15 Wrangler JK, Without Grille Guard
Part No. JK07B18541 - 07-15 Wrangler JK, With Grille Guard

Lifestyle Winch Bumper

A stylish, high-clearance winch bumper with integrated D-Ring mounts and lights. Design is focused on its strength and rock-clearing abilities.

- Lightweight and stays close to filling the "stock envelope"
- Fab Fours 90mm fog and 60mm turn indicator lights are included FREE with the bumper!
- Winch ready for 10,000 lb winches or smaller (Doesn't accept the WARN PowerPlant)
- 1" D-ring mounts

- Part No. JK07B18511** - 07-15 Wrangler JK
Part No. JK07B18501 - 07-15 Wrangler JK, With Grille Guard

Rear Bumper with Tire Carrier

- Recessed 3/4" D-Ring mounts
- Will handle up to a 40" tire
- Compatible with the factory receiver hitch
- CB antenna mount
- Locking pin next to swivel on tire carrier allows easy access to the rear compartment

07-15 Wrangler JK

- Part No. JK07Y12511** - Rear Base Bumper
Part No. JPY1251T1 - Tire Carrier

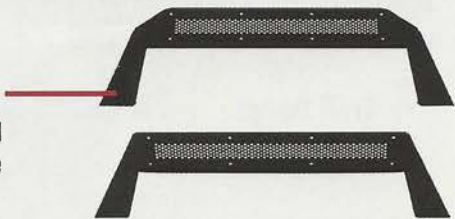

GO RHINO®

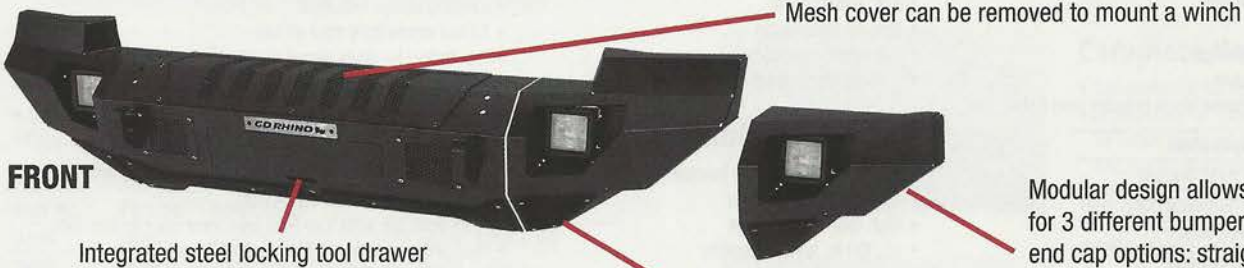

FIT. FUNCTION. STYLE.

NEW BR SERIES MODULAR WINCH BUMPERS FOR JEEP® JK WRANGLER COMING SOON

3 light bar options: standard, angular, and stinger style

BODY PROTECTION

Modular design allows for 3 different bumper end cap options: straight, stubby, and full

Full wrap end cap option with step area

RB10 RUNNING BOARDS

RB10 RUNNING BOARDS provide extra body protection from flying debris while offering a wide, safe step for easy entry and exit. The boards are coated with OEM-approved bed liner material that provides a super grippy step surface and a tough, durable finish that's backed by a 5-year warranty. For taller, lifted Jeeps® with larger wheels and tires, add optional bolt-on RB10 Drop Steps that give an extra 4" drop for easier access to the vehicle.

Part No.	Application
63450568T	RB10 for Jeep® Wrangler Unlimited
63410000T	RB10 Drop Step

DOMINATOR HOOP STEPS

DOMINATOR HOOP STEPS for Jeep® JK are wheel-to-wheel steps built tough enough to take a beating. Constructed from high strength round steel tubing with strategically positioned drop steps under each door, these heavy-duty bars protect the rocker panel and also offer a safe step in all kinds of conditions whether on road or off.

Part No.	Application
D24505T	Dominator D2 Textured for Jeep® Wrangler Unlimited
D24505PS	Dominator D2 Polished for Jeep® Wrangler Unlimited

Part No. JK19531 - 07-16 Jeep® Wrangler JK

Rear Bumper and Swing Arm

- 5mm thick steel plate
- High clearance design
- Axle shaft pivot
- Double wheel bearings
- Dual recovery points
- Dual process textured black powder coat finish

PERFORMANCE SUSPENSION & SHOCKS

Front Off-Road Bumper

- 1/4" thick steel construction
- Compact design provides maximum ingress clearance
- Accommodates most standard-sized winches
- Black powder-coated wrinkle finish

Part No. RS6220B - 07-16 Wrangler JK

Tubular Off-Road Doors 07-16 Wrangler JK

- Added visibility for off-road
- Retains factory side mirror (passenger and driver side)
- 1-3/4" tube construction
- Mounts to OE door hinge
- OE-style latch that can be opened from inside or outside
- Durable textured black powder-coated finish

Part No. RS6216B - Front door

Part No. RS6217B - Rear door

RockGEAR™

MADE IN THE USA

Part No. RS6218 - DANA 30

Part No. RS6209 or RS6209B - DANA 44

Part No. RS6205

Note: adapter bracket is required when installing Rancho Dana 44 differential cover with Rancho RS6509 Long-Arm suspension system.

Door Sliders

- Added body protection for rocker panels
- Thick-walled 1-1/2" tube construction
- High-clearance design follows body contour
- Convenient step to allow for easier entry/exit
- No cutting or drilling installation
- Durable textured black powder-coated finish

Differential Cover

- Added axle and internal gear protection
- Manufactured from high-strength nodular iron
- Ribbed external construction for added strength
- Offset over-sized fill plug for increased fluid capacity and easier/quicker filling
- Durable red powder-coated finish

Rear Door Cover Plate

- Protects rear decompression vent
- CB antenna mount included
- Reuses factory bolts and hole locations
- Designed to cover vent when removing spare tire carrier

Part No. RS6237B

07-16 Wrangler JK 2/4 Door

Control Arm Skids

- Mount to front lower control arms (axle end)
- Reduce hang-ups and damage to the factory brackets
- Thick 3/16" steel construction
- Bolt-on in minutes
- Durable red or black powder-coated finish

Part No. RS6210 - 07-16 Wrangler JK, Red

Part No. RS6210B - 07-16 Wrangler JK, Black

Rear Bumper with Tire Carrier and Jack Mount

- Swing away design works with rear door to open and close together making access to the cargo area quick and easy
- Rancho Black textured powder-coat finish
- 1/4-in. High-strength low-alloy steel construction
- Designed to maximize ground clearance
- Maintains O.E. tow hook connection (tow hook not included)
- Rear vent cover and CB antenna mount included
- Hi-Lift jack mount with quick release straps and a padlock secure location

07-16 Wrangler JK

Part No. RS6214B - 2 Door Sliders

Part No. RS6215B - 4 Door Sliders

Differential Glide Plate

- Mounts to front axle casting
- Allows for a much smoother glide over obstacles forward and backwards
- Protects casting from direct contact
- Durable red or black powder-coated finish
- Works with OE and most aftermarket differential covers

Part No. RS6222 RS6222B - Front DANA 30

Part No. RS6212 RS6212B - Front DANA 44

Part No. RS6242 RS6242B - Rear DANA 44

Part No. RS6235B - 07-16 JK - opens with rear gate

Part No. RS6221B - 07-16 JK - opens separate of rear gate

Part No. RS6229B - 97-06 TJ - opens separate of rear gate

Part No. RS6238 - 07-16 JK 2/4 Door, 97-06 TJ/LJ, rear LED light

Oil Pan Protection

- 1/8" steel construction
- Easy installation, installs over OEM oil pan
- Shields the entire oil pan and maintains drain-hole access
- Durable red or black powder-coated finish
- Can only be used on 3.8L JK motor

Part No. RS6236 - 12-14 Wrangler JK

Part No. RS6208 - 07-16 Wrangler JK,

4.0L V6 models only

Extended Length Brake Lines

- Stainless steel braided front & rear Brake Lines are protected w/ a vinyl cover
- Provides a firmer and more responsive braking
- Mounting brackets included where necessary
- Sold in pairs

Part No. RS6247 - Front (24.5-INCH)

Part No. RS6248 - Rear (22-INCH)

OFF CAMBER FABRICATIONS
"MART"

Spare Tire Carrier

- Fits up to 37 x 13.5" tire
- Direct-fit black steel

NEW

ZEON Platinum™ Advanced Technology, Ultimate Performance Winch

• Double The Durability

The ultimate insurance policy on the trail or jobsite. ZEON Platinum tested TWICE as durable as the previous generation of winches

• 20% Faster

With a no-load line speed of up to 44 feet per minute, ZEON Platinum is the perfect tool for driver-assisted vehicle recovery

• High Performance Package

Features a new high-performance motor for efficient amp draw and fast line speed, a stronger gear train, and high-strength sleeve-in-drum brake design

• IP68 Waterproof Rating

Advanced seals are designed to keep water and dust out

New 12K Synthetic

Advanced Wireless Control

Sophisticated smart device controls operation of the winch, remote clutch, and up to two accessories. Plus it provides operator feedback on motor temp and battery condition

Electrical controls are highly reliable and weather resistant

Brake with steel sleeve-in-drum design is durable and holds the full rated load

Connect your lights, or other accessory to the control module

Remote Clutch
Manual clutch has been eliminated

Large diameter alloy winch drum is light and reduces rope wear

Convertible control pack can be attached to the winch or remotely mounted (Relocation kit required and sold separately)

ULTIMATE PERFORMANCE WINCH SERIES

ZEON Platinum 10, and 12 Winches Newest Ultimate Performance Winches, Equipped With Steel Rope

- ZEON Platinum 12 delivers 12,000 lbs. pulling power
- ZEON Platinum 10 delivers 10,000 lbs. pulling power
- Includes 80' of 3/8" aircraft-grade wire rope and a roller fairlead

Part No. 92810 - ZEON Platinum 10
Part No. 92820 - ZEON Platinum 12

NEW

ZEON Platinum 12-S and 10-S Ultimate Performance Winches With Synthetic Rope

Includes 100' of 3/8" WARN Spydura® synthetic rope, a ballistic nylon sliding chafe sleeve, heat-resistant rope coating, and a polished aluminum hawse fairlead.

Part No. 95960 - 12K - 80' Spydura® Pro Rope
Part No. 92815 - 10K 100' Spydura Rope

Control Pack Relocation Kit

Hardware and wiring required to mount control box remotely from winch.

Additional wiring (optional)

Part No. 93373 - Light Harness Kit (Short) Part No. 89970 - Short Kit
Part No. 93375 - Light Harness Kit (Long) Part No. 92193 - Long Kit

Advanced Wireless Control Window Mount

Mount the wireless remote to your windshield.
Part No. 94437

- Innovative symmetrical design
- Convertible control pack with contractor controls
- Satin-black powder-coated finish, with stainless steel hardware
- Large diameter, lightweight alloy drum
- IP68 waterproof rating

ZEON 12 Superior Performance and Reliability

Part No. 89120 - 80' of 3/8" wire rope

ZEON 10, ZEON 10-S 10,000 lbs. of Cutting-Edge Pulling Muscle

Part No. 89611 - ZEON 10-S (100' of Spydura® synthetic rope)
Part No. 88990 - ZEON 10 (80' of wire rope)

ZEON 8, ZEON 8-S Advanced, Capable, and Strong

Part No. 89305 - ZEON 8-S (100' of Spydura® synthetic rope)
Part No. 88980 - ZEON 8 (100' of wire rope)

WARN® PowerPlant 9.5 and 12

New and Improved Winch/Air Compressor Now Offers Increased Performance and Reliability

- To combine a powerful winch with a high-performance air compressor for the ultimate vehicle-mounted multi-tool.
- The PowerPlant 9.5 has a pulling capacity of 9,500 lbs.; the PowerPlant 12 will pull 12,000 lbs.
- PowerPlant is equipped with a powerful air compressor that can air up four 35" tires in eight minutes
- New features include stainless steel fasteners, a new pressure switch, a revised contactor, a new air hose, and a corrosion-resistant flat-black finish
- Intercooler/air reservoir reduces compressed air temperature
- Half-gallon air reservoir helps even airflow
- High-output air compressor delivers 5 CFM @ 90 PSI; maximum air pressure is 100 PSI

Part No. 91800 - PowerPlant 9.5

Part No. 91801 - PowerPlant 12

ULTIMATE PERFORMANCE WINCH SERIES

ULTIMATE PERFORMANCE WINCH SERIES

Endurance 12.0

12,000 Lbs. of Pulling Power. 0 Pounds of Quit.

- Remote-mount fan cools the winch motor for the ultimate in performance, delivering the longest duty cycle of any electric winch on the market today
- Heavy-duty contractor for increased durability and reliability
- High-speed, three-stage planetary gear train for fast, smooth, and dependable operation
- Stainless-steel clutch lever and hardware for protection against the elements
- Extreme-duty winch sealing to keep the elements out

Part No. 73010

ULTIMATE PERFORMANCE WINCH SERIES

9.5xp

Extreme Performance. Top of the line. Fast and powerful.

- Available in two versions: 100' of wire rope with roller fairlead, or WARN Spydura® synthetic rope with polished aluminum hawse fairlead
- High-output parallel series wound winch motor is the strongest and most durable in the industry
- Extreme-duty winch sealing. Enables superior water resistance
- Extended-duty control pack delivers long duty cycle to tackle the most demanding pulls. Remote-mount design allows for various mounting options
- Remote control with 12' lead
- High gloss, chip-resistant powder coat finish.
- Provides superior corrosion resistance

Part No. 68500 - 9.5xp, Wire Rope, Roller Fairlead

Part No. 87310 - 9.5xp-s, Synthetic Rope, Hawse Fairlead

Massive protective structure combined with sophisticated operator feedback.

9.5ti Thermometric

- Motor-mounted thermal sensor relays temperature information to winch operator by way of the remote control with LED indicator
- Series-wound motor and 3-stage planetary geartrain deliver 9,500 lbs. of pulling capacity
- High gloss, chip-resistant black powder coat finish over a massive cast-aluminum alloy housing
- Comes with steel or synthetic winch rope, hook, remote control on 12' lead, and roller or hawse fairlead

Part No. 97550 - 9.5cti, With Wire Rope and Roller Fairlead

Part No. 97600 - 9.5cti-s, With Synthetic Rope and Aluminum Hawse Fairlead

Part No. 85760 - 9.5cti Multi-Mount, Wire Rope

WARN Winch Damper

Extreme Performance

- Helps to prevent rope recoil in the event of a rope failure
- Rubber-coated center section guards against sliding
- Durable vinyl construction
- Pocket for accessory storage
- Reflective strip for increased visibility

Part No. 91575

Neoprene Winch Covers

Extreme Performance

- Elastic cover stretches over winch
- UV protectant spray included to prolong the life of the winch cover

Part No. 91414 - Fits M8000, XD9000, 9.5xp, VR8000/VR8000-S; VR10000/VR10000-S; VR12000; and Tabor winches

Part No. 91415 - Fits ZEON 8/ZEON 8-S; ZEON 10/ZEON 10-S, and ZEON 12 winches

Premium Series Classic Design. Proven Performance

Long time best selling winches • Competition-grade power, speed, and reliability
 Pulling capacities to 9,000 lbs. • WARN Limited Lifetime Warranty

PREMIUM WINCH SERIES

XD9000i
Fast and reliable in real trail conditions.

- A favorite 9,000-lb. capacity off-road winch
- No-load retrieval line speed is fast — 38 feet / minute
- Integrated Solenoid
- 4.6 HP series-wound motor delivers big torque and power
- Runs cool with low amp draw for long winching duty cycles
- Proven split 3-stage planetary gear train system
- Comes with 125 ft. of 5/16" wire rope, hook, remote control on 12' lead, clutch, roller fairlead, and battery cables

Part No. 27550 - XD9000i Winch
Part No. 37441 - XD9000i Multi-Mount Kit.
 Includes winch, portable carrier, and wiring for front of vehicle (not pictured)

PREMIUM WINCH SERIES

M8000
Compact puller for trucks, sport utilities, and Jeep® vehicles.

- An 8,000-lb. capacity winch that offers outstanding value
- Line speed is fast across the pulling range — 42 feet / minute no-load retrieval rate, 8 feet / minute full-load pull rate
- 4.8 HP series-wound motor delivers big torque and power
- Runs cool with lower amp draw for longer winching duty cycles
- Available in two versions: wire rope with roller fairlead, or WARN® Spydura™ synthetic rope with polished aluminum hawse fairlead
- Comes with hook, remote control on 12' lead, clutch, and battery cables

Part No. 26502 - Wire Rope, 12V
Part No. 87800 - Synthetic Rope, 12V

PREMIUM WINCH SERIES

XD9000
Long-time best seller.

- A durable 9,000 lb. capacity winch
- Compact body, separate control pack allows use in tight spaces
- No-load retrieval line speed is fast — 38 feet / minute
- 4.6 HP series-wound motor delivers big torque and power
- Roller fairlead reduces rope abrasion
- Proven split 3-stage planetary gear train system
- Comes with 100 ft. of 5/16" wire rope, hook, remote control on 12' lead, clutch, roller fairlead, and battery cables

Part No. 28500

ULTIMATE PERFORMANCE WINCH SERIES

9.0Rc
Lightweight, compact winch for rock crawlers.

- Lightweight, short-drum
- 9,000 lb. capacity winch
- Includes 50' of 3/8" diameter synthetic rope with 360° swivel hook, polished aluminum hawse fairlead and remote control
- 4.8 hp series-wound motor and extreme duty control pack provide reliable operation and fast line speeds
- Three-stage planetary geartrain for fast, smooth, and dependable operation
- Automatic mechanical cone brake gives positive operator control during winching
- Gloss red paint with primer under-coat gives superior corrosion resistance
- Extreme duty winch sealing provides superior water resistance

Part No. 71550

ENTRY LEVEL WINCH SERIES

VR8000, VR8000-S
Great For Lighter Trucks, Jeeps, And SUVs

- 94' of wire rope, or 100' of synthetic rope
- Remote control with 12' lead
- Available in two versions: wire rope with roller fairlead, or WARN Spydura® synthetic rope with polished aluminum hawse fairlead
- Legendary WARN reliability and performance; 8,000 lb. single-line pulling capacity
- Low-profile design will fit most vehicles
- Separate control pack for various mounting options
- Mechanical brake for superior winching control
- Durable, smooth, and reliable three-stage planetary geartrain
- Series-wound motor for plenty of power and fast line speed

Part No: 86245 - VR8000 with wire rope and roller fairlead
Part No: 87835 - VR8000-S with synthetic rope and aluminum hawse fairlead

PREMIUM WINCH SERIES

M8274-50
Fastest Line Speed, Longest Rope

- The classic 8,000 lbs. capacity off-road winch
- No-load retrieval line speed is faster than ever—73.4 feet / minute
- Line capacity is long—150 ft. of 5/16" wire rope
- 4.6 HP series-wound motor delivers big torque and power
- Spur-gear drive train and upright design are totally rugged
- Comes with hook, remote control on 12' lead, free-spool clutch, roller fairlead, and battery cables

Part No. 38631

Winch Accessories

Wireless Winch Remote Control

- Wireless remote operation for your TrailFX winch
- Freedom to operate within 30 ft.
- Shock resistant transmitter with easy "in and out" push button control
- Batteries included (CR2032 or equivalent)

Part No. WA019 - Remote

Part No. WA001 - Control Box

Work Gloves

- Essential for hand protection when winching
- Features reinforced palms for extra protection
- Handy velcro wrist straps keep gloves secure
- Made of heavy duty Dacron polyester

Part No. WA015 - Extra Large

Neoprene Winch Covers

- Water and severe weather resistant
- Soft and durable
- Fits all standard TrailFX winches

Part No. WA016

Mounting Plates

New and affordable TrailFX winch mounting plates and cradles are compatible with most standard light truck winches for the front or rear of most trucks and Jeeps®.

Part No. WA017 - Flat Fixed Mount

Part No. WA018 - Receiver Mount

Winch Rigging Kit

- Satisfies the needs of the off-road enthusiast with one easy and affordable accessory kit
- Offers high quality straps, gloves, D-rings, a snatch block and even a choker chain in one attractive TrailFX® heavyweight bag

Part No. WA014

Project ES Waterproof Winches

- SEC18(es) 18,000 Lbs.
Part No. 7750280W
- SEC15(es) 15,000 Lbs.
Part No. 765026W
- SEC12(es) 12,000 Lbs.

- SEC8(es) 8,000 Lbs.
Part No. 7750141W
- SEC4500(es) 4,500 Lbs.
Part No. 7650115B

All Feature:

- Waterproof and dustproof to IP68 standard
- High output motors
- Fast line speeds
- Rugged planetary gear sets
- Automatic load holding brake
- Clockable gear side
- Synthetic rope or aircraft cable
- Fully sealed winches
- Submersible, 500 amp solenoids
- Marine grade remote control connectors
- Corrosion-free construction
- Stainless steel hardware
- Dacromet® coated roller fairleads

SEC15(es) Electric Winch

The lightest 15,000 pound winch in the industry! Weighing in at only 101 pounds, the SEC15 packs heavy duty power in its compact design. Featuring compact dimensions and 25% less weight than other winches in its class, the SEC15 mounts easily and is a great choice for full size trucks that are looking for big winch power without adding big winch weight to the vehicle's front end.

SEC4500(es) Electric Winch

- Our strongest winch to date
- Most lightweight for it's pulling capacity
- Fast line speeds
- Rugged planetary gear sets

SEC18(es) Electric Winch

- Our strongest winch to date
- Most lightweight for it's pulling capacity
- Fast line speeds
- Rugged planetary gear sets

SEC8(es) Electric Winch

- 100' of synthetic rope with ballistic sheathing on drum and outer layer
- 100' of galvanized cable
- Best in class performance

Recovery Gear

Off-Road Recovery Kit

- Innovative design
- Self contained kit
- Premium components

Heavy-Duty Recovery Kit

- Premium components
- Weatherproof construction
- Removable work tray

Plug and Play Wireless Remote

The industry's first truly wireless remote! Add a little convenience to your vehicle recovery: No more cutting and splicing, Mile Marker's new "Plug and Play" Wireless Remote Control is an effortless way to operate your winch. Simply plug the receiver in to your control box, and you are ready for wireless operation up to 50' away. The system includes a weatherproof, shock-resistant transmitter with dual-color operator feedback, and magnet-mounted receiver to get you up and running quickly.

Part No. 7076 - can adapt to any electric winch, regardless of manufacturer.

- No cutting or splicing wires
- Operable up to 50' away
- Plugs directly in to control box
- Adaptable to our hydraulic winches
- Weatherproof, shock-resistant transmitter with LED feedback
- Adaptable to any electric winch, regardless of manufacturer

ATV/UTV Recovery Kit

- Versatile case design
- Weatherproof construction
- Premium components

ATV/UTV Recovery Kit

Air Accessories

Part No. 00041 - Tire Inflation Gun (Normally Closed Chuck, 200 PSI Inline Gauge)

Part No. 00042 - Digital Tire Inflation Gun, 2.5" Gauge, Reads Up to 200 PSI, with Carry Bag

Part No. 00043 - Inflation Kit with 2.5" Mechanical Gauge Tire Gun, 150 PSI, 30' Hose, Carry Bag

Part No. 90052 - Digital Tire Pressure Gauge (0-100 PSI, measures in PSI/BAR, blue backlit display)

Repair Kits and Tools

Carrying the appropriate tire accessories is essential when you're traveling off road. Not only do tires require regular PSI adjustment to suit differing terrain, it's not unusual to get several punctures in one day.

Part No.	Application
1000010	Speedy Seal Tire Repair Kit
ARB505	E-Z Deflator Kit
ARB605	Tire Inflator With Gauge
ARB506	Tire Pressure Gauge; 0-75 PSI; Analog Display; With Flexible Hose/ Dual Chuck
ARB508	Tire Pressure Gauge; 3-1/2 Inch Diameter Gauge; 0-50 PSI With KPA/ BAR; Analog Display; With Flexible Hose/ Dual Chuck

ARB

4X4 ACCESSORIES

X-Jack Exhaust Operated Jack

- Suited to use in sand, mud and snow
- Lifting capacity of 4,400 lbs.
- Provides up to 31" of vehicle lift

Part No. 72X10

Portable Air Compressor

- Built with sealed components for moisture and dust resistance
- Motors are thermal cut-out protected against damage caused by extreme temperature use

Part No. CKMP12 - 100PSI Max Pressure; 2.65 CFM; Battery Clamps; Without Air Tank; 12 Volt; Pressure Switch/ 19 Foot Air Hose

Part No. CKMTP12 - Twin High Performance; 150 PSI Max Pressure; 6.16 CFM; Battery Clamps

Medium-Duty Winch Accessory Kit

For Winches Up To 10,000 lbs. Everything You Need In One Kit

- Includes snatch block, tree protector strap, 2 D-shackles, and 2" x 30' recovery strap
- Heavyweight denier carry bag
- New WARN winching gloves

Part No. 88900

Winching Gloves

All new WARN winch gloves provide superior fit and protection. These gloves are designed to protect your hands from the sharp barbs and abrasion that may occur when handling winch rope.

- Durable synthetic leather with Kevlar reinforcement resists abrasion
- Extra reinforcements provide superior knuckle and fingertip protection
- Shock Absorbing Palm
- Terry cloth sweat wipe
- Neoprene wrist and pull strap
- ID Tag

Part No. 91650 - Large

Part No. 88995 - XL

Part No. 91600 - XXL

Premium Winch Accessories

Snatch Block

It also helps to reduce heat buildup and amp draw during recovery. Coated with Cerakote and able to accept both wire and synthetic rope.

Part No. 92188 - Rated to 12,000 lbs

Winch Hook

Cerakote coating provides maximum protection and reliability against wear and abrasion. Uniquely designed with built-in beverage opener.

Part No. 92091 - For 18,000 lbs.

Part No. 92090 - For 12,000 lbs.

Shackle

This forged steel clevis shackle provides a means for connecting the looped ends of cables, straps, and snatch blocks.

Part No. 92093 - Premium Shackle

3/4" - For 18,000 lb

Receiver Shackle Bracket

- Combines a heavy-duty receiver bracket with a 3/4" shackle
- Uses standard Class III receiver hitch as a recovery point

Part No. 29312

Wireless Winch Control

- Control your winch from up to 50' away
- Sealed for protection against the elements
- Easy plug-and-play installation
- Activation sequence guards against accidental power-ups
- Kit includes wireless transmitter, receiver, holster, lanyard and mounting hardware

Part No. 90287 - For Truck and Utility Winches.

Works with all five-wire truck winches and WARN 3700 DC, 4000 DC, and 4700 DC utility winches

WARN Spydura® Synthetic Rope

- Constructed of a unique ultra high molecular weight polyethylene material
- Delivers high abrasion resistance and excellent tensile strength
- Coated with urethane for increased UV and chemical resistance
- Includes a high temperature resistant sleeve on the first layer, and a unique self-tightening rope attachment designed to hold the rope secure on the winch drum
- A ballistic nylon sliding sleeve provides extra protection against abrasion and wear
- For winches with 10,000 lbs. pull rating or less

Part No. 87915 - 100' of 3/8" diameter synthetic rope

Part No. 88468 - 80' of 3/8" diameter synthetic rope

NEW

Spydura® Pro Synthetic Rope

Heat Treated Construction for Improved Strength

Spydura Pro synthetic winch rope using Spectra® 1000 is heat treated offering the maximum in tensile strength and load bearing capacity. The compacted diameter prevents sand and dirt from penetrating the fibers and extends the life of the rope. Coated with high temperature urethane, equipped with a temperature resistant sleeve on the first layer and a ballistic nylon sliding sleeve, Spydura Pro synthetic winch rope provides extreme protection against heat, wear and abrasion.

For 12K or Smaller Winches

Part No.	Description
93120	80'x3/8"
96040	100'x3/8"

For 18K or Smaller Winches

91820	100'x7/16"
-------	------------

Tree Trunk Protector

Rigging strap is used to secure winch rope to anchor point.

Part No. 88997 - 2" x 8' Rated to 14,400 lbs. breaking strength

Part No. 88995 - 4" x 8' Rated to 30,000 lbs. breaking strength.

Premium Recovery Strap

Best in the Industry

- Use a recovery strap to "snatch" or pull out a stuck vehicle
- Nylon webbing absorbs the shock of heavy pulls, while the elastic rebound energy aids in quick recovery

Part No. 88922 - 2" x 30' strap

Part No. 88922 - 3" x 30' strap

Roller Fairlead Cover

Part No. 60390 - For Standard Mounting Kit

Synthetic Rope Extensions

93118	25'x3/8"
93119	50'x3/8"

Spydura® Pro Rope Extension

93121	25'x3/8"
93122	50'x3/8"

ProLink XXL

Replace conventional winch hooks with the new safer, stronger, and smarter Factor 55 ProLink and ProLink XXL shackle mounts.

Made in the USA from 6000 series billet aluminum and is equipped with a 6Al-4V titanium double shear pin. In this case the shear pin diameter is .750" The base of the XXL is protected by the barbed high durometer EPDM rubber guard. With a working load limit of 24,000 lbs. and an ultimate failure of over 63,000 lbs.

Flatlink Industry's First Folding Shackle Mount

Eliminate the conventional winch hook and replace it with a safer and stronger FlatLink shackle thimble and D-ring.

- Compatible with all roller fairlead license plate mounting brackets
- When folded flat – less than 1.75" of thickness
- Weight – 23 ounces
- Max load rating : 16,000 lbs.
- Ultimate failure : greater than 40,000 lbs.
- Fits steel cables and synthetic winch ropes to 3/8" diameters

Part No. 000150_ - ProLink
Part No. 002100_ - ProLink XXL
Part No. 000500_ - FlatLink

Add to end of Part No. 1-Red, 2-Blue, 4-Black, 5-Silver, 6-Gray

ProLink

- Screw pin shackles are up to 5X stronger than conventional winch hooks
- Conventional hooks are too small to safely fit both ends of a recovery strap
- Billet construction — precision machined from 6061-T6 Kaiser
- 16,000 pound max load rating

The Best Vehicle Recovery Rope Ever!

Bubba Rope® is the original tougher, safer, kinetic energy recovery rope, developed from our military contracts for pulling off-road vehicles out of mud, sand or snow. It is the only snatch rope with a heavy vinyl polymer coating, Gator-ized® eyes, and a FREE mesh carrying case.

Recovery Ropes

Colors shown are standard. Custom colors available by special order.

Part No.	Application
176660BLG	Bubba - 7/8"x20' Blue
176680RDG	Bubba - 7/8"x30' Red
176700ORG	Big Bubba - 1-1/4"x30' Orange
176655BKG	Renegade - 3/4"x20' Camo Green

Gator-Jaw™ Soft Shackles

Named "Best New 4x4 Product At SEMA"

- **Stronger Than Steel** - 32,000 lbs. breaking strength
- **It Floats** - no more losing shackles in the water or muck
- **Flexible** - easily wraps around the most difficult pulling points
- **One Piece Construction** - no pins to fasten

Part No. 176745

The Tree Hugger™

Designed to protect your winch line from girdling the bark off nature's tree trunks (Ouch!) or fraying your synthetic winch line during off-road vehicle recovery. Made from 3 inch wide 100% polyester neon orange webbing. The Tree Hugger™ has a minimum breaking strength of 58,000 lbs.

Part No. 176006OR - 6'
Part No. 176000OR - 10'
Part No. 176016OR - 16'

Synthetic Replacement Winch Line

The most advanced winch replacement line for steel and other synthetic winch ropes. We started with a rigid non-metal eye. Strong as steel but safer and lighter than a heavy steel thimble. We coated the entire rope in heavy Gator-ized® vinyl armor resulting in no line "fuzzing" and better protection against abrasion, sand and ultraviolet light.

- Color banded every 10' to gauge amount of rope out
- Includes a Gator-Jaw® and removable Life Guard™ for added rope protection
- Repairable

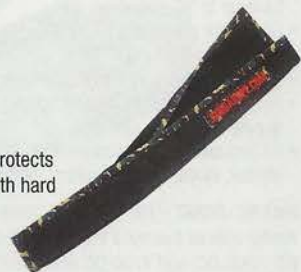

Part No. 176756X80

Life Guard Your Bubba Rope®

Made from tough Kevlar® material, the Life Guard protects your Bubba Rope® from coming in direct contact with hard or abrasive surfaces during your recovery process.

Part No. 175993 - Bubba 2' x 8"
Part No. 175994 - Big Bubba 2' x 9"

29312	Receiver D-Ring (Zinc)
29312B	Receiver D-Ring (Blk)
29313	Receiver D-Ring Fits 2.5" Receiver

R.U.T. Recovery Utility Tool

- Compact foldable military style shovel
- Soft side storage bag included
- Polycarbonate handle and neck
- Serrated edge to handle the roughest conditions
- Double position neck allows picking or shoveling

Part No. 2728 - Recovery Utility Tool

Tire Repair Kit

- Storage binder included
- Self-vulcanizing plugs
- Needle nose pliers
- Ergo strong aluminum handles for a lifetime of service
- Tire pressure gauge
- Extra valve stems

Part No. 2733 - Tire Repair Kit

Torx - Multi Tool

- 3/8" ratchet included
- 9 Chrome Vanadium bits included
- T15 to T55
- T50 (Tamper Proof) included
- Ballistic Nylon carrying case included
- Steel rail included

Part No. 2830 - 9-Piece Set

Universal Tire Deflators

Part No. 2723 - 4 Pack Tire Deflator

Jeep® Winch Cradle

Part No. 2811 - Winch Cradle

A.E.R. All Element Ramp

- Stackable design
- Can support up to 7,700 lbs.
- Manufactured of nylon reinforced plastic
- Sold in pairs, includes nylon storage bag
- Perfect for mud, snow, sand or loose terrain

Part No. 2790 - A.E.R. Ramp

Restraint Systems

- Simply connects at the top corners to existing seatbelt shoulder straps while the base of the restraint attaches to various floor mount options
- Design is intended to secure cargo within the back seating area enabling the utilization of the rear of the vehicle for storage purposes
- Fits in all vehicles makes and models. Are simple to attach and easy to use

Jack Strap Handle Holder

We now offer the better holder – the "Jack Strap" Hi-Lift-style jack securer. It keeps your jack from rattling - or what have you - while traveling.

- Fits Hi-Lift-Style off-road jacks
- Stays on the jack all the time, because our design allows the handle to complete its ratcheting cycle
- Other designs have to be taken off to allow the jack to move upward
- The perfect solution for a persistent problem

Part No. 99466
Add "G" For Black
Add "R" For Red

- Part No. 56200 - 07-16 Wrangler

T-One® Connectors

T-One® Connectors require no splicing of vehicle wires. Simply locate your vehicles' wiring harness connector, unplug the connection, and insert the T-One Connector into the vehicle's harness. No special tools required.

118000 Series

Adjustable Tow Bars

5,000 Lbs. Adjustable Tow Bar Lightweight, Only 31 lbs.

- Arms adjust from 26" to 41" for universal fit
- Tow bar mounting brackets bolt securely to vehicle bumper (almost all applications will require a custom fabricated bracket due to bumper design)

Part No. 63180 - Adjustable Tow Bar, 5,000 lbs. GVW, Including Mounting Brackets

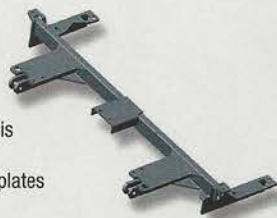

NOTE: Total weight of towed vehicle must not exceed 5,000 lbs. or must not exceed the weight of the towing vehicle.

Wrangler Tow Bar Baseplates

Our baseplates are designed specifically to respect the beauty and design of your Jeep®. On most, they won't protrude out, hang below or rise above your bumper or grill. Bolts permanently to the chassis of the towed vehicle and provides a secure, reliable attachment point for tow bars. Demco believes baseplates should be "... accessible, but not visible."

- Part No. 9518292 - 07-16 Wrangler; 2 or 4 Door
- Part No. 9518045 - 97-06 Wrangler (Sport, Sahara, Rubicon, Unlimited)

YAKIMA®

TAKE MORE FRIENDS™

SpareRide™ Spare Tire Dual Bike Rack

The SpareRide attaches directly to the spare tire's mounting bolts for a secure, snug fit. Yakima's SuperCush anti-sway cradles and removable ZipStrips help provide stability and eliminate bike-to-bike contact. Bike arms easily fold down when not in use. SpareRide comes with 2 integrated bottle openers on the bike arms, a locking SKS Tightening Knob and a 5' SKS Locking Cable for complete security.

Part No. 8002599

42" Hardtop Track Kit For 07-16 Wrangler

Complete track system ready to install to fiberglass tops. Kit includes Control Tower (4 pack), Landing Pad (2 pairs), 58" crossbars, and 42" tracks with CapNut hardware.

Part No. 8001616

MegaWarrior

Ginormous MegaWarrior rooftop cargo baskets are great for carrying heaps of things – like bikes, skis, boats, luggage, spare tires, shovels, and back-seat drivers who won't pipe down on long road trips. (Okay, maybe not that last one.)

Part No. 8007080 - 52" x 48" x 6.5"

Part No. 8007070 - LoadWarrior 44" x 39" x 6.5"

Spare Tire Carrier

Everybody knows the best place to carry a spare tire is in your cargo basket (as opposed to around your waist).

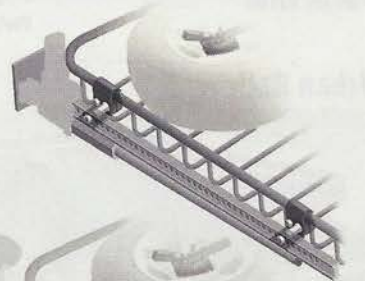

Part No. 8007076 - Up to a 35" Tire

Hi-Lift Jack Carrier

Jacks tend to be greasy and dirty and are best carried on your basket instead of the inside of your car. (Sorry to stereotype those of you who happen to be named Jack.)

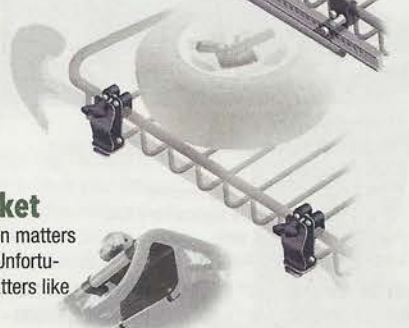

Part No. 8007077

Axe/Shovel Bracket

Hey, you never know when you're going to need to build a log cabin and/or dig a latrine.

Part No. 8007078

Light Mounting Bracket

These handy brackets shed light on matters in and around your cargo basket. Unfortunately, they don't shed light on matters like the meaning of life, though.

Part No. 8007075

Overhead Storage Console

- Constructed from durable blow-molded High-Density polyethylene
- A non-skid pad is adhered to the inside of the console to help keep your gear from sliding around, and a mesh storage net helps keep it safely stowed yet easily accessible
- Measures 41.5"x2.5"x6.5" and offers more than 450 sq. cubic inches of storage

Part No. 1355114 - 07-14 Wrangler

Rear Seat Cargo Organizer

The perfect organization solution for your Jeep®. The new Rugged Ridge Rear Seat Organizer features storage areas to organize wayward trash, toys, drinks, iPods and other clutter. Each organizer is designed to instantly fit into the rear cup holders of your 2011 to 2016 Jeep® Wrangler and includes a lid with integrated hinge to keep objects from flying out when the top is down. Patent Pending.

Part No. 1355150 - 11-16 Wrangler JK

Cargo Bag

Rugged ridge has the answer for your onboard storage needs. These soft side storage bags feature heavy canvas construction and oversized zippers. Great for carrying recovery gear, spare parts, camping gear, clothes, or any other necessity for a wheeling trip. Rugged nylon straps keep the bags in place during even the most insane wheeling. Make the most out of your roll cage with a full complement of Rugged ridge storage bags. These bags are easy to install and take off and work with both hard tops and soft tops.

Part No. 1355101 - 97-15 Wrangler JK

VERTICALLY DRIVEN PRODUCTS

C3 (Configurable Cargo Covers) For JK

Keeping you on the-go with ease, the patent pending rear Configurable Cargo Covers (C3) offer complete protection for the rear cargo area of your Jeep. Protecting the carpet and plastic trim from damage, scratches, pet claws, dirt and other debris, will keep your Jeep™ looking pristine. Also creates a waterproof, pet-friendly space for long trips. Rugged Ridge C3 Rear Cargo Covers, ready for whatever.

- Allows for 60/40 split
- Built in front curtain keeps pets from entering front of Jeep
- Side retention system keeps cover in place

 Part No. 1297503 - Cargo Liner, Black, 11-16 Wrangler JK

4X4 ACCESSORIES

A. Ground Swag Tents

- Waterproof - Suitable for all weather conditions
- Spacious - Available in both single and double widths
- Comfortable - Mattress included
- Freestanding - Fast set up with 3 poles and external clip system
- Saves space - Pillow and bedding are intended to be rolled up and transported inside swag
- Features pockets, key and flash light clips and wide brim hat holder
- YKK zippers throughout the swag design
- Rain gutters
- Head and foot awnings

Part No.	Description
SDS100	82.7" L x 35.4" W x 33.5" H
SDS200	82.7" L x 55.1" W x 31.5" H

B. Rooftop Tent & Awnings

- Strength, rigidity and water resistance
- Manufactured from high quality, poly/cotton fabric
- Sturdy aluminum retractable ladder
- High density bonded chip foam mattress with removable cover
- Insect screened windows and doors.
- UV stabilized laminated PVC cover
- 55 Inch Width x 94-1/2 Inch Long x 51 Inch High

Part No.	Description
ARB3201	Series III Simpson; Rooftop
4401A	98.43" x 98.43"
4402A	78.74" x 98.43"

C. Sport Camping Chair

Camping chairs on the market today are built to meet a price point, not built to last. ARB tested many chairs for strength and durability before finding a design that could stand up to the task. It features aluminum arm rests and a slightly larger form factor than the standard chairs on the market, but still compact enough to be folded and packed in a carry bag.

Part No. 10500100

D. Roller Drawer System

The 5012020 incorporates a single Roller Drawer and an integrated roller floor top. The design allows for plenty of accessible and secure storage in the drawer. While the roller drawer function is self-explanatory, the roller floor provides easy access to an ARB Fridge Freezer or other gear.

Part No. 5012020 - 07-15 Wrangler Unlimited

E. Fridge Freezers

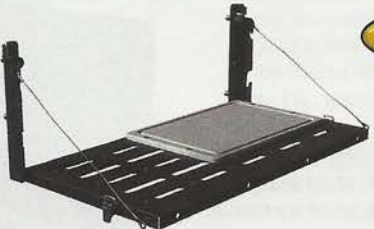

- 100% CFC free, low ampere draw, ice free operation
- Recessed powder coated steel fixed carry handles
- Operates at extreme angles up to 30°
- Integrated battery protection system

Part No.	Description
10800352	37 Quart
10800472	50 Quart
10800602	63 Quart
10800782	82 Quart

TERAFLEX

Tailgate Table with Cutting Board

The large table is designed to provide maximum use while on the trail, and folds vertical when not in use. It is constructed from lightweight aluminum with stainless steel hardware and is rated for 75 Pounds of evenly distributed load capacity. The table also includes a polyethylene cutting board, trash bag hooks, and a bottle opener. Multiple slots and holes allow for attaching accessories to the underside.

Part No. 4804180 - 07-15 Wrangler

First Aid Storage Bag

This First Aid storage bag consists of several individual pouches to store your first aid essentials. Attaches to the rollbars in (3) locations. Can be stored in an easy access location for emergency needs.

Part No. 769541

Warn WL Series LED Spot and Flood Lights

- Cutting edge optical design
- Refractec optics extract the maximum amount of light out of the latest generation Cree LEDs, while producing more overall effective lumens and candela
- 50,000+ hour LED lifespan
- Die-cast aluminum housing
- Durable polycarbonate lens
- Voltage protection
- Thermal management – heat sink
- IP68 waterproof rating
- Designed, engineered, and assembled in the USA
- Includes mounting hardware and harness

Part No.	Description
93910	4" Light Pod Spot – Single
93920	4" Light Pod Spot – Pair

Part No. 82420

Part No. 82425

W700D-HID Driving Lights

At 7" (17.8 cm) in diameter, these HID lights deliver outstanding range and spread and will blaze a trail of intense white light through the darkest off-road terrain. The Xenon HID bulb is 300% brighter—and lasts 10 times longer—than 55W halogens. Features include tempered clear glass lenses, vaporized aluminum over die-cast aluminum reflectors for outstanding light output, and impact and corrosion-resistant polymer cases for great weather resistance. The integrated ballast and wireless control switch allow for a straightforward installation.

Kit contains two lights, mounting hardware, wireless control, transmitter, wiring, rock guards, and covers.

W650D Driving Lights

These big 6.5" (16.5 cm) halogen lights deliver outstanding performance, great value, and are ideal for increased visibility on the trail. Features include 55W H3 halogen bulbs, hardened clear glass lenses, vaporized aluminum over steel reflectors for maximum output, steel cases with a powder-coated finish for great weather resistance, and a thin profile for increased mounting options. These lights also come with a wireless control switch for simple installation.

Kit contains two lights, mounting hardware, wireless control, transmitter, wiring, rock guards, and covers.

W650F Fog Beams

Designed to light the way through foggy, rainy, dusty, or snowy conditions, these fog beams feature large 6.5" (16.5 cm) diameter lenses and broad 70-degree beam spread. The hardened clear glass lenses have a dichroic coating for a low-glare yellow light. Features include 55W H3 halogen bulbs, vaporized aluminum over steel reflectors for great light output, thin-profile powder-coated steel cases for excellent water resistance, and a wireless control switch for hassle-free installation.

Kit contains two lights, mounting hardware, wireless control, transmitter, wiring, rock guards, and covers.

Jeep® JK Fog Light Replacement Kit

Our Jeep® JK fog light replacement kit allows you to mount our D-Series (Dually or D2) LED lights in your JK's OEM fog lamp locations. This kit gives your otherwise square D-Series lights a clean from-the-factory look without having to drill or cut into your bumper. Made from high quality stainless steel, these adaptor plates are powder-coated black for a long-lasting finish. This kit comes with everything you need to install D-Series lights in both fog light locations and is backed by a limited lifetime warranty.

Part No. 40138 - 07-14 Wrangler

KC HiLITES

Gravity Series LED

- Gravity LEDs combine projected LED lighting with precision reflector optics for increased distance vision
- IP68 rated
- Driving and fog beam models are SAE/ECE street legal
- 6" Gravity LED Inserts convert halogen KC Daylighters® into LED lights

PIAA

RF Series Hybrid SAE Compliant LED

The RF Series Hybrid meets SAE and E-Code specifications for beam pattern control and output so you can drive without worry of failing an inspection. This makes for an easy transition from off-road driving to street legal use. The hybrid beam pattern is the ideal combination between a driving and fog pattern, providing the perfect distance and width to light up off-road terrain.

- Cast aluminum housing
- Reflector Facing Technology uses Rear-facing LEDs for maximum output and precision
- Modular design allows connecting bars to achieve a desired length

Part No.	Description
2607106	6" RF Series Hybrid
2607110	10" RF Series Hybrid
2607118	18" RF Series Hybrid

540 Series 5" Diameter

- Bulb Type 12V- H3 55w=85w XTRA Fog, and 12V-H3 55w=110w XTRA Xtreme White for driving, SAE compliant
- Black stamped steel housing, glass lens, and mesh style covers
- Kit comes complete with pre-assembled wiring harnesses

Part No. 05461 - Plasma Ion Fog
Part No. 05462 - Xtreme White Driving

RF Series 3" LED Cube Light Kits

The PIAA RF3 3" LED Cube light features Reflector-facing LEDs that project off of an ingenious computer-designed multi-surface reflector offering more illumination than forward facing LED Lights. The RF3 kit includes two lights, mounting brackets, and complete wiring harness and detailed installation instructions.

- Two 8-watt LED bulbs
- 6000K Color temperature for a pure white output
- Low profile, cast aluminum housing
- High strength polycarbonate lens

Part No.	Description
07603	Driving Beam (SAE Compliant)
07340	Flood Beam

Custom Fit Lamp Kits

- These kits allow the simple installation of our premium lamps for replacement or addition of our performance driving lamps
- Kits include driving lamps, complete harness with switch and fuse, hardware and instructions.

10060	60" 16,200 lm	162	13.5A
10070	70" 18,900 lm	189	15.75A

All Luminix LED Light Bars include one wiring harness, one rocker switch, and two sets of installation brackets in tall and short.

Curved Luminix LED Light Bars - 6 Degree Radius

- High Power Luminix LED Light Bars deliver high quality, universal bright lighting that is 300% smaller than other light bars on the market
- Constructed of black powder-coated 6061 billet aluminum, feature Nichia 5.4W LEDs, and focus lenses that concentrate the light beam path
- Each bar comes fully assembled and ready to mount
- The miniaturized size of this bar makes it ideal for installation in narrow openings
- The bars are available in 5" - 70" lengths and include a wiring harness and standard mounting hardware

Part No.	Curved Luminix LED Light Bars	Wattage	
		Per Bar	AMP Draw

Cyclone LED Under Hood Light Kit

- For added under hood illumination
- Compact 2.2" diameter and flat profile
- IP68 rated dust and waterproof
- Easily attaches anywhere with a Dzus clip or other readily available fasteners
- Protected against RFI/EMC interference
- Includes wiring harness, weatherproof switch and mounting hardware

Part No. 351

Gravity 4" LED Replacement JK Fog Lights

- SAE/ECE certified street legal
- IP68 rated & protected against EMI interference
- 6,500K color temperature

Part No. 494 - Pair

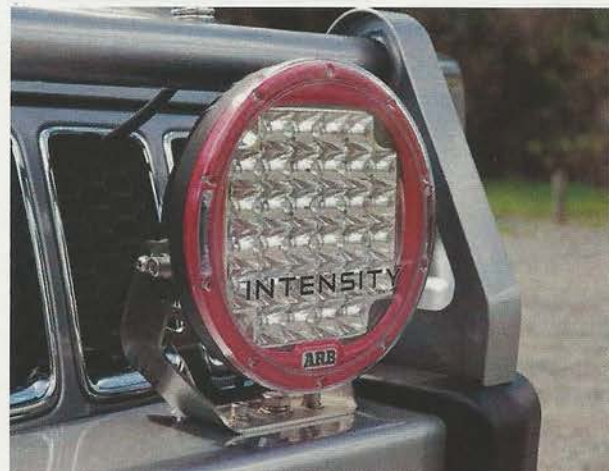

4X4 ACCESSORIES

Intensity LED Lights

- High pressure cast A360 aluminum body, integrated thermal management
- Unbreakable polycarbonate lens, protected against RFI/EMC interference
- UV stable moulded polycarbonate lens cover
- Multiple position stainless steel mount
- Durable UV stable polyester powder-coat
- The pressure cast aluminum housing acts as a heat sink to draw heat generated from the electronics away from the LED array, thus increasing efficiency and life of the LED
- Has a cap screw pivot bolt with tamper proof TORX® security fasteners used on the adjuster nut for improved security

Part No. AR32F - Driving/Fog Light - Flood Beam

Part No. AR32S - Driving/Fog Light - Spot Beam

Windshield Mount and LED Light Bar Combo For 15-16 Renegade

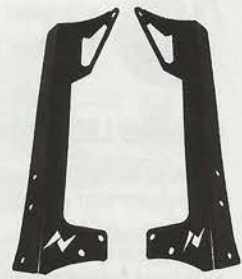

Daystar's KJ81000BK LED light bar and mounting bracket system is specifically designed and engineered to fit all models of the new Jeep™ Renegade. This System includes our unique 40" KC LED light bar and Mounting System.

- Black powder coat finish
 - Mounts to factory roof rack
 - No drilling required
 - Combo beam spot and spread LED reflectors
 - Comes complete with wiring harness
 - Go everywhere limited lifetime warranty
- Part No. KJ81000BK**

Windshield Light Bar Mount

AnzoUSA™ introduces a new line of tubular mounting clamps to compliment our new off road lights. Our mounting kits provide a stable mounting point for AnzoUSA™ universal/off-road lighting products on most brush guards, bull bars and push bars with rounded tubing. Our tubular clamps are made of 6063 Aluminum with a black anodized finish that is corrosion proof and will withstand the harshest of environments.

Part No. 851033 - 07-15 Wrangler

Luminix Roof Mount

Adding Putco Luminix Custom LED Light Mounting Brackets are a great way to get a vehicle specific installation for your Luminix LED Light Bar. The stainless steel mounting hardware along with the adjustable brackets allow for a clean installation to the roof or bumper of your specified vehicle. Once on your ride the light will provide optimal seeing power. Using the Putco Luminix Custom Light Mounting Brackets will sustain through anything. Made from durable quality materials each bracket will hold up to daily wear and tear. Don't let this product pass you by, optimize your Luminix lightbar.

Part No. 2180 - 07-15 Wrangler JK

Light Bar

- Rugged, fully welded design for extra strength
 - Textured black powder coated finish
 - Facilitates mounting of light above the windshield
 - Easy assembly and installation
 - Four light mounting tabs
- Part No. J017T - 07-15 Wrangler JK**

Hood Mount Kit

If you ever wanted to place a light bar directly on your Jeep®'s hood, without punching through the hood itself. Now you can. Our one of a kind hood bracket let's you secure a 10 or 20 Inch light bar directly on your hood. The bracket, made of powder coated stainless steel attaches securely to the hinges on your Jeep®'s hood. Installation is simple and easy. Comes with a limited lifetime warranty.

Part No. 40332 - 07-15 Wrangler JK
Part No. 40333 - 07-15 Wrangler JK

A-Pillar Mounts

- No drilling necessary
- Perfect for Optimus or Cannon series
- Add up to 5,000 lumens

Part No. 9888408 - 07-15 Wrangler JK

Trektop™ Pro

Industry First: All-Season Soft Top with Glass Windows

- Industry-first hard rear glass hatch on a soft top for easy, one hand operation and easy accessibility to rear cargo area
- Premium 30-oz. triple-layer black acrylic twill fabric for durability and great, no-wrinkles appearance
- Bestop's Sunrider® flip-back panel for open air driving
- Weighs up to 50 lbs. less than a hard top, can help save gas
- Sliding glass side windows for extra ventilation for front & rear seat passengers or pets
- Easy install or removal of rear hatch and side window panels
- Rear glass hatch has gas assist struts and integrated defroster connector plus rear wiper motor assembly mounting point
- Rear hatch is removable unlike factory or aftermarket hard tops
- With side panels and rear glass removed, Trektop™ Pro becomes a Safari Bikini®

Part No.	Application
5485317	07-16 Trektop™ Pro for Wrangler Unlimited
5485217	07-16 Trektop™ Pro for Wrangler (Two Door)
5485701	Optional Defroster/Wiper Harness
5485801	Optional Wiper Motor Assembly

Window Storage Portfolio Bag

- Holds Trektop™ Pro rear glass hatch and both side window panels
- Designed to hang from seat headrests when removing on the go

Part No. 4281101

Trektop™ Pro window panels install or remove quickly without zippers. Top Rails have custom-sized channel that let windows slide into or out of the channels. Bottom of window panels attach to the Belt-Rail® channel in the body for a complete seal.

Trektop™ Pro has modular Top Rails that join door surrounds to the Arch Body for a solid, secure structure. Simple, bolt-on install without drilling or punching holes.

Trektop™ Pro has an integrated defroster connector that hooks up to your factory wiring bundle on hardtop Wranglers. Bestop also offers an optional harness for Wranglers that didn't have a hardtop, plus an optional Wiper Motor Assembly.

Trektop™ Pro has real glass that works just like a factory hardtop. No more unzipping the rear window, no more tailgate bar to remove. Just open the tailgate and the gas-assist struts lift the hatch with just the pull of one hand.

Bestop's Belt-Rail® channel design means no more unzipping windows. Window panels slip into extrusion channels in the Arch Module for a complete seal at the rear glass.

Trektop™ NX Fastback Styling

Best Seller!

Bestop's "bowless" fastback top. The Trektop NX features removable windows, factory style-door surrounds, Sunrider sunroof features, and factory-style header bar. The Trektop NX takes away the top bows and frames, and uses the Wrangler sport bars to give it shape and support. This gives the top a look that's stylish, and different than factory soft tops.

- With side and rear windows removed, the Trektop NX functions as a Safari Bikini® Top
- Includes fabric, tinted side and rear windows, factory-style door surrounds, tailgate bar
- Fabric maintains its shape in all temperatures, is mildew-resistant, contains UV inhibitors
- Tailgate bar allows you to open tailgate without opening the rear window
- Top Arch bar spans above the seating area to keep top tight, reduce flapping, and minimize puddling
- Choose the optional door style you want; use your existing full steel doors, or use any Bestop door kit (sold separately) including 2-piece doors, upper fabric doors, element doors or lower fabric half doors
- Two year warranty

Trektop™ NX Black Twill

All the features of the NX, but with these upgrades:

- 30 oz. triple-layer black twill fabric for superior durability
- Wrinkle resistance creates smooth appearance and softer feel in all weather
- 40 Mil. DOT approved tinted rear and side windows

Supertop™ NX

Bestop's factory style soft top comes with factory-style door surrounds, factory-style windshield channel, and tinted windows. Plus, it includes a Top Arch to support the fabric, quick release bow knuckles for tool-less top removal, and a new adjustable plate to keep top taught.

- Complete top with OEM style hardware
- Fold back sunroof feature
- Multiple door kits available
- Two year warranty

Black Twill Supertop™ NX

Same Features as the Supertop NX but with the following upgrades:

- 30 oz. triple-layer Black Twill Fabric for superior durability and looks
- Greater softness and flexibility in all temperatures
- 40 mil. D.O.T. approved 31% tinted side and rear vinyl windows
- Lifetime limited warranty

Rugged Ridge

Exo-Top Replacement Soft Top and Integrated Roof Rack

**Two-door Version
Coming Soon**

The Exo-Top is an innovative new design that for the first time ever combines the joy of top-down driving with the utility of a roof rack, taking convenience, function, and style to new levels. By combining the soft top and roof rack, the Exo-Top allows owners to fully utilize their JK for any lifestyle hobby they may have. This new top also features an innovative Sun Slider retractable function which allows the top to slide back with the release of just two latches, creating an open-top experience for owners without the hassle of getting out of the driver's seat. Integrated into the 300-lb. capacity roof rack is an advanced externally suspended soft-top design that fastens using a series of Velcro straps along the perimeter bars of the roof rack. The Exo-Top features a patent-pending design that is a direct bolt-on application with no drilling required.

JK ActionTruck Conversion Kit

The ActionTruck by Thaler Design is a complete truck conversion kit that is designed with simplicity and ease of installation. The unique bolt-on kit can be installed in a day in your driveway with no expensive tools or equipment. The one-piece hand laid fiberglass bed is designed to install easily over the existing cargo area of the Jeep® Unlimited. The hardtop features a hinged rear window for rear cargo access, and a removable one-piece sun top for open air driving. Sport bar braces bolt to factory sport bar tie-in points. Rear door cargo access is retained with a door filler incorporating an integrated side access panel to gain easy entry to the rear cabin cargo area. The ActionTruck by Thaler Design is truly an understated truck conversion kit with factory styling and attention to detail.

Part No. 18616 - 07-15 JK Wrangler Unlimited 4 door

Note: ActionTruck is primarily to enhance the aesthetic appearance of the Jeep®. No safety characteristics are expressed or implied and should not be relied upon to contain or protect occupants in the event of an accident or falling objects. Never operate the Jeep® in excess of the vehicle manufacturer's specifications.

"Venom" Heat Extraction Hood

Introducing the all-new Venom Hood by Owens Products. A fully functioning heat extraction hood ready to transform your Jeep™ into the aggressive style you have been looking for. Constructed of fiberglass and reinforced with aluminum strength supports, the Venom Hood nearly reduces the weight by 50% and will keep a solid structure for rock crawling and off-road use. Let your engine breathe and make your statement with the Venom Hood.

With stamped steel construction and a factory-style inner structure, this hood fits like the original while creating 50% more vented surface area than other performance hoods on the market today. The SRT inspired design gives a great aggressive look. Vents are removable to make it easier to paint. Uses factory attachment points.

Part No. **1775901**

Hood Vents and Cowls for JK

Superchips Offers More HP & Off-Read Features Than Any Other Jeep Programmer On The Market.

flashpaq FOR JEEP

NEW

Easy-to-use graphic interface, high-resolution color screen, scan features, and tuning levels

- Crawl tune for low speed off-roading in 4WD
- Speed limiter adjustments
- 4WD-hi axle lock
- Speedometer correction for tire size and gear ratio changes
- Diagnostic code read/clear
- Idle up for winching

flashcal FOR JEEP

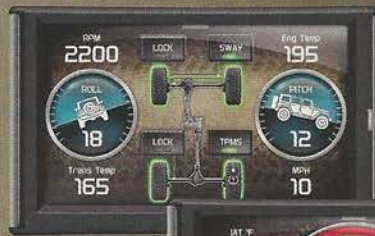

Part No.	Application
3874	98-14 Jeep® Gas
3876	15-16 Jeep® Gas
3571	Flashcal F5 Jeep® JK Wrangler

TRAILDASH

NEW

TD2

- In-cab monitoring
- Custom background/mystyle
- Color touch screen display
- Video capable
- Screen auto-dim
- Compatible with expandable accessory system (EAS)
- Alerts and records
- Custom pod/mount available
- Display true speed on monitor
- Speedometer correction

Part No.	Application

38301	07-10 Wrangler Dash Pod

DIABLOSPORT
GASOLINE AND DIESEL TUNING SYSTEMS

NEW

- All New "Easy Tune" mode for simple tune installation
- Add horsepower and torque while increasing fuel mileage
- OBD-II data logging and clear DTCs
- Adjustable vehicle parameters like tire size, speed limiters and more
- Easy updates via Wi-Fi, PC, or Mac OS X
- Massive Performance Boost
- Faster Processor
- Upgraded Touch Screen Display
- Allows for custom tunes that calibrate for additional bolt-on mods

Part No. i2010 - 05-14 Jeep®

NEW

SuperTuner

On average provides 30+ HP and 40' lbs. of torque.

- Performance Test (0-60, 1/4 Mile testing)
- Speedometer correction and calibration
- Internet updateable
- Tire Size adjustment
- Axle gear ratio adjustment
- Shift point and firmness adjustment
- Speed and rev limiter adjustment
- Diagnostic capability
- Read and clear trouble codes with explanation of codes
- 3 tunes included in the device: Performance, tow and economy
- 50 STATE LEGAL! CARB Certified with existing E.O. numbers on gas

Part No. 49503 - 98-14 Jeep® Gas

HYPERTECH
The World Leader In High-Performance Engine Tuning Products

INTERCEPTOR™
Power Tuning™

Hypertech's new product, the Interceptor, is a smart technology design that works with today's generation of complex engine computers. The Interceptor easily mounts under the hood of a vehicle and plugs into the factory harness to constantly monitor the vehicle's functions. It then automatically recalculates the factory's computer performance calibrations with legendary Hypertech Power Tuning. This means more horsepower and torque, quicker acceleration, better driveability, and improved MPG.

Part No.	Application
705003	11-14 Grand Cherokee 5.7L HEMI™
705005	12-14 Grand Cherokee SRT-8 6.4L HEMI™
705006	12-14 Wrangler JK 3.6L
755006	12-14 Wrangler JK 3.6L (Special Edition Version with Programmer)

NEW

MAX ENERGY 2.0
POWER PROGRAMMER

- More power to save fuel-Hypertech users report 1-3 MPG gains
- Larger backlit LCD screen for quick/easy setup and user-friendly navigation for simple installation, tuning, and feature options
- Reprogram TPMS Pressure Warning For Larger Tires
- Top-Speed Limiter
- Rev Limiter
- Speedometer Calibrator
- 1-4 Skip Shift
- Automatic Transmission Adjustments
- Cooling Fan "On/Off" Temperatures
- V8/V4 Mode Adjustments
- 0-60 MPH Electronic Throttle Restriction

Gas and E85 vehicles get optimized Power Tuning for regular and premium octane with gains up to +48 Hp/+61 Tq Gas/E85 Vehicles (Depending on application)

Part No. 2000 - 07-14 Jeep® Gas

GT PLATINUM GAS

The GT Platinum is four products in one remarkable unit: a vehicle engine tuner, monitor, gauge, and diagnostic device all in a single unit. The remarkable GT transforms the utility of your vehicle by increasing horsepower, improving fuel economy, and providing a comprehensive set of monitoring features and diagnostic functions. Other tuning products don't hold a candle to the Triple Dog GT - it has the largest feature set and the widest range of vehicle applications from a single product.

Part No.	Description
40417	GT Platinum Gas
40410	50-State GT Gas

Power Sprint Booster Controller

- Reduces throttle response time
- Improved acceleration
- Easy to install
- Does not affect the vehicle's electronic system
- Three position settings: factory (off), Sport (green), Race (red)

Part No. 7716203 - Jeep® Wrangler (JK) 14-15 V6 (M/T)
 Part No. 7716204 - Jeep® Wrangler (JK)/Grand Cherokee (WK2) 14-15 V6/V8 (A/T)

Throttle Sensitivity Booster

Boosts throttle sensitivity and engine response to reduce pedal lag and creates snappier driving performance. BD's Throttle Sensitivity Booster is an easy to install module with factory connections and is adjustable to boost throttle signals by 50% or 100%.

Part No. 1057712 - 07-16 Wrangler/Liberty/Grand Cherokee

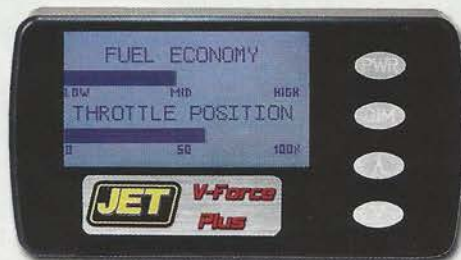

Performance Modules

Point by point air/fuel, ignition advance, transmission, and various other tuning points provide performance gains of up to 25 HP. Stage 1 is for stock engines; Stage 2 is for vehicles with performance exhaust and thermostat.

Stage 1	Stage 2	
Part No.	Part No.	Application
—	90709S	07-08 Grand Cherokee 6.1L/Auto
90701	—	07-08 Liberty 3.7L/Auto/Man
90710	—	07-08 Wrangler 3.8L/Auto/Man

91201	91201S	11-16 Wrangler 3.6L

Adds More Power!

V-Force Plus

The JET V-Force Plus is designed for the performance enthusiast who wants improved performance, acceleration, and the ability to monitor vehicle information. The V-Force Plus will optimize ignition advance and fuel maps for optimum horsepower and drivability. In addition, the software allows the user to select from 14 different screens to monitor throttle position, mass air flow, manifold pressure, fuel economy, and air/fuel ratio.

Part No. 68030 - 97-11 Wrangler TJ/JK, 4 and 6 cyl.

Brute Force Intakes

AEM BRUTE FORCE intakes deliver the most Air Power for your truck, SUV, or fuel-injected muscle car.

- Manufactured and assembled in the USA
- AEM's lifetime DRYFLOW Synthetic air filter is 99.53% efficient in FINE DUST testing, filters dirt as small as one micron, and never needs filter oil!
- 50-state legal or pending legality

Part No.	Application
218314D	07-11 Wrangler 3.8L
218311D	97-06 Wrangler 4.0L
218316DS	12-16 Wrangler 3.6L

Add Color Code to end of Part No. C-Silver, P-Polished

Banks Ram-Air® Intake System

Banks Ram-Air Intake System replaces the factory's flat panel filter with a large conical lifetime filter that provides maximum high-flow filtration. The Ram-Air's opening dwarfs the stock's inlet, without the 90° detours that choke airflow and kill power. The huge inlet, enclosed housing and much larger tubing reduce restrictions, dramatically improving airflow to the cylinders. The results are impressive: Banks Ram-Air outflows the stock intake by 73%, improving the Jeep®'s power and fuel economy.

Part No.	Application
41837	12-16 Wrangler JK 3.6L
41832	07-11 Wrangler JK 3.8L
41816	97-06 Wrangler TJ 4.0L

Air Intake Systems

- For maximum CFM and performance look for Pro 5 R (progressive 5 layers of oiled cotton media)
- For maximum convenience and protection look for Pro Dry S (2 oil free progressive synthetic media layers)
- aFe cold air intakes out-perform all other intakes and produce increased horsepower and torque!

Pro 5R Part No.	Pro Dry S Part No.	Year	Application	Engine

Snorkel Systems for Jeep® Wrangler

NEW

A safari snorkel system relocates your engine's air intake point from the relatively low and vulnerable position under the hood to a much higher and safer location where a constant source of cool, clean, dry air is available. Install one before your next trip and breathe easier knowing that your engine is protected by a safari snorkel.

Part No.	Application
SS1066HF	07-11 Wrangler (2-4 Door) 3.8L V6 Gas Engine (Left Hand Drive)
SS1070HF	12-16 3.6L Wrangler (2-4 Door) Pentastar V6 (Left Hand Drive)
SS1055HF ^{1,2}	09/99-06 Wrangler TJ/ Wrangler Unlimited 4.0L, Petrol, Right Side Mount ¹
SS1050HF ^{1,2}	To 8/99 Wrangler TJ/4.0L, Petrol, Right Side Mount ¹
SS1000HF ^{1,2}	All Wrangler YJ Inline Six, 4.0L, Petrol, Fuel Injected

¹ Snorkel will interfere with removal of doors.
² 4 cyl. models may need modification.

CAI Intake Kits

- The only polyethylene, fully-boxed intake on the market
- Removable aluminum lid for easy filter access
- Full box offers reduced intake noise compared to open systems

Part No.	Application	Style
175406	00-06 Wrangler TJ/Rubicon 4.0L	Pro-5 Filter
16157	11-15 Cherokee 5.7L	Pro-5 Filter
176386	07-11 Wrangler JK 3.8L	Powercore
17636	12-15 Wrangler JK 3.6L	Pro-5 Filter

Periscoop

- Works with Volant's CAI Intake system
- Protects your filter from moisture, dirt and allows you to make deep water crossings without stalling
- Marine-grade, stainless steel clamps and silicone sleeves to ensure a tight and reliable fit
- Hood seal adaptor funnels air from a hood-mounted snorkel that extends up the passenger side of the vehicle to the roof-line

Part No.	Application	Description
37640	04-06 Wrangler TJ 4.0L	Periscoop snorkel only*
37638	07-11 Wrangler JK 3.8L	Snorkel only
37738	07-11 Wrangler JK 3.8L	Full kit intake and snorkel
377366	12-16 Wrangler JK 3.6L	Periscoop only
37736	12-16 Wrangler JK 3.6L	Full Kit

*Must be used with Intake Kit #175406

XHD Snorkel Kits

- The new Modular XHD Snorkel System from Rugged Ridge relocates the vulnerable stock air intake location to help reduce dust clogged filters and the risk of hydro-locking your engine
- Also the first snorkel designed with the modular functionality of a low mount and ram high mount air intake design
- The Modular XHD Snorkel System comes standard with the pre-filter low mount
- The pre-filter low mount relocates the air intake to just below the windshield and draws cool air from outside the hot engine compartment
- The optional ram high mount design allows the air intake to be extended up an additional 21" to the top of the windshield
- The system is manufactured from premium thermoformed plastic, mandrel bent aluminum and hi-temp silicone connection hoses
- Built-in manual drain valves channel away excess water to prevent it from entering the intake system

Part No.	Application
1775621	12-16 Wrangler 3.6L
1775620	07-11 Wrangler 3.8L

OFF CAMBER FABRICATIONS

BY MBRP

Off Camber Fabrications Exhaust Systems

We designed a brand new muffler for the JK that draws out every bit of available power. It keeps a civilized rumble on the streets but once it's unleashed, hear it roar. We then created a muffler relocate system that pushes the muffler ahead of the axle and out of harm's way. Products that Jeep[®] owner's want- that's MBRP's commitment to leadership through innovation.

Cat-Back Dual Exhaust for JK 07-15 (2/4 Door)

Because Jeep® enthusiasts need more power from idle to 3,000 RPM, Gibson designed their Jeep® exhaust to enhance low and mid range performance for climbing and towing. This Split Rear Exhaust exits straight out the back, with Dual Large diameter Tip. Hassle free, bolt-on installation with professional results.

- 2.50" Mandrel bent tubing
- Baffled and chambered muffler, no internal packing, powerful deep tone
- 3.50" Polished T304 stainless round slash-cut tip
- Bolt on installation with all hardware
- Lifetime limited warranty

Monster Exhaust Systems

Constructed entirely of heavy-gauge stainless steel, Banks Monster features a supersized, 2.5-inch tailpipe with a stainless tailpipe tip polished to a mirror finish. Monster Muffler, Banks' straight-through performance muffler, is the industry's least restrictive, more than doubling the stock flow. Monster virtually eliminates backpressure from the catalytic converter back, for more power and efficiency—and an authoritative, yet civil, exhaust note.

American Thunder Cat-Back Exhaust With Improved Off-Road Clearance

This 2-1/2" system features a 409S stainless steel mandrel bent tailpipe with a 3" polished stainless steel tip and fits both 2 and 4 door models with the 3.6L and 3.8L V6 engines. This system replaces the factory transverse muffler and relocates the Super HP-2 muffler behind the factory catalytic converter, providing a moderate to aggressive sound level. This relocation allows for better ground clearance when driving off-road. Because the tailpipe is tucked up so high, an aftermarket metal bumper is recommended.

- Stainless steel construction
- Provides maximum off-road clearance
- Patented laminar flow technology
- Lifetime limited warranty

Part No. 817674 - 07-15 Jeep® Wrangler 2Dr/4Dr with 3.6L or 3.8L

Red Pack Glasspack Mufflers

- High temp red coating
- Dyno proven
- Anti-corrosive aluminized body
- Straight-through performance design
- Traditional glasspack sound
- Sound of horsepower from idle to full throttle
- Loose fiber acoustic packing material for cost effective performance

Trail Rocker

Introducing the Trail Rocker from Painless, allowing you to control up to eight accessories on your JK. The heart of this kit is enclosed in the weatherproof housing that surrounds the power center with eight fuses and relays. Controlling it, are five prewired switches mounted in our custom dash panel for a clean factory installed look inside your Jeep®. The power center then provides you with all the necessary weatherproof connectors and wiring to connect to your Jeep® accessories ranging from lights to air lockers.

- Weatherproof housing around the power center and connections
- Custom bolt-on powder coated bracket for the power center
- Switch panel mounts 5 LED switches in a factory non-intrusive dash location

Dual Battery Tray

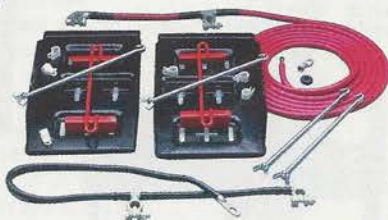

Will accommodate 2 Optima series 34 and 34/78 or the OEM batteries side by side in the stock location. This easy bolt-in kit bolts into existing holes comes powder coated black and retains OEM air filter box.

Part No. JKDBT12 - 12+ Wrangler JK.

TAYLOR
TAYLOR CABLE PRODUCTS, INC.

Trunk Mount Battery Relocation Kits A Must For The Serious Off-Roader!

- Provides better weight distribution
- Reduces engine compartment clutter
- Better traction
- Fits most cars and up to Group 27 batteries
- Kits Include:
 - Heavy-duty, 2-gauge, 100% solid copper cable
 - Brass battery terminals
 - All necessary hardware

Part No. 48000 - Single Battery Kit

Part No. 48020 - Single Kit w/1ga. Welding Cable

Part No. 48500 - Dual Kit/Side by Side

OPTIMA[®]
BATTERIES
THE ULTIMATE POWER SOURCE

The Optima Battery

- Spiral cell design protects it from heat and vibration
- If battery is damaged, it will not leak and will continue to work
- Delivers more dependable starts in extreme weather
- High starting capacity

Part No. 3478 - 800 CCA - 104 Minutes

- Faster and a more efficient recharge
- Delivers more power quickly during peak demand
- Consistent voltage throughout delivery

Part No. D3478 - 650 CCA - 120 Minutes

DENSO

Iridium Power Spark Plugs

- Iridium is a metal that is 6 times harder, 8 times stronger, and is capable of withstanding temperatures 1,200°F hotter than platinum
- Ultra-fine 0.4mm diameter iridium electrode
- Tapered U-Groove ground electrode
- Requires less voltage from the ignition and increases acceleration by 2%

BOSCH

Platinum+4

Four ground electrodes, the most platinum and the most powerful spark

- Bosch Platinum+4 has the most platinum and delivers smoother acceleration, top fuel economy and ultimate engine performance
- Revolutionary Surface Air Gap Firing Technology using four yttrium enhanced electrodes delivers a longer, more powerful spark for the most efficient combustion, plus a longer performance life
- Never Requires Gapping—the electrode gap is factory-set and never requires adjustment

Platinum Plus

Bosch exclusive platinum technology for premium performance

- Bosch Platinum Plus combines a platinum center electrode, plus a tapered, yttrium-enhanced ground electrode for quicker starts, smoother acceleration, increased fuel efficiency, and a 25% longer performance life
- Lower Ignition Voltage Requirement—reliable starting and a more reliable spark without misfires
- Factory Set Gap—once the proper gap is set, there's no need to re-gap

Blaster High Vibration Coil

This coil is the best for harsh conditions. The sturdy metal housing of the High Vibration Coil is potted with premium-grade two-part epoxy to completely encase the coils' primary and secondary windings, protecting the coils internal components from vibrations encountered in harsh racing conditions.

C.A.R.B. Approved: E.O. D-40-15

Part No. 8222

MSD-BLASTER 2 High Energy Coil

High-quality, high-energy coil for use with all MSD Ignition Controls from street to track, off-road to marine. Alkyd top provides greater insulation for the higher voltages generated by the increased turns ratio.

C.A.R.B. Approved: E.O. D-40-27

Part No.	Description
8200*	Chrome Universal Coil
8202*	For MSD Ignitions
8203*	Universal Coil
8223	Blaster 3, extra tall tower design

*Includes ballast resistor

Pro-Billet Distributors

- Easy-to-adjust mechanical advance with supplied springs and stop bushings
- Vacuum advance canister for improved economy (can be locked out)
- CNC-machined billet aluminum housing and billet aluminum base
- Polished steel shaft is QPQ coated and guided by a sealed ball bearing
- Advance plate and weights are fine blanked from chrome moly steel and QPQ coated for friction reduction
- Supplied with a socket style distributor cap and rotor
- Must be used with an MSD Ignition Control
- CARB E.O. Approved

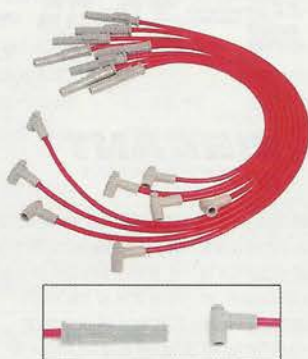

Part No. 8516 - AMC/Jeep® 232-258 4.0L

Part No. 8519 - AMC/Jeep® 290, 304, 343, 360, 390, 401

Super Conductor Spark Plug Wires

The MSD 8.5 Millimeter Super Conductor® is the ultimate performance wire. The super conductor uses a copper alloy conductor resulting in less than 50 Ohms per Foot of wire. This ensures that the most energy possible makes it to the spark plug. Cap off each end with our dual crimp terminals and you have the best wire available.

Part No. 32239 - 91-95 Wrangler, 97-98 Wrangler

Flame-Thrower

Performance Coils

- Better fuel economy
- More horsepower
- Smoother running
- Quicker starts

While it's the perfect coil to go with the PerTronix Ignitor breakerless ignition, our 40,000 Volt Flame-Thrower canister coil can benefit virtually any distributor type inductive system. Its higher Voltage allows larger spark plug gaps for added power, smoother response and better fuel economy. These coils are internally resisted so installation and wiring is drastically simplified.

Chrome Part No.	Black Part No.	Flame-Thrower 40,000 Volt Coils (Recommended for Ignitor Equipped Applications)
40001	40011	1.5 ohm oil filled canister coil
40501	40511	3.0 ohm oil filled canister coil

SuperStock 8mm Spiral Core Wire Sets

- 550°F-rated
- Street-driven applications
- 8mm red high-temperature silicone jacket resists moisture, chemicals, and severe temperatures
- High-strength fiberglass braid for added "pull strength" silicone insulation eliminates arcing
- Stainless steel plug terminals for high electrical conductivity and corrosion resistance

Part No. 5133R - 91-00 Wrangler 2.5L 4-cyl. engine

Part No. 5129R - 91-99 Wrangler 4.0L 6-cyl. engine

Chrysler Super Coil

- Rated at 42,000 volts at 1.0 ohms resistance
- Direct bolt-in install
- Quicker starts, improved idle, crisp throttle response and higher top RPM power

Part No. 140021 - Jeep® 2.4L and 4.0L engines

Black Magic X-Treme Fan

All-new, bigger, and more powerful than any other single fan on the market. Most radiators are rectangular, not square. To get the most out of any type of fan, it's best to cover as much of the radiator core as possible. Flex-a-lite designed a high-performance electric fan that does exactly that.

Part No. 485
87-05 Jeep® Wrangler 4/6 cyl

Mojave Heaters

The Mojave heater **Part No. 640** is designed to add heat and comfort to your ride. Its design offers many mounting options and an optional plenum sold separately **Part No. 650** includes adjustable louvers and a flange for defroster ducting.

Part No. 655 includes adjustable louvers. Lower profile design for installation in tight spaces.

Electric Fan Relays With Thermostatic Switch

This Fan-Thom II kit comes with a threaded thermostat that screws into the engine block or intake manifold for a professional-looking installation. This is inexpensive protection for an electric fan and a vehicle's wire harness. Provides constant voltage, protects from voltage and amperage spikes, and prevents the fan from back feeding voltage through the vehicle's wire harness.

Part No. 30102 - Fan Relay Kit, 200° on/185° off thermostat
Part No. 30103 - Fan Relay Kit, 185° on/170° off thermostat

High Performance Waterless Engine Coolant

- Boiling point: Above 375° Fahrenheit
- Protects below -40° Fahrenheit
- Reduces system pressure, prevents overheating, maximizes brake horsepower
- Eliminates corrosion and erosion
- Protects for life
- Non-toxic

Part No. EC53001 - 1 Gallon Jug

Jeep® Cooling Performance Radiators

- Full aluminum construction including durable, TIG-welded end tanks
- Features a two-row, 1.97" thick, efficient brazed aluminum core
- Increases fluid capacity by .36 gal
- Provides a proven 20% improvement in fluid cooling efficiency, ideal for use on the street or trails
- Engineered for use in both stock and highly modified vehicles
- Includes 1.3 Bar high-pressure radiator cap and magnetic drain plug

Part No.	Application
MMRADWRA87	87-06 Wrangler 2.5L 4.0L
MMRADWRA07	07-14 Wrangler

Racing Thermostat

- Low activation temperature than stock jeep wrangler thermostat allows coolant to flow through the system earlier
- Reduces and maintains lower engine coolant temperatures
- Ideal for vehicles in warm climates or under extreme towing/driving conditions
- Utilizes high-quality wax for reliable, repeatable operation

Part No. MMTSWRA12 - 11-15 Wrangler 3.6L

Jeep® Wrangler Performance Electric Fan Kit

- Replaces fan clutch, fan shroud and new shroud mounts to factory locations
- Complete kit
- Radiator reservoir remount brackets included
- Aluminum shroud
- Thermostatic control included
- A/C override circuit included

Part No. 20161

Direct Fit Jeep® Mission Cooler Kit

- Reduces fluid temperatures 30-40° F
- Perfect for rock crawling and off-road use when airflow is limited
- Complete kit includes
- Dramatically increases transmission life
- Thermostatically controlled 500 CFM electric fan for optimal cooling
- Mounts to frame rail with no drilling

Part No. 20561

Fittings

Vibrant performance offers a vast line of aluminum and steel fluid transfer fittings! Whether it's an oil, water, coolant or fuel application, we have one of the most comprehensive offerings of precision manufactured adapter and reusable an fittings to address all of your project needs.

20000 Series

Avenger Carburetors

The off-road Truck Avenger is designed specifically for off-road applications. The unique, fuel-metering block eliminates fuel spillover through the boosters at extreme angles allowing for 40° climbing, 30° side hill maneuvers and nose-down descents to avoid hesitations, stalling, and flooding typically associated with carbs in an off-road environment. The 470 cfm off-road Truck Avenger is the perfect carburetor for 4 cylinder, V-6, and inline 6 cylinder engines.

Part No. 090470 - 470 CFM

Part No. 090670 - 670 CFM

Street Performance 2-Barrel Carburetor

- Manual choke
- 50cc accelerator pump
- 1 timed (spark) port, 1 full vacuum, and 1 PCV port
- Intended as stock performance replacement for 2-bbl street applications. Also mandated carbs for some oval track racing sanctioning bodies
- Ford A/T kickdown, does not work with A.O.D. transmissions

4-Barrel Street Carburetor

- Vacuum secondaries allow use on wide variety of vehicles
- Electric choke for easy warm up
- Single feed fuel inlet
- 1 timed (spark) port, 1 full vacuum, and 1 PCV port
- Intended for small V-8 or 6 cyl. engines and 2 x 4 street tunnel ram set-ups
- Ford A/T kickdown, does not work with A.O.D. transmissions

Electric Fuel Pumps

- Tumble polished billet look
- New lower housing casting for enhanced fuel flow and quieter operation
- Improved design for street/strip applications
- Not designed or recommended for use with fuel injection systems

Part No. 128011 - Street Perf. - 97GPH free flow, 71GPH at 4PSI

Part No. 128021 - Comp. Perf. - 110GPH free flow, 88GPH at 9PSI, (Regulator Incl.)

Part No. 12803 - Fuel Pres. Regulator - 4.5-9 PSI, Standard

Part No. 128151 - 14 PSI, 140 GPH

High Flow E85 and Gasoline Fuel Pumps

- AEM's High Flow in-tank and inline
- Fuel Pumps are designed for high performance naturally aspirated and forced induction EFI vehicles.
- In-tank high flow fuel pumps
- In-tank pumps flow up to 320 lph (84 gph) at 43 PSI and are capable of supporting over 1,000 HP at 43 PSI

Part No.	Application
501000	320 lph High Flow In-Tank Fuel Pump (Offset Inlet, Inline)
501200	320 lph E-85 Compatible In-Tank Fuel Pump (Offset Inlet, Inline)
501205	320 lph E-85 Compatible In-Tank Fuel Pump (Center Inlet)
501210	310 lph E-85 Compatible In-Tank Fuel Pump (Short Offset Inlet, Inline)
501215	320 lph E-85 Compatible In-Tank Fuel Pump (65mm Short Offset Inlet with Hooks, Inline)
501220	320 lph E-85 Compatible In-Tank Fuel Pump (65mm Short Offset Inlet without Hooks, Inline)

Jeep® is a registered trademark of FCA US LLC. More Applications Available.

Oil Filter Relocation Kit

- Allows you to relocate your oil filter where you want it
- Each kit includes an oil filter bypass adapter, a single or dual remote filter base, a 30" hose kit, all fittings, hardware, and complete installation instructions

Part No. 1113 - 91-01 Jeep® Cherokee w/ PH16 Filter

Part No. 1156 - Compact replacement oil filter

High Energy Cams

- Work well with mainly stock components (rockers, manifolds, heads, compression, converters, gears)
- Good blend of efficiency and performance
- Perfect choice for performance rebuilds
- Great choice for engines where performance upgrades are not planned

AMC/Jeep® 199-258, 4.0L

Part No. 682004 - 252H, excellent torque, throttle response, smooth idle

Part No. 682014 - 260H, great for towing, 4wd and off-road, smooth idle

Part No. 82212 - High-energy hydraulic lifters

Part No. 92612 - Single outer valve springs w/damper, 1.476"

Motor and Transmission Mounts

- Re-engineered to handle higher horsepower and torque
- Outlasts rubber mounts by a wide margin
- Made of HYPER-FLEX™ performance polyurethane

97-06 Jeep® Wrangler Transmission Mount

TERAFLEX NEW

JK Big Brake Kit

The TeraFlex JK Front big brake kit is designed as a factory brake upgrade for JK owners looking for a performance brake package that will handle the increased braking requirements needed after larger wheels and tires are used. The simple bolt-on upgrade installation requires no cutting, welding or adapter bracketry. The big brake kit features oversized 56mm dual piston calipers for increased clamping force and surface area. The 13.3" Mill-balanced vented slotted rotor provides greater braking leverage to allow stopping distance to be decreased substantially and decreases heat buildup. The Composite-resin, semi-metallic pads have excellent cold stopping power resulting in maximum initial speed scrub, increase pad life and reduce noise & dust. **Note: A minimum of 17" diameter wheels must be run with the big brake kit.**

Part No. 4303420 - 07-16 Wrangler

POWERSTOP

1-Click Brake Kits

- Fast, easy and affordable solution for better braking
- Offers more pad bite without noise and dust
- Silver zinc plated cross-drilled and slotted rotors are reverse engineered from oem samples
- Carbon fiber infused Evolution™ ceramic formula for superior braking power
- Pad surfaces are thermal scorched for a fast break-in
- Premium rubberized shims provides virtually noise-free braking

Part No. K279836 - 07-15 Wrangler Z36 Extreme Carbon Fiber Ceramic Brake Pads
Part No. K2798 - 07-15 Wrangler Carbon Fiber Ceramic Brake Pads

MGP CALIPER COVERS

- Enhance your wheel appearance
- Protects wheels from brake dust
- Easy installation, fewer than 10 minutes!
- 6061-T6 aerospace aluminum
- Bridge union is TIG welded for strength
- CNC precision engraving for customization
- Hydraulically formed to fit each caliper
- Powder-coating and custom paint match

Before

After

Rear Disc Brake Conversion

The TeraFlex disc brake kit is ideal for anyone wanting to upgrade a quality disc brake package to their axles. This disc brake kit is intended for use as a bolt-on upgrade to replace factory Jeep® drum brakes. The internal drum parking brake provides outstanding holding power when compared to other disc brake conversion kits. Fits all Jeep® factory rear axles from 1991 through 2006, including the Dana 35 c-clip, Dana 44 and Chrysler 8.25. Emergency brake cables are sold separately.

Part No. 4354420 - 91-95 Wrangler, 97-06 Wrangler

Brake Line Kits

TeraFlex DOT approved stainless steel braided brake lines are designed for JK applications. These stainless line kits will prevent line expansion, thereby giving a much firmer-feeling pedal. All brake lines measure longer than stock for additional brake line length. All stainless brake lines are made to MVSS-1006 specifications.

Part No.	Application
4353310	07-16 Wrangler 26" Front Kit
4350310	07-16 Wrangler 30" Rear Kit

EBC BRAKES

Yellowstuff Brake Pads

Yellowstuff is especially appreciated for towing and heavy loads and where wheel and tire oversize upgrades have been fitted. Yellowstuff is not rated as low dust and creates similar dust to OEM pads. Drivers love it because normally race pads require warm up but not the EBC Yellowstuff. This compound works well from cold and is therefore a perfect solution if you simply want the best stopping power you can get for street use on a Jeep® where the brakes are "Marginal" from the factory or you have enhanced your ride with oversize wheels tires or raised suspension.

Part No.	Application

TERAFLEX

HD Differential Cover

TeraFlex heavy duty differential covers are designed to offer extreme protection from rocks, obstacles and other debris on the trail. The cover is cast from the same high-strength ductile-iron as our HD axle housings. The cover is over 3/8" thick to ensure protection

Part No.	Description
3990660	Dana 60
3990630	Dana 30
3990650	Dana 44

4X4 ACCESSORIES

Off-Road Differential Cover

When off road, it is inevitable that obstacles and off road hazards will be encountered that could potentially inflict expensive damage to your differential. To prevent this, ARB manufactures the differential cover. Using high tensile nodular iron, it has been engineered to protect the differential and ring and pinion set from any off road hazards.

Part No. 0750004 - Dana 35
**Dana 60 shown*

Machined Differential Cover

- Constructed out of heavy-duty, durable, nodular iron
- Dual neodymium magnetic plugs are used for maximum gear protection
- A 1/8" NPT calibration plug set to the factory fluid level for easier/quicker filling
- Machined groove to accept supplied O-ring for a leak free seal

Part No. 4670162 - 12 Bolt, 9-3/4" Rear
Part No. 4670166 - Dana 44, 12 Bolt
Part No. 4670192 - Dana 30, 10 Bolt

Differential Cover

- 10 Bolt
 - With drain plug
 - Chrome, steel
- 9238 - DANA 30

Boulder Differential Cover

- Constructed from A356-T6 cast aluminum for strong impact resistance
- Features a precision machined sealing surface, allowing gaskets or RTV sealant to be used for a leak-free seal

Part No. 1659512 - Dana 44, 10 Bolt
Part No. 1659513 - Dana 30, 10 Bolt

Air Locker

- Provides 100% traction on demand without affecting on road drivability or driveline wear
- Easy, convenient operation allows the user to concentrate on the terrain without leaving the comfort and safety of the driver's seat
- Ultra durable and extremely strong - only the highest quality materials used in construction
- Requires a Differential Locker

1 Will Not Fit Rubicon Models
2 Aftermarket Axle Shafts Required, Not supplied by ARB

3 Will work with JK Rubicon Dana 44 housing
4 Will work with JK Rubicon Dana 44 gears ONLY ONLY

All Jeep® JK Dana 44 ring gears are thick and require a 3.73 and down carrier. The RD 117, RD 147 & RD 157 are all 3.73 and down carriers and are suitable for the JK Dana 44 housing and ring and pinion gear sets.

Air Supply - Air Compressors

- Constructed primarily of light weight, high strength, engineering grade materials, including military and aerospace standard components
- Pressure switch controlled air manifold system regulates pressure between 9.3Bar [135PSI] and 10.3Bar [150PSI] suited to air tools and all ARB Air Locker equipped vehicles
- Highest air flow rate of any 12V compressor of its size on the market at 174LPM [6.16CFM]
- High efficiency design consumes only 56 Amps at maximum air flow

Part No. CKMTA12 - 12V
Part No. CKMTA24 - 24V

Synthetic Gear Oils Shockproof® Gear Oil (GL-5)

Recommended for heavily loaded racing differentials and transmissions which see shockloading. Contains a unique solid dispersion which cushions gear teeth to help prevent tooth breakage and allows the use of lower viscosities.

- Part No. 58504 - SuperLight (Quart)
- Part No. 58404 - LightWeight (Quart)
- Part No. 58204 - Heavy (Quart)

GL-5 Gear Oil for Differentials

Designed to provide excellent low-temperature shiftability and improved gear protection at higher temperatures. The synthetic base stocks used have tremendous thermal stability and provide the best film strength available.

Part No.	Description
57904	75W90 GL-5
58304	75W90NS GL-5 (for transaxle use)
57914	75W140 GL-5
58104	80W140 GL-5
57804	75W110 GL-5

Synthetic Gear Oil

- Heavy-duty, high performance
- Stands up to high performance
- Cools and quiets

- Part No. 10047 - 75W-90
- Part No. 10121 - 75W-140

Max Gear™ Synthetic Differential Oil

Max Gear is recommended for use in truck and automotive front or rear differentials, manual transmissions and lower gear units of marine engines that specify use of an API GL-5 or GL-4 fluid. It is non-corrosive to soft yellow metals (brass, bronze, copper, etc.) and synchronizer safe. Specially designed to extend gear and bearing life. Max Gear makes gears run smoother, quieter, cooler and longer without overhauls. Max Gear is formulated with a friction modifier additive - no additional additives are necessary.

Which Clutch Is Right For You?

- Centerforce® offers multi-level product lines allowing customers to chose a performance clutch that matches their application and driving style
- The unique Centerforce design allows for easy pedal effort and everyday drivability, while offering increased holding capacity for maximum performance
- Centerforce engineers evaluate each assembly and apply their patented processes to increase the clutches holding-capacity and performance

NEW

Billet Steel Flywheel

- Neutral Balance
 - 50.65 Pounds
 - SFI Approved
 - AD/CAM-Designed And CNC-Machined From Billet Steel
 - No-Hassle, Bolt-In Installation
- Part No. 700474** - 07-11 Wrangler

Centerforce® II

- Full-facing-disc with premium friction materials
- Patented Centerforce centrifugal weights (where applicable)
- Static clamp load is increased via their patented machining processes
- Superb holding power and maximum clutch life, making this stage ideal for selected street/strip, off-road, and towing applications

Centerforce Dual Friction®

- Patented processes to provide a performance clutch that offers exceptional street characteristics
- Outstanding holding capacity and durability
- Full facing on the pressure plate side for drivability
- Carbon composite puc style (segmented) on the flywheel side for a positive engagement
- The ultimate in street/strip holding power and performance without sacrificing pedal effort and driver control

Clutch Kit Part No.	Series	Application
KDF643791/ KCFT379176	Centerforce® II	12-15 Wrangler 3.6L
KDF379176	Dual Friction	12-15 Wrangler 3.6L
DF098391	Dual Friction	07-11 Wrangler 3.8L

DF201614	Dual Friction	87-02 Wrangler 2.5L

Megashifter™ Automatic Shifter

With B&M's Megashifter you can't miss a gear. The Megashifter has a universal floor mount that can be trimmed to fit any floor. It is cable operated and includes a 5' cable.

Kit includes a neutral safety switch, backup light switch, lighted gear indicator, and a polished aluminum T-handle.

Part No. 80680 - Jeep® AMC 727, 904 & 999 transmissions; Also Fits GM TH400, 350, 700R4 transmissions.

Ripper Shifter

Engineered for substantially shorter shift throws CNC-machined 303 stainless steel shifter levers and T6 aluminum base houses a special spherical bearing 30% shift throw reduction.

Part No. 45048 - 00-03 Jeep® Wrangler with 350

Clutch Sets

NEW

- 2+ Offers drivability and engagement quality characteristic of the stage 2, but with a 15 to 20% higher torque capacity
- Hub is double sprung with spring cover relieves for flexibility and heat treated components for strength and durability
- Great for street, drag, autocross, road racing, pulling, rallye and drift
- High clamp pressure plate
- High torque sprung hub and disc assembly

Part No.	Application
SJ382	07-11 Wrangler 3.8L - Stage 1 - Segmented Or Full Faced Pure Kevlar Disc With Steel Backing
SJ383H	07-11 Wrangler 3.8L - Stage 2 - Multi-Friction Disc Carbon Semi-Metallic On One Side And Kevlar On The Other
SJ633H	12-13 Wrangler 3.6L - Stage 2 - Multi-Friction Disc Carbon Semi-Metallic On One Side And Kevlar On The Other

Motive Gear®

Ring and Pinions

- CNC start to finish
- Cutting edge lapping
- Indexed tooth spacing
- Central contact pattern
- Computerized heat treatment

Choose The Gear Ratio That Is Best For Your Vehicle

When selecting a Gear Ratio, you should consider the following:

- Tire Size
- Transmission Ratio
- Final Gear Ratio
- Engine RPM at Cruise Speed

The following formula has been developed to calculate the optimum final Gear Ratio to suit your application.

M.P.H X Gear Ratio

Tire Diameter X 336 = rpm _____

The chart shown below shows RPM calculations at 55 MPH for various combinations of final Gear Ratio and Tire Diameter.

According to this chart, the acceptable RPM range is 2000-3000 which is represented by the entire shaded area of the chart. The optimum RPM range is 2300-2600, and it is represented by the white area between the two red areas. When changing ratios to improve mileage, choose a ratio within the red shaded band above the optimum range. When changing ratios to improve power, choose a ratio within the red shaded band below the optimum range.

Gear Ratio	Tire Diameter

Evolution Series Axle Kits

Superior chrome-moly axles use a proprietary dual heat treatment process that gives them ultimate durability. Superior's heat treating, along with our Exclusive Torque Equalizing Diameter Profiles, allows the "short" side axles to have similar ductility or "give" as the "long" side, creating a more reliable and balanced axle assembly. The high-quality and innovative engineering provides you with a 40-50% strength increase over stock axle shafts. Made in the USA.

Selecting a Differential

- Open Differentials: This century-old technology delivers virtually all the engine power to the wheel that begins to slip first. Although open differentials work adequately on ideal driving surfaces, they perform poorly under adverse traction conditions.
- Limited-slip differentials behave very much like open differentials. Through various forms of friction mechanisms, they transfer a relatively small amount of power to the non-slipping wheel. They are generally smooth and quiet, but as the name implies, performance improvement is limited.
- Locking differentials, in effect, lock the two drive wheels together -- somewhat like "spools" that solidly connect the axles together. When powering straight ahead, engine power is equally delivered to both drive wheels. Although locking differentials deliver excellent traction output and allow full wheel differentiation when turning, they are notoriously harsh and noisy.
- Spools are designed to take the place of stock type spider & side gears to provide maximum traction.

Differential Type	Traction	On Road Handling	Off Road Handling	Reliability
Conventional or Open	Poor	Fair	Poor	Fair
Limited Slip	Good	Good	Good	Good
Automatic Locker	Excellent	Fair	Excellent	Excellent
Selectable Locker	Excellent	Good	Excellent	Good
Spool/Mini Spool	Excellent	Poor	Good	Excellent

Eaton® Performance Differentials

Eaton ELocker

- Push button traction
- Positive-electronic lock
- Virtually maintenance free

The ELocker's electromagnetic locking mechanism is the next generation of aftermarket differential technology. Performs as an open differential until you decide that you need more traction.

Designed expressly for 4-wheel drive systems, the ELocker is built with precision forged gears that are designed to mesh perfectly. Its ease of installation, reliability and push-button activation make ELocker an absolute must for all traction and off-road performance applications.

Eaton Detroit Truetrac

- Smooth operation
- Performs open until needed
- Fully automatic limited slip

Detroit Truetrac remains the leading helical gear-type limited slip differential in the industry. Its proven helical gear design eliminates the need for wearable parts, resulting in maintenance free traction. Recognized not only for its toughness but also for the smooth and quiet operation.

Proven design, low cost, and effective performance all make the Detroit Truetrac limited slip differential the ideal choice for a wide variety of vehicle applications. No maintenance...just traction!

For the off-road enthusiast, the Lock-Right Locker is one of the most important additions you could add to your vehicle. High horsepower, lift kits and larger tires will only get you so far on the trail because a loss of traction will leave you stuck. With a Lock-Right installed, you will always get maximum traction to the wheels that need it most. Operation is fully automatic to keep you moving and focused on the trail.

52040415KHD2	YJ Wrangler	87-95	For 4 Springs

Heavy Duty Ball Joint Set

Sets include 1 Upper and 1 Lower Ball Joint with Hardware. The construction of our heavy duty ball joints are steps ahead of an OE style ball joint. We redesigned the internal assembly of the ball joint by replacing the plastic bushings with sintered metal. The characteristics of the sintered metal result in a heavy duty ball joint that will long outlast an OE style ball joint. Installation of our heavy duty ball joints is no different when compared to an OE style ball joint.

Slip Yoke Eliminator and HD CV Propeller Shaft Kit

This kit contains everything you need to convert the rear output of the NP231 transfer case to a fixed-style yoke. Included in this kit is a heavy duty 32 spline main shaft, a short output housing, a CV-style yoke and all the necessary hardware. When paired with the provided propeller shaft, these will result in an extremely strong, vibration free driveline that will provide you with years of worry free driving.

Heavy Duty Differential Covers

NEW

These covers are constructed of 3/8" high grade forged steel with a raised fill plug for extra oil capacity. They feature strengthening ribs to ensure a broken or peeled differential cover doesn't cut the day short. The mating surface is machined flat to ensure a leak-free fitment. All covers are finished in a red powder coat and include flanged hex bolts as well as RTV.

JEEP® IN THE SHOP?

TRUST DORMAN OEM REPLACEMENT PARTS!

630430

Jeep 03-06, front right

AXLE SHAFT

Offering a complete line of Axle Shafts for a wide range of applications. All our Axle Shafts are constructed of high-quality steel for long-lasting durability.

800750

2.5, 4.0L 87-95

AUTO TRANS OIL COOLER LINE CONNECTOR

Constructed from high-quality materials to provide a leak-free connection between transmission lines or between the radiator and the transmission. Replacement restores the radiator to proper operation.

901410

99-01, front left

DOOR WINDOW SWITCH

Tested to ensure trouble-free installation and performance. Switches are designed to last. They're durable against water, debris, and constant use.

748912

07-11, front left

POWER WINDOW MOTOR AND REGULATOR ASSEMBLY

Re-engineered to improve on the original design. The latest technological advances in motors, materials and cable systems have been applied to new and previously released applications.

628301

Cherokee 94-96

AIR BAG CLOCKSPRING

Our Air Bag Clockspring repair solution allows you to replace just the failure prone clock spring not the whole assembly, saving hours of bay time. This re-engineered part allows technicians to safely and securely install a new clock spring into existing

615610

4.0L 99-04, upper

CLUTCH HYDRAULIC LINE

Thoroughly pressure-tested by a team of engineers to ensure quality and ease of replacement, all designed to fit properly. Plus, depending on the application, all necessary attachment hardware and release tools are included

ENGINE INTAKE MANIFOLD

Re-engineered using innovative plastic technology, our Engine Intake Manifold is lighter than the original aluminum design - and easier to install. Since this part is a direct replacement, the exact fit adds another layer of efficiency and con

DORMAN®

Our Power Brands Set the Standard

No other parts manufacturer comes close to matching Federal-Mogul Corporation's portfolio of power brands in terms of reputation and loyalty among customers. Our replacement parts are used in underhood, undercar and other applications in millions of cars, light trucks and commercial vehicles on every continent.

Hub Assemblies

New from Federal-Mogul, the Quick Steer line of hub assemblies is an affordable alternative that covers 95% of all applications while providing quality product at an affordable price.

Hub Assemblies

- Superior oil seal
- OEM-approved bearing design
- OEM ABS sensor and plug
- Precision-matched components
- Post-assembly quality assurance testing
- Engineered for seamless systems operation

Ball Joints

The design and engineering features of Federal-Mogul's MOOG® ball joints ensure that our products will deliver the performance and durability necessary to meet the demanding needs of our customers. The ball-joint housings are forged and/or machined from a single block of fine-grain alloy steel, providing unequaled strength and durability.

Tie Rods

Federal-Mogul's MOOG® brand tie rods feature a patented cover-plate design that captures the full-ball stud between the upper and lower bearings, eliminating axial clearance or "lash." This design consistently produces just the right amount of preload, providing proper steering effort over the life of the part.

Starters and Alternators

We provide alternators, starters, and electric and hybrid motors for the heavy-duty and light-duty original equipment markets, as well as new and remanufactured alternators and starters to the aftermarket.

- Boasts the most compact designs in the industry
- These smaller and lighter components translate into less friction, greater reliability and better performance
- Results in great speed, increased torque and maximum power on the open road
- 100% New premium quality components
- Manufactured to meet and or exceed OEM specifications

National[®] Oil Seals & Bearings

Federal-Mogul's National product line offers extensive coverage of antifriction bearing products for every automotive and heavy-duty wheel end configuration, including:

- Single- and double-row sealed bearings (front and rear wheel)
- Cylindrical roller bearings for semi-floating axle (rear wheel)
- Inner and outer tapered roller bearings for full-floating axle (rear wheel)
- Heavy-duty tapered roller bearings (steer, drive and trailer axles)
- Spindle bearing and inner and outer wheel bearings (front axle/4WD)

Miniature Bulbs

- Wagner offers miniature lamps for turn signals, brake lamps, taillights, and interiors, as well as daytime running lamps
- Federal-Mogul manufactures Wagner miniature lamps with a continuous coil that resists shock and vibration, extending service life. This design also improves candlepower consistency. In addition, we use high-temperature gas so the lamps can be used in the hottest-running applications
- Wagner miniature lamps are built to original equipment specifications

FEDERAL MOGUL

We Make the Brands the World Respects

No other manufacturer in the world has more knowledge about automotive steering solutions than Federal-Mogul. We have decades of experience in initial design and production of steering and suspension components for original equipment manufacturers, coupled with a depth of experience in product replacement in the aftermarket. Our products are precisely made from quality materials, and built with an eye to value.

FEL-PRO

Intake Manifold Gaskets

Leaks at the intake manifold allow too much air to enter the engine, creating problems such as rough idling and stumbling on acceleration. Federal-Mogul's Fel-Pro intake manifold gaskets are made of a rubber or fiber facing over a steel core, use the Fel-Pro PermaTorque® design. Fel-Pro also offer PermaDryPlus® intake manifold gaskets designed specifically to address tough sealing issues and to help ensure a tight seal and prevent leaks.

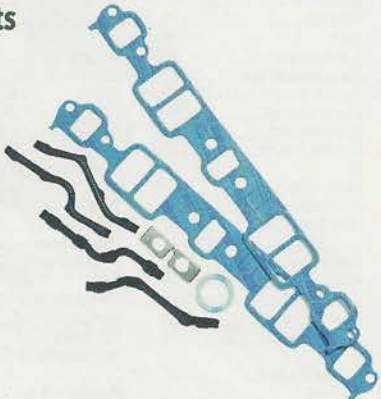

MS Series

Exhaust Manifold Gaskets

Many new engines do not come equipped with exhaust manifold gaskets. Because the castings are new and machined surfaces are smooth, the manifold fits tightly against the cylinder head without leaks. However, prolonged use, high exhaust temperatures, and numerous heating and cooling cycles can cause the manifold sealing surfaces to warp and corrode, leading to leaks. Federal-Mogul offers exhaust manifold gaskets designed and constructed specifically for this situation.

MS Series

TI Automotive

Fuel Pumps and Components

Walbro is the world's largest manufacturer of carburetors and a major manufacturer of ignition systems, fuel injection and air/fuel management components, and fuel storage and delivery components for engines targeted at outdoor power equipment, marine, recreational and two-wheel applications.

NEW

WAGNER OEX

provide patent-pending, customized braking designs for pickups, SUVs and CUVs that consistently deliver optimal stopping performance in all conditions. It allows you to stop up to 50' sooner based on benchmark testing.*

*Results based on 60 MPH post fade performance testing conducted by Link Engineering Company comparing Wagner Brake pads to competitor's brake pads on the 2014 Ford F-150, 2011 Toyota RAV4 and 2013 Chevrolet Tahoe

WAGNER THERMO QUIET Brake Pads

Wagner ThermoQuiet CeramicNXT brake pads feature: Patented IMI one-piece brake pad provides maximum noise damping and dissipates heat generated during braking

- Laser-Shaped Friction technology custom shapes friction to focus caliper force further reducing vibration and eliminating noise
- Comprehensive coverage for foreign and domestic applications - passenger cars, light trucks, SUVs and mini-vans
- OE match friction material - semi-metallic, organic, and ceramic (ceramic alternatives available for select semi-metallic applications)
- Optimal performance - engineered to pass OE manufacturer-developed stopping tests

CHAMPION

Double Platinum Power Spark Plugs

Platinum on both the center and ground electrodes provides longer life and minimal wear. In addition, Champion's fine-wire and V-trimmed electrodes create sharper spark focus than conventional plugs. The electrodes on these plugs use our exclusive Heat-Active™ alloy to reach operating temperatures quickly and maintain stable operating temperatures under varying engine loads.

READY FOR ANYTHING!

ZEON Platinum™ **Ultimate Performance, Advanced Technology** *Now available in 12k Synthetic*

Double The Durability.

The ultimate insurance policy on the trail or jobsite. ZEON Platinum tested TWICE as durable as the previous generation of winches.

New Spydura Pro™ Synthetic Rope.

Heat treated construction for maximum tensile strength, and compacted diameter prevents sand and dirt penetration.

High Performance Package.

Features a new high-performance motor for efficient amp draw and fast line speed, a stronger gear train, and high-strength sleeve-in-drum brake design.

IP68 Waterproof Rating.

See page 55 for all ZEON™ Winches.
